Samoa

- a Figures between intercensal years from 1991 to 2006 were adjusted based on the annual average population growth rates from the results of the Census of Population and Housing in 1991, 2001, and 2007.
- b Discontinuous series. Official national accounts started in 1994 following the completion of a technical assistance grant from the Asian Development Bank.
- c Computed before deduction of imputed bank service charges.
- d Refers to volume indices of industrial production.
- e Data cover both the Bank of Western Samoa and the Pacific Commercial Bank Ltd. Reporting date is as of last day of the month.
- f Excludes deposits of the government in the banking system.
- g Time deposits exclude deposits of the government.
- h Figures for 1990 represent estimates of the Treasury Department and the Central Bank.
- i Includes development expenditure, net Treasury advances, and capital account.
- j Includes project and cash and commodity grants, all of which were assumed to be externally derived.
- k Includes net loans and advances to nonfinancial enterprises, capital subscriptions, and land purchases. However, net loans and advances to public enterprises and others are included in net Treasury advances, while government purchases of shares are incorporated in the capital account.
- l Figures exclude nonbudgetary surplus/deficit, hence the item refers to overall budgetary surplus/deficit.
- m Refers to the discrepancy between the overall surplus/deficit and the sum of other financing items since the Treasury Department of Samoa does not compile this item.
- n Refers to current expenditures.
- o Includes public works, labor, lands and survey, land and title.
- p Excludes trade data for Yasaki and imports by foreign diplomatic missions to Western Samoa.
- q From 2000, data follow the new concepts used in the IMF's Balance of Payments Manual (Revision 5).
- r From 2000, figures were computed as balancing item to derive the overall balances that were reported by the source agency.
- s Of the short term debts, only 3% were incurred by the Samoa public sector and the remainder were mainly due to short-term positions of entities operating in Samoa's Offshore Finance Centre.
