Footnotes:

Some footnotes apply only to the 18-year series available online.

- Population figures from 1988–1991 are projections from ESCAP. The 1992 and 2002 figures are census data. The 2004 figure is a projection of the Secretariat of the Pacific Community. The rest of the years in between censuses are staff estimates.
- Includes manufacturing and utilities.
- Includes hotels and restaurants.
- Composed of the following subsectors: financial intermediation, real estate, renting and business services; public administration and defense, compulsory social security; education, health and social work, other community, social and personal services; and private households with employed persons.
- 1995–2002 data are available in million US dollars. Figures were converted to Australian dollars using the exchange rates from the IMF, *International Financial Statistics*.
- Prior to 1990, covers trade with Australia and New Zealand only.
