Tonga

Item	1984	1985	1986	1987	1988	1989	1990	1991
------	------	------	------	------	------	------	------	------

Footnotes:

- a Series has been revised from 1993 onward. Emigraton has kept the annual growth of the resident population to 0.3 percent in recent years.
- b Except for 1986 and 1996, where data were taken from census, labor data are based on sample surveys. The high unemployment rate together with the decline in employment in all sectors of the economy in 1996 was due to the contractionary conditions Tonga experienced in the last two years due to poor agricultural performance, deteriorating price competitiveness, weakening inward remittances and completion of large aid-financed construction projects.
- c Residual item.
- d Includes net credit to non-monetary financial institutions beginning 1993.
- e For 1996 onward, data refers to weighted averages. Straight averages were used previously.
- f Starting 1996, data were taken from IMF Recent Economic Development. Previous data may not be comparable.

1992	1993	1994	1995	1996	1997	1998	1999	2000	2001
------	------	------	------	------	------	------	------	------	------

g From 1996 onward, data includes lending minus repayments.

h From 1996 onward, data refers to the discrepancy between the overall surplus/deficit and the sum of the other financing items. This discrepancy arises since the Tongan authorities do not compile financing data.

i Refers to recurrent expenditures only.

j From 1997 onward, due to re-exports, the sum of exports by SITC is greater than total exports (f.o.b.).

k For 2000, trade classification was shifted from SITC to Harmonized System (HS).

l Reindexed.
