---

Now in Azerbaijan are carried out a number of projects financed by Asian bank. But unfortunately, activity of this creditor is not transparent, the public has no sufficient information. At the same time, payment of credits lie down on shoulders of tax bearers, the population does not know about how these projects can affect improvement of their life, an environment, etc. And to receive the information from creditor uneasily. Up to day the destiny of credits of the bank is not clear. I, as the head of Public Association of Social and economic Researches of Azerbaijan consider that carrying out of some seminars and trainings for eko-active workers is necessary, heads NGO and the population for explain their rights and to help them to understand these questions better.
