COUNTRY AND PORTFOLIO INDICATORS, AND ASSISTANCE PIPELINE

Table A1.1: Progress Toward the Millennium Development Goals and Targets

Goals and Targets	Country Status
<p>Goal 1: Eradicate Extreme Poverty and Hunger</p> <p>Target 1: Halve, between 1990 and 2015, the proportion of people whose income is less than \$1/day.</p> <p>Target 2: Halve, between 1990 and 2015, the proportion of people who suffer from hunger.</p>	<p>The incidence of poverty, as measured by the subsistence minimum, declined to 28.4% in 2001 from 34.6% in 1996.</p> <p>No specific target exists for reducing nutrition-based poverty. Implicitly, it will also be reduced by the same magnitude as income poverty.</p>
<p>Goal 2: Achieve Universal Primary Education</p> <p>Target 3: Ensure that, by 2015, children everywhere, boys and girls alike, will be able to complete a full course of primary schooling.</p>	<p>Near universal primary education has been achieved. Enrolment ratio for all levels (age 7–24 years) was 99.5 in 2001.</p>
<p>Goal 3: Promote Gender Equality and Empower Women</p> <p>Target 4: Eliminate gender disparity in primary and secondary education, preferably by 2005, and in all levels of education no later than 2015.</p>	<p>No levels of education have gender disparity in enrolment. Gross enrolment of females at all levels is 101% of males.</p>
<p>Goal 4: Reduce Child Mortality</p> <p>Target 5: Reduce by two thirds, between 1990 and 2015, the under-5 mortality rate.</p>	<p>Officially reported infant mortality rate declined from 25.4 per 1,000 live births in 1996, to 19.4 1,000 live births in 2001.^a</p>
<p>Goal 5: Improve Maternal Health</p> <p>Target 6: Reduce by three quarters, between 1990 and 2015, the maternal mortality ratio.</p>	<p>Maternal mortality rate declined from 52.9 per 100,000 live births in 1996 to 48.6 per 100,000 live births in 2001.</p>
<p>Goal 6: Combat HIV/AIDS, Malaria, and Other Diseases</p> <p>Target 7: Have halted by 2015, and begun to reverse, the spread of HIV/AIDS.</p> <p>Target 8: Have halted by 2015, and begun to reverse, the incidence of malaria and other major diseases.</p>	<p>Total number of HIV cases officially documented was 2,648 as of 31 March 2002, up from 1,347 cases in 2000.</p> <p>The country had no cases of malaria. TB incidence increased from 61.9 cases per 100,000 population in 1994, to 122.8 cases in 1998.</p>
<p>Goal 7: Ensure Environmental Sustainability</p> <p>Target 9: Integrate the principles of sustainable development into country policies and programs and reverse the loss of environmental resources.</p> <p>Target 10: Halve, by 2015, the proportion of people without sustainable access to safe drinking water.</p> <p>Target 11: By 2020, achieve a significant improvement in the lives of at least 100 million slum dwellers.</p>	<p>The principles were integrated in the 2030 Development Strategy and National Environmental Action Plan (approved in 1999).</p> <p>As of 2001, 86% of the urban population and 63% of the rural population had access to safe drinking water.</p> <p>No information is available.</p>

ADB=Asian Development Bank; HIV/AIDS=human immunodeficiency virus/acquired immunodeficiency syndrome; TB=Tuberculosis.

^a Official data are based on definitions used in the Soviet Union and would be much higher using international definitions. According to the 1999 Kazakhstan national demographic survey, the infant mortality rate using international definitions was 62 per 1,000 live births compared to 50 per 1,000 immediately before independence.

Rank	—	—	—	—

—=not available; GDP=gross domestic product; UNDP=United Nations Development Programme.

^a Officially reported statistics. According to UNDP's *Kazakhstan Human Development Report 2000*, the maternal mortality rates declined from 52.9 per 100,000 live births in 1996 to 49.6 in 1999.

^b Official data are based on definitions used in the Soviet Union, and would be much higher using international definitions. According to the 1999 Kazakhstan national demographic survey, the infant mortality rate using international definitions was 62 per 1,000 live births compared to 50 per 1,000 immediately before independence.

^c Enrolment reported above pertains to net enrolment ratio. Data for gross enrolment is not available.

^d These figures are compared with 31.8 in 2000 for population below poverty line, and 11.9 in 2000 for inequality (Theil L Index).

^e In the absence of Theil L index, the income ratio of richest 10% to poorest 10% has been used as the measure of inequality.

Table A1.5: Development Coordination Matrix

Sector/Thematic/Area	ADB Strategy/Activities	Other Development Partners' Strategy/Activities
Agriculture	<p>(i) Support for agriculture reforms for the transition to a market economy, including improvement of land tenure, privatization of state-owned farms, reduction of state interventions in markets, dismantling of state-owned monopoly trading companies, and improvement of water resources management</p> <p>(ii) Support for the Government's state program for rural development, including diversification of rural industry, job creation, and enhanced provision of social services</p>	<p>European Bank for Reconstruction and Development (EBRD): Provision of credit to farmers for warehouse grain receipts through commercial bank credit lines covered by a private sector indemnity fund</p> <p>World Bank (WB): Support for (i) privatization of state-owned farms, including improvement of managerial capacity, provision of agricultural support services and equipment, creation of off-farm jobs, and provision of rural credit; and (ii) improvement of water resources management</p>
Energy	<p>(i) Provision of a grant for advisory technical assistance (TA) to prepare an energy sector study, which is still under discussion with the Government. TA scope includes promotion of energy efficiency and renewable energy development. Given its important potential role in poverty reduction, remote renewable energy development will be prominent in policy dialogue with the Government.</p> <p>(ii) Support under ADB's regional cooperation initiatives, for rehabilitation of (a) the regional power interconnector to facilitate regional power trade and (b) the regional gas transmission system</p>	<p>EBRD: Support for rehabilitation of the national power transmission system</p> <p>WB: Support for market reforms, enhanced role of the private sector, and rehabilitation of oil fields and national power transmission systems</p>
Transport	<p>Support for rehabilitation and maintenance of national networks that also serve as critical links in the regional transport network (especially road and rail transport systems) to (a) reduce physical and nonphysical barriers to regional trade and movement of goods and people; (b) improve managerial and strategic planning capacity; (c) promote market reforms; (d) enhance safety, construction, and maintenance standards; and privatize, corporatize, and/or commercialize state-owned transport enterprises</p>	<p>EBRD: Support for (i) rehabilitation and maintenance of national highways that also serve as key regional trade and transportation routes (including Almaty–Bishkek, Aktau–Atyrau), and development of a national road maintenance program; (ii) promotion of market reforms and support to restructure and commercialize the railway corporation, rehabilitate track networks, and purchase new locomotives; (iii) renovation and modernization of the Aktau seaport; and (iv) rehabilitation of the Atyrau airport</p>

Sector/Thematic/Area	ADB Strategy/Activities	Other Development Partners' Strategy/Activities
		<p>Islamic Development Bank (IDB): Support for rehabilitation of the Almaty–Astana road in collaboration with ADB, and proposal of similar collaboration on the Borovoe–Petropavlovsk road linking Astana with the border to the Russian Federation</p> <p>Japan Bank for International Cooperation (JBIC): Support for (i) rehabilitation of highway segments in west Kazakhstan, (ii) assistance in determining tariffs for aviation and railway transport, and (iii) construction of the Astana airport</p> <p>WB: Support for rehabilitation and maintenance of national highways and rural roads (Almaty–Astana), in collaboration with other international finance institutions. WB will shortly undertake a regional trade facilitation and transportation study for Central Asia, including cross-border issues.</p>
Information and Communications Technology (ICT)	No significant involvement in ICT is envisaged. ADB will consider involvement, depending on the Government's ICT strategy, which is being prepared with EBRD support.	EBRD: Provision of TA to develop an ICT policy and strategy, including promotion of market reforms, deregulation, demonopolization, and private sector participation. A nonsovereign guaranteed loan has been extended to Kazakhtelecom, and another lending operation is expected from the dialogue with Government, based on the strategy work.
Water Resources	Rehabilitation of irrigation infrastructure, including improvement of national and local managerial capacity to ensure continued long-term operation and maintenance, and involving close collaboration with WB. An investment project is ongoing in south Kazakhstan.	WB: Collaboration with ADB to support rehabilitation of irrigation infrastructure in other areas of southern Kazakhstan, including promotion of a common reform agenda and strategic approach
Rural Water Supply and Sanitation	Provision of water supply and sanitation services to rural areas, including rehabilitation of existing systems or development of new ones, enhancement of strategic planning and managerial capacity at national and local government levels, and establishment of decentralized operation and maintenance capabilities at the community level. A lending project covering four oblasts is being processed.	IDB: Proposed collaboration with ADB to support provision of water supply in rural areas of Karagandhy region, promoting a common strategic approach

Sector/Thematic/Area	ADB Strategy/Activities	Other Development Partners' Strategy/Activities
		<p>Japan International Cooperation Agency (JICA): Grant assistance, including provision of materials and equipment for rural communities' water supply in north Kazakhstan</p>
<p>Urban/Municipal Services</p>	<p>Active involvement in the municipal services sector is not envisaged.</p>	<p>EBRD: Nonsovereign guaranteed lending for solid waste management and urban water supply and sanitation services in Almaty and Atyrau</p> <p>JBIC: Rehabilitation of water supply and sanitation systems in Astana</p> <p>WB: Direct lending to local governments with central Government guarantee to rehabilitate urban water supply and sanitation systems in selected small cities</p>
<p>Education</p>	<p>Restoration of quality education services and support for deepening sector reforms to meet the needs of the market economy, including improvement of resource utilization, development of skills for new labor markets, informatization, teacher training, encouragement of private education, and enhancement of strategic planning capacity. ADB, the lead external development partner in the sector, will consider supporting the sector based on the 2002 update of the education sector strategy.</p>	
<p>Health</p>	<p>Support through a regional Japan Fund for Poverty Reduction grant to reduce micronutrient deficiencies in children and mothers through wheat fortification and salt iodization.</p>	<p>JICA: Grant assistance to (i) improve the health care system in Semipalatinsk, east Kazakhstan, which is heavily affected by radiation pollution, by providing training, supplies, and equipment; and (ii) provide medical equipment to Kyzylorda region and Astana</p> <p>WB: Substantial support for health sector restructuring</p>
<p>Social Protection</p>	<p>Active involvement in social protection is not envisaged. Assistance may be considered based on the State Program for Poverty Reduction 2003–2005.</p>	<p>WB: Extensive support for reform of the social protection system to ensure more effective delivery and management. One loan has been completed and an adjustment loan is under active consideration.</p>

Sector/Thematic/Area	ADB Strategy/Activities	Other Development Partners' Strategy/Activities
Private Sector Development	Public sector operations (PSO) in transport and communications, finance, and agriculture sectors, mainly to support private sector development. Private sector assessment is being undertaken and will guide PSO. A loan facility for small and medium-sized enterprises (SMEs), requested by the Government, is under consideration. Close coordination will be maintained with other development partners in processing the proposed facility. ADB's nonsovereign guaranteed lending operations can only begin after the Government signs the framework agreement for PSO.	<p>EBRD: Support for the transition to a market economy, focusing on the private sector and enterprises. Assistance includes the flagship SME development program and strengthening of the financial sector.</p> <p>International Finance Corporation: Approval of 32 nonsovereign guaranteed operations totaling over \$230 million, in energy, finance, manufacturing, mining, tourism and trade, including support for SME development.</p> <p>WB: A broad range of assistance, from management of state assets (including privatization), measures to improve the business environment, financial services for rural enterprises, and support for SME development (including business advisory services, information technology, and linkages with large enterprises)</p>
Finance and Banking	Regional TA to harmonize customs procedures and reduce barriers at border crossings to facilitate cross-border trade and movement of goods. Potential collaboration with the Development Bank of Kazakhstan and extending nonsovereign guaranteed credit lines to SMEs is also under consideration. (See note under "Private Sector Development.")	<p>EBRD: See above, "Private Sector Development."</p> <p>WB: See above, "Private Sector Development."</p>
Poverty Reduction	TA to prepare a comprehensive medium-term poverty reduction strategy, including a poverty assessment and high-level forum. The TA involved close collaboration with United Nations Development Programme (UNDP) and WB. Further assistance will be considered, based on the state program and further consultation with the Government, in the course of preparing the next country strategy and program (CSP).	<p>UNDP: Collaboration with ADB in providing TA complementing ADB-supported activities, including those related to the role of local governments and nongovernment organizations (NGOs) poverty reduction, and issues of environment and poverty</p> <p>WB: Preparing an update in 2002 of the 1996 living standards measurement survey with quarterly data collected by the National Statistics Agency</p>
Environment	TA to improve the management and strategic planning capacity in the Ministry of Environment and Natural Resources. Further assistance under the CSP will be considered, based on the recommendations of the 2002 environmental assessment.	JICA: Support for (i) environmental monitoring of the Balkhash Lake and watershed, and (ii) water quality analysis and monitoring

Sector/Thematic/Area	ADB Strategy/Activities	Other Development Partners' Strategy/Activities
		<p>UNDP: Leading supporter of the Government's preparations for the environment summit in Johannesburg in August 2002. With WB, UNDP helped the Government prepare the national environmental action plan.</p> <p>WB: Primary focus on water resources, including irrigation management, pollution clean-up, and the Aral Sea problem. WB is conducting a study of Kazakhstan's major water basins, will help develop a forestry code, and is developing investment project proposals under the United Nations' Caspian environmental program.</p>
Governance	<p>Focus on governance issues such as policy and institutional reforms and capacity building at the sector level through lending and TA for strategic planning, investment project programming, and aid coordination. Further assistance may be considered, based on the recommendations of the ongoing country governance assessment. Such assistance is likely to include enhancing capacity in strategic planning and budgeting and fiscal decentralization to help the Government achieve its development goals.</p>	<p>European Union-Technical Assistance Program for Commonwealth of Independent States (EU-TACIS): Assistance to implement the civil service law, establishment of a regional civil service training center, decentralization, and civil society participation at the local level</p> <p>IMF: Assistance in drawing up tax policy, reforming the customs agency, and, in collaboration with WB, modernizing the treasury</p> <p>JICA: Assistance to enhance strategic planning capacity, specifically in economic and industrial policy formulation</p> <p>UNDP: A broad range of support, including strengthening strategic planning capacity, training parliamentarians in law drafting, introducing international accounting standards, giving advice on decentralization and functional reviews of ministries and local authorities, and empowering NGOs</p> <p>United States Agency for International Development (USAID): Support, primarily at the local level, to introduce democratic practices and empowerment of civil society, as well as central and local public sector fiscal reform, including intergovernmental fiscal transfers and capacity building for improved budget formulation</p>

Sector/Thematic/Area	ADB Strategy/Activities	Other Development Partners' Strategy/Activities
		<p>WB: Ensuring efficient public resource management and improving efficiency and effectiveness of public services by supporting a functional analysis to facilitate decentralization of responsibilities from central to local government levels, public expenditure management, audit and accounting standards, and tax and customs reform</p>

^a One rating for implementation progress and development objectives, based on the lower rating of either.

^b Potential problem loans are satisfactory loans but have four or more risk factors associated with partly satisfactory or unsatisfactory performance.

^c A loan is "at risk" if it is rated as partly satisfactory, as unsatisfactory, or as a potential problem.

^d Includes one project which was completed on 30 June 2001.

<p>5. Responsible ADB officer(s): P. Seneviratne</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: The first internationally financed road development project in Kazakhstan, which was part of the principal north–south road from Almaty to Petropavlovsk on the Russian Federation border, was prepared and financed by ADB in 1996. The project paved the way for more development partners' involvement in the road transportation sector and interest in completing the link, as it is also a major thoroughfare for trade between East and Southeast Asia and Europe. Rehabilitation of many sections between Almaty and Baravoe are either complete or under way. The Government is seeking to rehabilitate the remaining section from Baravoe to Petropavlovsk.</p> <p>b. Goal and purpose: Complete upgrading the main north–south road corridor. Once completed, the road will facilitate fast, reliable, and safe domestic and international passenger and freight transportation.</p> <p>c. Components and outputs: Upgrading and repairing about 233 km of road and related infrastructure, and providing TA to reduce nontariff barriers such as vehicle standards, access to traffic, and investment restrictions</p> <p>d. Expected results and deliverables: Road rehabilitation will lessen travel time and vehicle operating costs, and increase safety and security of travel. Approximately 233 km of road will be upgraded to international standards with uniform traffic control devices.</p>										

<p>e. Social or environmental issues or concerns: None</p> <p>f. Plans for disseminating results/deliverables: not applicable</p>
<p>7. Proposed executing/implementing agencies: Ministry of Transport and Communications (MOTC)/Committee of Roads (COR)</p>

<p>4. Responsible division/department: Agriculture, Environment & Natural Resources Divisions/East and Central Asia Department</p>										
<p>5. Responsible ADB officer(s): E. Gozali</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Since 1991, progress in agriculture reform has been substantial, encompassing price liberalization, reduction in trade distortions, and privatization of farms. Reform has been accompanied by a relatively stable macroeconomic environment at least in the past 3 years. However, little evidence exists of economic recovery in the sector, which has suffered more than 50% output decline due to transitional adjustments. The economic transition, which has been pursued since 1990, inflicted significant hardships on rural communities. Farm and enterprise reorganizations, withdrawal of farming from marginal land, closure of unprofitable enterprises, declining access to farm inputs, and weakening commodity demand have all contributed to declining farm and/or enterprise outputs, and rural jobs. Rural unemployment is widespread and families continue to vacate rural settlements and company towns. Improved policy environment has not significantly raised investment in agriculture, which is estimated at a low level of 1.4% of GDP in 1999–2001.</p> <p>The Government recognizes the urgent need to revive the rural economy, since the rural population accounts for 6.5 million of the 14.8 million total population. The current policy, as reflected in the <i>Development Plan up to 2010 (Strategy 2010)</i> of November 2001, calls on the state to more actively help the rural sector. This message was amplified by a presidential announcement on 29 April 2002, that the upcoming 3–year budget cycle (2003–2005) should be devoted to reviving rural areas. The project focus is in line with the ADB strategy, as reflected in the Country Operational Strategy of 1996, and CSPU for 2003–2004, which emphasizes assistance for agriculture and rural development.</p>										

b. Goal and purpose: The Project aims to reinvigorate rural economic growth to create sustainable employment and income generation opportunities to reduce rural poverty. Since agriculture dominates the rural economy, project assistance will focus on revitalizing farming operations, agricultural support services, and agroprocessing.

c. Components and outputs: Tentatively, assistance encompasses (i) market facilitation, support for expanded regulatory reforms, upgrading of market intelligence, and marketing studies for selected commodities; (ii) rehabilitation and construction of rural infrastructure (irrigation and drainage, rural roads, village markets, and public facilities) in regions with economic growth potential; (iii) support for private investments in rural enterprises; and (v) rural financial services. The scope is tentative and will be further refined during the PPTA fact finding.

d. Expected results and deliverables: will be determined at PPTA fact finding

e. Social or environmental issues or concerns: will be determined at PPTA fact finding

f. Plans for disseminating results/deliverables: will be determined at PPTA fact finding

7. Proposed executing/implementing agencies: Ministry of Agriculture

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

The project goal and broad scope were identified in joint meetings between ADB and the ministries of economy and trade, finance, and agriculture. Wider consultations will be carried out during the PPTA reconnaissance and fact finding.

(Note: Mention the institutions in government and civil society, including nongovernment organizations, that have been consulted about the project, and the nature of the consultations.)

9. Timetable for assistance design, processing, and implementation

a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002

b. Expected date of submission for approval
 Lending: 2003 (standby); 2004 (firm)
 Nonlending (project preparatory):
 Nonlending (other than project preparatory): 2003 (standby); 2004 (firm)

c. Period and duration of assistance(s)
 Lending: 2004–2008
 Nonlending: 2004–2005 (for attached ADTA)

10. Financing Plan (Indicate possible financing sources and amount of assistance, cost estimates, and financing arrangements)

- a. For lending
 Ordinary capital resources: \$125 million
 Asian Development Fund: \$
 Other: \$

If cofinancing is required, indicate sources, and amount sought:

If known, provide cost estimates and financing arrangement (e.g., total cost, ADB financing, other financing, and government financing):

- b. For nonlending
 No resources required,, other than ADB staff
 ADB's administrative budget: \$
 Grant TA funds \$500,000 (for attached ADTA)

If cofinancing is required, indicate sources, and amount sought:

If known, provide cost estimates and financing arrangement (e.g., total cost, ADB financing, other financing, and government financing)

ADB=Asian Development Bank, ADTA=advisory technical assistance, CSP=country strategy and program, GDP=gross domestic product, PPTA=project preparatory technical assistance, SCSP=Subregional cooperation strategy and program, TA=technical assistance.

<p>5. Responsible ADB officer(s): P. Seneviratne</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: The proposed Transport Corridor Europe Caucasus Asia network includes the Atyrau–Aktau part of the north–south transport corridor extending from India and the Persian Gulf to northwest Kazakhstan and the Russian Federation. Kazakhstan’s national road development program is also developing the road from Bejneu (midway on the Atyrau–Aktau road) to the Uzbekistan border, thereby creating an international corridor from Bishkek to Moscow.</p> <p>b. Goal and purpose: Upgrade about 900 km of road from Aktau and Atyrau ports to link two major development centers in Kazakhstan and facilitate interregional trade by creating a transit corridor from the People’s Republic of China to the Russian Federation via Kazakhstan, Kyrgyz Republic, and Uzbekistan.</p> <p>c. Components and outputs: Upgrade and repair about 900 km of road and related infrastructure and provide TA to manage infrastructure maintenance and traffic safety.</p> <p>d. Expected results and deliverables: Road rehabilitation will lessen travel time and vehicle operating costs, and increase safety and security of travel. Approximately 900 km of road will be upgraded to international standards with uniform traffic control devices.</p>										

<p>e. Social or environmental issues or concerns: None</p> <p>f. Plans for disseminating results/deliverables: not applicable</p>
<p>7. Proposed executing/implementing agencies: Ministry of Transport and Communications (MOTC)/ Committee of Roads (COR)</p>
<p>8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance: CSP Mission's discussions with MOTC, COR, and Ministry of Finance</p> <p>(Note: Mention the institutions in government and civil society, including nongovernment organizations, that have been consulted about the project, and the nature of the consultations.)</p>
<p>9. Timetable for assistance design, processing, and implementation</p> <p>a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002</p> <p>b. <p>4. Responsible division/department: Social Sectors Division/East and Central Asia Department</p>										
<p>5. Responsible ADB officer(s): B. Panth</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Deeper systemic reform of basic education is key to supporting equitable and sustainable social development. The Project is expected to target low-income groups and people in rural areas, as consistent with ADB's program to reduce poverty in Kazakhstan. However, clear priorities and investment needs will be determined under the proposed education sector review.</p> <p>b. Goal and purpose: The Project will improve the quality of basic education services, with emphasis on rural schools, and enhance the efficiency of the education system through structural and systems rationalization, staff rationalization, decentralization, and improved educational finance. The project will also support further improvements in educational quality, including curriculum development, student assessment, and textbook reform; teacher training; school management; distance education; information, communication and technology application in basic education; and ensuring access to education for low-income groups and people in rural areas.</p> <p>c. Components and outputs: (i) Equitable access and retention by targeting low-income families and remote locations; (ii) high-quality curriculum; student achievement and assessment; teacher training; and provision of textbooks, instructional materials, and equipment; and (iii) institutional efficiency through decentralization and school management, planning and budgeting, staff development, and rationalization.</p>										

<p>d. Expected results and deliverables: (i) Improved learning conditions for all (teacher in—service and preservice training, provision of instructional materials and equipment, student achievement); (ii) improved efficiency (rationalization of staff, financing, facilities, management); and (iii) improved access and retention among children from lower—income families and rural areas</p> <p>e. Social or environmental issues or concerns: The project is expected to be classified under category C, and to cause no major environmental concerns. The project is expected to raise environmental awareness in schools and support environmental safety measures to dispose of equipment.</p> <p>f. Plans for disseminating results/deliverables: The Project will emphasize wide stakeholder participation, including community mobilization in school management. The project will continue to support further development and application of an educational management information system.</p>
<p>7. Proposed executing/implementing agencies: Ministry of Education and Science (MOES)</p>
<p>8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:</p> <p>Key government agencies, including MOES, teacher training institutes, academic institutions, school principals, teachers, parents, education administrators, and concerned NGOs and funding agencies will be systematically consulted during project preparation. Provisions will be made for focus group discussions and workshops and/or seminars .</p>
<p>9. Timetable for assistance design, processing, and implementation</p> <p>a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002</p> <p>b. Expected date of submission for approval Lending: 2004 (standby) Nonlending (project preparatory): Nonlending (other than project preparatory): May include an attached ADTA</p> <p>c. Period and duration of assistance{s} Lending: 2004–2009 Nonlending:</p>
<p>10. Financing Plan (Indicate possible financing sources and amount of assistance, cost estimates, and financing arrangements)</p> <p>a. For lending <input checked="" type="checkbox"/> Ordinary capital resources: \$60 million <input type="checkbox"/> Asian Development Fund: <input type="checkbox"/> Other:</p> <p>If cofinancing is required, indicate sources, and amount sought: If known, provide cost estimates and financing arrangement (e.g., total cost, ADB financing, other financing, and government financing): TBD</p> <p>b. For nonlending <input type="checkbox"/> No resources required, other than ADB staff <input type="checkbox"/> ADB's administrative budget: <input type="checkbox"/> Grant TA funds</p> <p>If cofinancing is required, indicate sources, and amount sought: If known, provide cost estimates and financing arrangement (e.g., total cost, ADB financing, other financing, and government financing):</p>

<input type="checkbox"/> Gender and development	<input type="checkbox"/> Good governance									
<input type="checkbox"/> Environmental protection	<input type="checkbox"/> Private sector development									
<input checked="" type="checkbox"/> Regional cooperation	<input type="checkbox"/> Social protection									
<input type="checkbox"/> Other:										
<p>3. Coverage</p> <p><input type="checkbox"/> Country <input checked="" type="checkbox"/> Subregional <input type="checkbox"/> Interregional</p> <p><input type="checkbox"/> Internal policy development</p>										
<p>4. Responsible division/department: Infrastructure Division/East and Central Asia Department</p>										
<p>5. Responsible ADB officer(s): E. Hassing</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Natural gas is the predominant energy source in the CARs and the extensive pipeline network in the region reflects its importance. However, inadequate infrastructure and lack of financial resources for exploiting natural gas resources and increasing operations are major hurdles for developing these resources to promote regional economic growth. Further policy and institutional arrangements would need to be introduced and implemented to ensure existing inter-country trade in energy including gas is consistent with market oriented principles and practices. The natural gas sector therefore represents a considerable potential for increasing regional cooperation in Central Asia, in particular among Kazakhstan, Kyrgyz Republic, Tajikistan, Turkmenistan, and Uzbekistan. This would help the region to become a larger exporter of energy and, at the same time, enable the CARs to meet their own energy needs in the most economically efficient manner. Promoting energy trade is a key area of the ADB's regional assistance program as endorsed by the Governments at the Ministerial Conference held in March 2002.</p> <p>b. Goal and purpose: The goal is to promote sustained economic growth through regional cooperation in the Central Asian Republics by eliminating technical and institutional bottlenecks and other barriers that constrain</p>										

efficient operation and flow of natural gas, prevent energy trade, and impede rational use of the transmission system linking them. The Project will encourage efficient natural gas trade in the region, and facilitate wider access to modern energy.

c. Components and outputs: Rehabilitation and modernization of the gas transmission network in the CARs. Improved regional policy, institutional and regulatory environment. Given the complexity of the issues especially in regard to the number of countries involved and policy and institutional arrangements needed for improvement, the project will adopt a phased approach. This approach would enable the project to yield tangible benefits as building blocks for further cooperation. Turkmenistan is unlikely to participate in phase I of the project, as it has focused on developing export route through Afghanistan. Consultation with the Governments is continuing.

d. Expected results and deliverables: Increased economic exchange of gas between the countries.

e. Social or environmental issues or concerns: To be assessed by the ongoing PPTA.

f. Plans for disseminating results/deliverables: ADB website, regional conferences, and wide circulation among governments and development partners.

7. Proposed executing/implementing agencies: Gas transmission company in each country.

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

Energy is a key focus of ADB regional assistance confirmed by the participating governments at the Ministerial Conference held in March 2002. The Conference also gave endorsement to this project. Further regional consultation meetings will be held during processing of the ongoing PPTA.

9. Timetable for assistance design, processing, and implementation

- a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002
- b. Expected date of submission for approval
 - Lending: 2004
 - Nonlending (project preparatory):
 - Nonlending (other than project preparatory):
- c. Period and duration of assistance
 - Lending: To be further assessed.
 - Nonlending:

10. Financing Plan (Indicate possible financing sources and amount of assistance, cost estimates, and financing arrangements)

a. For lending

- Ordinary capital resources: To be further assessed upon completion of PPTA.
- Asian Development Fund: To be decided.
- Other:

If cofinancing is required indicate sources, and amount sought:

If known, provide cost estimates and financing arrangements. (e.g., total cost, ADB financing, other financing, and government financing):

b. For nonlending

- No resources required, other than ADB staff
- ADB's administrative budget: \$
- Grant TA funds: To be further assessed

If cofinancing is required indicate sources, and amount sought:

If known, provide cost estimates and financing arrangements. (e.g., total cost, ADB financing, other financing, and government financing):

ADB = Asian Development Bank, CSP = country strategy and program, PPTA=project preparatory technical assistance, SCSP = subregional cooperation strategy and program, TA = technical assistance.

<p>4. Responsible division/department: Governance, Finance & Trade Division/East and Central Asia Department</p>		
<p>5. Responsible ADB officer(s): M. Collette</p>		
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Kazakhstan is a unitary state with a presidential form of government and a constitution that favors a strong presidency, with limited powers to the elected Parliament. Policymaking belongs primarily to the President and the President's Administration, while implementation and monitoring are the responsibility of the Government. Ministries are involved in policy development, especially in drafting laws, often subsequent to a presidential order. The Presidential Apparat controls policy and legislative developments while the line ministries control the budget process and the use of public resources. No single central agency coordinates with the ministries and Parliament or advises the executive.</p> <p>The Agency for Strategic Planning has recently been given new powers to develop policy under the President and has the best—developed skills for policy coordination and analysis. The agency's main goal is to organize the policy development process while advising and commenting on policies developed by ministries. The agency has acted as a think tank and is involved in long—term thinking for the country. The agency has been instrumental in drafting Kazakhstan 2030, the strategic vision for the future, as well as contributing to the Strategic Plan of Development of the Republic of Kazakhstan Till 2010. Given its strengthened mandate, the agency has scope for improving its capacity.</p>		

Policy advice for the Prime Minister is the function of the Chancellery. However, the President's Administration also has departments and agencies that develop policy alternatives. The Chancellery and policymaking support units in the President's Administration provide information and legal advice. The Chancellery coordinates and prepares the Government program according to the two strategic plans. The Government's agenda is set by the Prime Minister's Office, with departments within the Chancellery responsible for logistical support and some coordination of the policy output of ministries and agencies.

A major outcome of preliminary findings of the TA 3747—KAZ: Governance Study and Capacity Building for Administrative Reform has been the identification of a level of weakness in strategic planning and policy coordination and development, with responsibilities dispersed in a number of different locations. The funding agency community has frequently mentioned misalignment and contradictions on policy issues between the Presidential Apparatus and the line ministries as causing practical problems for many external funding agencies. The dysfunction also causes contradictions in planning and policy development, and in public investment and the targeting of budget resources.

b. Goal and purpose: The goal of the proposed TA is to foster a strong and dynamic economy, which will accelerate poverty reduction. The objective is to strengthen the policymaking, strategic planning, and sectoral investment programming and budgeting functions and increase coordination of these functions within the Government to strengthen the economy.

c. Components and outputs: (i) Undertake a comprehensive review of the policymaking, strategic planning, investment programming, and budgeting processes of the Government; (ii) provide advisory support to clarify and simplify the policy coordination functions and strategic planning processes; (iii) provide capacity—building support through training and advisory support to improve the Government machinery's policy development mechanisms and strategic planning functions; and (iv) strengthen the linkages between the strategic planning processes and investment programming and budgeting systems through advisory assistance and capacity building in the central coordinating ministries and selected key sectoral ministries, on a pilot basis.

d. Expected results and deliverables: The TA will help develop a better coordinating mechanism between the ministries and the Presidential Apparatus for policy development and strategic planning processes. The deliverables will include (i) a comprehensive assessment that outlines the impact of the current system; (ii) recommendations for improving the policy development and strategic planning mechanisms; (iii) capacity—building training for staff of the Agency for Strategic Planning, the Chancellery, and representatives of central coordinating ministries and sectoral agencies; (iv) training materials, modules, and workshops; and (v) improved investment programming and budgeting processes.

e. Social or environmental issues or concerns: None

f. Plans for disseminating results/deliverables: Given the capacity—building nature of this TA, a full assessment will be done, with a report for dissemination to Government and development partners, with key recommendations provided through policy dialogue. The remaining outputs and results will be achieved through a series of workshops and training sessions, which may be replicated locally to train other government representatives. The improved public investment programming process and documentation will be made more transparent and available to development partners and civil—society members.

7. Proposed executing/implementing agencies: Chancellery of the Prime Minister of Kazakhstan/Agency for Strategic Planning, Ministry of Finance, Ministry of Economy and Trade, and selected sectoral ministries (to be determined during TA fact finding)

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:
Through TA 3747, the Government has requested and is in the process of receiving a diagnostic report, which broadly provides key issues and recommendations on the adequacy of policy coordination and the decision—making process, particularly as it concerns the organizational structure of government. During fieldwork, various departments of the Chancellery as well as the Agency for Strategic Planning, parliamentarians, and members of civil society have been consulted, establishing a sound basis for diagnostic work in a sensitive area and for relationship building with the proposed executing agencies. The TA is also intended to follow up on the assistance provided under TA 3595—KAZ: Capacity Building for Public Investment Programming, as requested by the Government during the country programming mission in May 2002. The Government is thus expected to continue to be closely involved in developing this TA.

9. Timetable for assistance design, processing, and implementation

- a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: CSPU 2002
- b. Expected date of submission for approval
 - Lending:
 - Nonlending (project preparatory):
 - Nonlending (other than project preparatory): 2003
- c. Period and duration of assistance{s}
 - Lending:
 - Nonlending: 2003–2005

10. Financing Plan (Indicate possible financing sources and amount of assistance, cost estimates, and financing arrangements)

- a. For lending
 - Ordinary capital resources:
 - Asian Development Fund: \$
 - Other:

If cofinancing is required, indicate sources, and amount sought:

If known, provide cost estimates and financing arrangement (e.g., total cost, ADB financing, other financing, and government financing):

- b. For nonlending
 - No resources required, other than ADB staff
 - ADB's administrative budget:
 - Grant TA funds: \$500,000

If cofinancing is required, indicate sources, and amount sought: Possible contribution from the Canadian Governance Cooperation Fund for partial support of \$250,000

ADB=Asian Development Bank, CSP=country strategy and program, SCSP=subregional cooperation strategy and program, TA=technical assistance.

<p>4. Responsible division/department: Agriculture, Environment & Natural Resources Division/East and Central Asia Department</p>										
<p>5. Responsible ADB officer(s): Xiaoying Ma</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Environmental degradation in KAZ has been accumulated since FSU period, and has not been reversed during the transition from planned to market-based economy. The main symptoms of environmental degradation include increased land and water resources declining in rural areas, and highly contaminating toxic, radioactive wastes and industrial pollution in urban centers. The underlying causes of environmental degradation, among others, include policy failure, inadequate legislation framework, and lack of institutional capacity. The existing environmental policies and legal system rely heavily on command-and-control approaches, which are often not the least-cost solution and vulnerable to local political and economic pressures. Lack of institutional capacity is a main constraint for the effective environmental management, especially weak organizational setting at provincial and district levels; lack of ability in information and policy analysis; and lack of capacity for environmental monitoring and enforcement.</p> <p>On the top of environmental management issues, the political will and integration of environmental consideration into economic development plans are essential to reverse the trend of environmental degradation. Both the political will and policy integration are weak in KAZ.</p>										

An on-going country environmental analysis supported by ADB has identified several priority areas for ADB's intervention through non-lending activities: (i) development/amendment of environmental laws to meet the needs of environmental management during the transition from planned to market-based economy; (ii) mainstreaming environmental consideration into economic development through capacity building in the newly established Inter-Ministerial Commission for sustainable development; (iii) improved environmental monitoring and information management systems; and (iv) improved pollution levy system and environmental fund system.

Environmental management is multi-dimensional and requires a comprehensive approach to address all key issues. Initiatives on all of the above-identified areas should be supported. Given that (i) this will be a 2004 TA and it is unclear at this stage about the Government's priority/needs and commitment, and (ii) the objective and scope of the proposed TA has not been discussed between ADB and the Government, flexibility should be taken as a principle for selecting the specific TA topic and determining TA objective, scopes, expected outputs, and other related aspects for TA design at this stage.

- b. Goal and purpose:** Improved environmental and natural resources management in KAZ.
- c. Components and outputs:** To be decided.
- d. Expected results and deliverables:** To be decided.
- e. Social or environmental issues or concerns:** This TA would have environmental benefits through supporting initiatives addressing the issues on one of the above-identified areas.
- f. Plans for disseminating results/deliverables:** It is desirable to disseminate results/deliverables through web-sides of the relevant government agencies.

7. Proposed executing/implementing agencies: To be decided.

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

In-country consultation with the Government will be conducted in 2003–2004.
(Note: Mention the institutions in government and civil society, including non-government organizations, that have been consulted about the project, and the nature of the consultations.)

9. Timetable for assistance design, processing, and implementation

- a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002
- b. Expected date of submission for approval
 - Lending:
 - Nonlending (project preparatory):
 - Nonlending (other than project preparatory): 2004
- c. Period and duration of assistance
 - Lending:
 - Nonlending: 7 months after approval

10. Financing Plan (Indicate possible financing sources and amount of assistance, cost estimates, and financing arrangements)

- a. For lending
 - Ordinary capital resources:
 - Asian Development Fund:
 - Other:

If cofinancing is required indicate sources, and amount sought:
If known, provide cost estimates and financing arrangements. (e.g., total cost, ADB financing, other financing, and government financing):

b. For nonlending

- No resources required, other than ADB staff
- ADB's administrative budget:
- Grant TA funds: \$600,000

If cofinancing is required indicate sources, and amount sought:

If known, provide cost estimates and financing arrangements. (e.g., total cost, ADB financing, other financing, and government financing):

ADB=Asian Development Bank, CSP=country strategy and program, SCSP= subregional cooperation strategy and program, TA=technical assistance

<p>3. Coverage</p> <p><input checked="" type="checkbox"/> Country <input type="checkbox"/> Subregional <input type="checkbox"/> Interregional</p> <p><input type="checkbox"/> Internal policy development</p>										
<p>4. Responsible division/department: Agriculture, Environment & Natural Resources Division/East and Central Asia Department</p>										
<p>5. Responsible ADB officer(s): M. Ashraf Malik</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: The average capital investment in agriculture and fishery in 1999–2001 is less than 1.4% of total investment. As a result, except in a few areas, irrigation and drainage facilities and the water supply system are deteriorating, shrinking service areas. Waterlogging and soil salinity have worsened in the southern and southeastern oblasts, and poor rural domestic water supply and quality increase agricultural communities' hardship.</p> <p>The Government will devote 2003–2005 to reviving rural areas, and greater resources should thus be poured into rural infrastructure rehabilitation and improvement. The Project supports ADB strategies, as reflected in the Country Operational Strategy of 1996 and CSPU for 2003–2004, that focus assistance on agriculture and rural development</p> <p>b. Goal and purpose: The objective is to raise farm productivity and profits in the irrigated farming systems to generate sustainable employment and income. The Project will also improve the environment by reducing soil salinity and raising the efficiency of irrigation water use.</p>										

c. Components and outputs: The Project will support the rehabilitation of irrigation and drainage infrastructure in selected areas in southern Kazakhstan. Investment and technical support will be considered in coordination with oblast governments to improve rural roads and village infrastructure. Project investment will also include support for regulatory reforms, institutional development of water users associations, and improvement of irrigation and drainage services.

d. Expected results and deliverables: This will be determined at PPTA fact finding.

e. Social or environmental issues or concerns: This will be determined at PPTA fact finding.

f. Plans for disseminating results/deliverables: This will be determined at PPTA fact finding.

7. Proposed executing/implementing agencies: Ministry of Agriculture

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

The proposed project objective, scope, and area have been discussed with the ministries of economy and trade, finance, and agriculture; and farmers in southern Kazakhstan (Mahta—aral district). Wider consultations will be carried out during the PPTA reconnaissance and fact finding.

(Note: Mention the institutions in government and civil society, including nongovernment organizations, that have been consulted about the project, and the nature of the consultations.)

9. Timetable for assistance design, processing, and implementation

a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002

b. Expected date of submission for approval
 Lending:
 Nonlending (project preparatory): 2004
 Nonlending (other than project preparatory):

c. Period and duration of assistance(s)
 Lending:
 Nonlending: 2004–2005

10. Financing Plan (Indicate possible financing sources and amount of assistance, cost estimates, and financing arrangements)

a. For lending
 Ordinary capital resources:
 Asian Development Fund:
 Other:

If cofinancing is required indicate sources, and amount sought:

If known, provide cost estimates and financing arrangements. (e.g., total cost, ADB financing, other financing, and government financing):

b. For nonlending
 No resources required, other than ADB staff
 ADB's administrative budget:
 Grant TA funds: \$600,000

If cofinancing is required indicate sources, and amount sought:

If known, provide cost estimates and financing arrangements. (e.g., total cost, ADB financing, other financing, and government financing):

ADB=Asian Development Bank, CSP=country strategy and program, PPTA=project preparatory technical assistance, SCSP=subregional cooperation strategy and program, TA=technical assistance.

<p>4. Responsible division/department: Governance, Finance & Trade Division/East and Central Asia Department</p>										
<p>5. Responsible ADB officer(s): To be assigned</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: A vibrant private sector is vital to growth and development in the CARs. While the share of the private sector of GDP in the CARs has increased, large state-owned enterprises dominate in the industrial sectors. These sectors tend to be heavily concentrated with few enterprises as well. Resource-rich countries like Kazakhstan and Azerbaijan have attracted foreign direct investments (FDI) in their oil industries but the other countries have received comparatively small amounts of FDI and there is a lack of private financing for infrastructure for example. Lack of coherent investment and competition policies hamper private sector development and investments, both domestic and foreign. Furthermore, these countries have to exploit the options for public-private partnerships in infrastructure finance. Private capital is necessary to complement the scarcity of government funding for investments and infrastructure in particular.</p> <p>b. Goal and purpose: The goal is to promote private sector development in the region to enhance trade, investments and growth. The purpose of the TA is to identify the constraints to investment and private sector development and develop measures and actions to address these in a regional context.</p>										

<p>c. Components and outputs: The TA will (i) examine investment policies, competition policies, the legal framework for public-private partnership for infrastructure financing, and the potential for the region's economies to attract private capital both foreign direct investment and financing for infrastructure, and (ii) develop recommendations for policies and guidelines for investment and competition policies in line with the proposed WTO recommendations, and measures to facilitate and enhance the flow of foreign direct investment and promote private-public partnerships for infrastructure finance.</p> <p>d. Expected results and deliverables: Reports, workshops.</p> <p>e. Social or environmental issues or concerns: none</p> <p>f. Plans for disseminating results/deliverables: To be developed during TA preparation.</p>
<p>7. Proposed executing/implementing agencies: The ADB will execute the overall TA. The Ministries of trade and industry, chambers of commerce or equivalents, industry associations or equivalent in the respective countries in the East and Central Asian Region will be the implementing agencies.</p>
<p>8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance: Chambers of commerce (and equivalents) and industry associations have been consulted in the preparation of the initial concept.</p>
<p>9. Timetable for assistance design, processing, and implementation</p> <p>a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002</p> <p>b. <input type="checkbox"/> Environmental protection	<input checked="" type="checkbox"/> Private sector development									
<input checked="" type="checkbox"/> Regional cooperation	<input type="checkbox"/> Social protection									
<input type="checkbox"/> Other:										
<p>3. Coverage</p> <p><input type="checkbox"/> Country <input checked="" type="checkbox"/> Subregional <input type="checkbox"/> Interregional</p> <p><input type="checkbox"/> Internal policy development</p>										
<p>4. Responsible division/department: Governance, Finance & Trade Division/East and Central Asia Department</p>										
<p>5. Responsible ADB officer(s): To be assigned</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: The financial sectors in the CARs are dominated by banks that provide basic financial services, but the financial sectors are shallow as indicated by low ratios of deposits and credit to GDP, and ineffective in financial intermediation due to inadequate experience in credit risk and management and be ineffective in providing credit and trade finance to the private sector. While efforts have been made to upgrade regulation and supervision of financial institutions enforcement is still lagging. The financial institutions are not effective in providing financing and catalyzing private sector development in the region, and capital markets have yet to develop to broaden and deepen the financial sectors. Effective financial sectors and institutions will catalyze private sector development and facilitate regional trade and growth.</p> <p>b. Goal and purpose: The goal is to promote effective financial sectors in the region that can catalyze private sector development, regional trade and growth. The purpose is to identify weaknesses in the financial sectors in the region that are obstacles to private sector development and develop recommendations and actions to address these. The TA will also complement the private sector and financial management assessments being undertaken for each of the countries in the region.</p>										

<p>c. Components and outputs: The TA will have two components. The first component is a diagnostic study of the financial sectors in the region to (i) assess the capability of financial institutions in the region to provide financing (working capital, medium-term credits, trade finance) to support private sector development, (ii) the state of regulation and supervision of financial institutions and need for capacity building, and (iii) the options and role of the capital markets to support enterprise growth and development in a regional context. The second component will be development of a blueprint for (i) capacity building for financial sector regulators, (ii) harmonization of banking sector policies, and (iii) development and integration of capital markets.</p> <p>d. Expected results and deliverables: Reports containing the diagnostic and blueprint.</p> <p>e. Social or environmental issues or concerns: No social and environmental issues involved</p> <p>f. Plans for disseminating results/deliverables: workshops</p>
<p>7. Proposed executing/implementing agencies: The ADB will execute the overall TA. The Ministries of Finance, Central Banks, and other regulatory agencies in the respective countries in the East and Central Asian Region will be the implementing agencies.</p>
<p>8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance: To be determined.</p>
<p>9. Timetable for assistance design, processing, and implementation</p> <p>a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002</p> <p>b. <p>5. Responsible ADB officer(s): Lan Wu</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Supporting regional economic cooperation is one of the three pillars of ADB's poverty reduction strategy and a strategic focus in ADB operations as enunciated in the LTSF. Under the overall objective of promoting sustained economic growth and poverty reduction, ADB has provided support for economic cooperation in Central Asia since 1997. Its operational focus is on three areas: transport- to alleviate the region's locational disadvantage; energy – to encourage rational use of vital resources of energy and water; and trade facilitation – to promote trade within the region and with outside world. To date, modest success has been achieved, as evidenced in (i) increased awareness and understanding of cooperation, with an overall framework established to further cooperation; and (ii) a preliminary set of priority regional projects identified in each of the focused areas, which are now at various stages of implementation.</p> <p>With the gradual return of peace to Afghanistan, renewed world focus on Central Asia, and a general climate more conducive to cooperation in the region, ADB faces new challenges: principally, how to advance cooperation to assist the countries in seizing this historical window of opportunity to achieve and maintain peace, stability and prosperity through cooperation? One key to future success on a sustainable basis lies in the</p>										

strengthening of capacity of the countries participating in the ADB supported Central Asia regional cooperation program. Specifically, the institutional capacity of government agencies involved in regional cooperation, the capacity of the officials in charge of or participating in regional cooperation (policy making and implementation) would be the basis for bringing forward the cause of regional cooperation.

This important role of capacity for regional cooperation has been clearly recognized by the participating governments, and the request for ADB to assist in capacity building for regional cooperation especially in the three priority areas of cooperation was reflected in the Ministerial Statement issued at the Ministerial Conference on Economic Cooperation in Central Asia held 25-26 March 2002.

b. Goal and purpose: The overall goal of the TA is to promote economic growth and reduce poverty in Central Asia. The specific purpose of the TA is to promote economic cooperation through strengthening the capacity of the participating governments for regional cooperation, particularly in the area of transport, energy and trade facilitation.

c. Components and outputs: The TA will have the following components and corresponding outputs:

- (i) A comprehensive assessment of the capacity building needs – the output will be a comprehensive capacity building plan. The plan will identify and analyze the medium and longer term needs for institutional and technical capacity building, a plan to meet these needs with sequenced steps of implementation, with clear monitorable indicators.
- (ii) Capacity building activities for National Focal Points (NFP) – as NFPs are a central part of the overall framework and key to the coordination of cooperation activities in their respective governments, their capacity both as an institution and as individual officials would be crucial to future success of cooperation. The capacity building needs including training needs would need to be tailored to suit the specific mandate of the NFPs.
- (iii) Sectoral capacity building activities – two sets of activities including training courses will be important: one more skills and capacity in the more general area of administration and management pertinent to economic cooperation; and the other more technical skills and capacity specific to their respective sectors.
- (iv) Supporting activities – based on the assessment, some support for equipment may be necessary in order to ensure the effectiveness of capacity building activities.

d. Expected results and deliverables: The TA is expected to generate (i) enhanced institutional capacity of the governments in furthering regional cooperation in general; and (ii) strengthened technical and institutional capacity of the priority sectors of economic cooperation.

e. Social or environmental issues or concerns: none foreseen.

f. Plans for disseminating results/deliverables: Dissemination will be through workshops, meetings, publications and other means including ADB websites, in addition to wide circulation of materials (including consultant reports) within each government and among development partners and other stakeholders.

7. Proposed executing/implementing agencies: Operations Coordination Division/East and Central Asia Department

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance: ADB has committed to developing capacity building at the request of the governments as explicitly stated in the Ministerial Statement of the Ministerial Conference on Economic Cooperation in Central Asia during 25–26 March 2002.

9. Timetable for assistance design, processing, and implementation

- a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002
- b. Expected date of submission for approval
 - Lending:
 - Nonlending (project preparatory):
 - Nonlending (other than project preparatory): 2003

c. Period and duration of assistance

Lending:

Nonlending: 2003–2005

10. Financing Plan (Indicate possible financing sources and amount of assistance, cost estimates, and financing arrangements)

a. For lending

 Ordinary capital resources: \$ Asian Development Fund: \$ Other: \$

If cofinancing is required indicate sources, and amount sought:

If known, provide cost estimates and financing arrangements. (e.g., total cost, ADB financing, other financing, and government financing):

b. For nonlending

 No resources required, other than ADB staff ADB's administrative budget: \$ Grant TA funds: Subject to further confirmation

If cofinancing is required indicate sources, and amount sought:

If known, provide cost estimates and financing arrangements. (e.g., total cost, ADB financing, other financing, and government financing):

ADB = Asian Development Bank, CSP = country strategy and program, SCSP = subregional cooperation strategy and program, TA = technical assistance.

<p>5. Responsible ADB officer(s): To be assigned.</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Supporting regional economic co-operation to promote sustainable economic growth and poverty reduction is a key objective of ADB's operations. Facilitating trade, especially cross-border trade, has been a focus of ADB's program in the Central Asian region since 1997. Since 2000, ADB's trade facilitation has focused on the potential for customs modernization and cooperation. The first phase of technical assistance for regional trade facilitation and customs cooperation is being processed in 2002 comprising the following components: (i) harmonization and simplification of documentation; (ii) simplification of border and transit procedures; (iii) establishment of data transfer protocols; (iv) coordinated data gathering and information systems; (v) development of common performance standards; (vi) effective use of technical resources; (vii) possible regional initiatives to promote post-transit/entry compliance audits; (viii) establishing pilot joint processing centers of customs; and (ix) regional capacity building and training initiatives.</p> <p>b. Goal and purpose: The goal is to establish efficient and effective customs arrangements in the region that will facilitate foreign trade and investment, encourage movement of goods and people, and promote economic growth.</p>										

c. Components and outputs: The Phase II TA will build on and carry forward the activities started in Phase I, but expand issues related to the WTO. Phase II will tentatively focus on (i) continued capacity building for customs officials, (ii) information and communication technology applications for trade facilitation and customs and regional information linkages, (iii) continue and expand pilot joint processing centers, (iv) support implementation of simplified border and transit procedures, and (v) assessment of issues relating to WTO accession for applicant countries and development of action plans to support applicant countries in their preparations for WTO accession. The details will be decided upon completion of Phase I TA.

d. Expected results and deliverables: Reports, workshops and seminars.

e. Social or environmental issues or concerns: none

f. Plans for disseminating results/deliverables: To be developed during TA preparation.

7. Proposed executing/implementing agencies: The Ministries for Trade and State Customs Administrations in the respective countries in the East and Central Asian Region will be the implementing agencies. The ADB will execute the overall TA.

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

9. Timetable for assistance design, processing, and implementation

a. Year included in CSP, CSP update, SCSP, SCSP update, or interregional work plan: 2002

b. Expected date of submission for approval
 Lending:
 Nonlending (project preparatory):
 Nonlending (other than project preparatory): 2004

c. Period and duration of assistance

<p>4. Responsible division/department: Governance, Finance & Trade Division/East and Central Asia Department</p>										
<p>5. Responsible ADB officer(s): To be assigned</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Supporting sustainable economic growth through regional cooperation would greatly enhance the economic transition process in the CARs. One of the sectors which particularly lends itself to regional cooperation is the tourism sector. Regional tourism development is an engine to economic growth and presents an opportunity for sustainable economic and social development by generating foreign exchange revenues, promoting economic diversification, and strengthening regional cooperation and collaboration.</p> <p>The most suitable countries for a regional approach to tourism development among the CARs are Kazakhstan, the Kyrgyz Republic, and Uzbekistan. In addition to their natural beauty, these countries share a rich historic past and cultural heritage. Both topography and politics have resulted in historical trade patterns in the CARs, such as the legendary "Silk Road," a loose network of trade routes linking the CARs with the People's Republic of China (PRC), Europe, South Asia and central Siberia. More recently land bridges such as the famous Trans-Siberian Railroad were established. Coupled with the region's Tian Shan Mountains attracting both foreign and domestic skiers and trekkers, the three countries provide considerable potential for tourism development.</p>										

b. Goal and purpose: The objectives of the proposed RETA are to (i) evaluate the feasibility of sustainable development of the tourism potential of Kazakhstan, the Kyrgyz Republic, and Uzbekistan in a way that advocates subregional cooperation; (ii) promote economic growth in the subregion; (iii) facilitate information exchange with the private sector; and (iv) identify a pipeline of subregional tourism development projects.

c. Components and outputs: The components of the RETA includes (i) comprehensive analysis of the current status of the tourism sector in the three countries and the subregion, including identification of obstacles to sector growth on a subregional basis; (ii) preparation of a tourism development study identifying subregional projects based, inter alia, on social, economic, legal, financial, and environmental analysis; (iii) identification of ways and management mechanisms needed to increase subregional cooperation in tourism development while preserving and protecting the joint cultural and historical heritage and the environment; (iv) dissemination of tourism development strategy to key stakeholders including the private sector.

d. Expected results and deliverables: The major outputs of the RETA include (i) a subregional tourism development study, including pipeline of subregional tourism development projects; (ii) identification of subregional economic growth potential through tourism development; (iii) cooperative management mechanisms for subregional tourism development; (iv) enhanced visibility of tourism development in the subregion through industry forum and publication on study results; and (v) identification of opportunities for private sector participation.

e. Social or environmental issues or concerns: none

f. Plans for disseminating results/deliverables: To be developed during TA preparation.

7. Proposed executing/implementing agencies: ADB would be the executing agency.

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

<p>4. Responsible division/department: Agriculture, Environment & Natural Resources Division/East and Central Asia Department</p>										
<p>5. Responsible ADB officer(s): M. A. Malik</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Agriculture in many Central Asian countries is heavily dependent on irrigation. Most of the existing irrigation systems were built in 1960's under the Soviet era. As a result of severe financial crisis followed by the collapse of the Soviet Union, the governments have not been able to meet the increasing operation and maintenance (O&M) budget requirements. As a result, operational status of these massive and energy-intensive irrigation infrastructure systems are rapidly deteriorating. At the same time, rapid privatization of farms within the irrigated command areas also resulted in disruption of on-farm level water management.</p> <p>Concerned with declining efficiency of the irrigation supply systems, many Central Asian governments place high priority to the immediate rehabilitation/ restoration of the supply systems, such as high-lift pumps and long feeder (main) canals. However, issues relating to the maintenance of on-farm water courses and management of irrigation water distribution (where largest loss of water takes place) do not receive much attention of the policy makers and sector planners.</p>										

In many other parts of Asian, however, importance of on-farm water management through strong beneficiary participation has been recognized as a key to address issues relating to sustained maintenance of irrigation systems and equitable distribution of water. In some Asian countries, participatory management of water management has advanced to a stage of irrigation management transfer to the beneficiaries, resulting in more efficient assessment/collection of irrigation fees, and more cost-effective, transparent and participatory management of irrigation systems. Initial attempts to develop participatory management of on-farm irrigation distribution (e.g., through development of water user associations) are implemented in a number of Central Asian countries, but their experiences and progress are not shared among themselves.

b. Goal and purpose: The goal of the proposed study is to promote awareness of the Central Asian governments on the importance and potential of the participatory water resources management.

Specific purpose of the study is to compile the collective experience and lessons gained in the participatory management of water in the Central Asia, analyze comparative progress/outcome in relation to the relevant policy framework, and study the relevance of the experiences and lessons from other Asian countries where participatory water resources management is in a much advanced stage.

c. Components and outputs: The study would involve specific case study on the selected irrigation systems in the Central Asia, secondary data analyses of the experiences in other Asian countries, participatory workshops (including presentation of advanced irrigation management transfer in Indonesia or Philippines) and preparation of policy recommendations.

d. Expected results and deliverables: The study is expected to result in a set of specific policy recommendations for the Central Asian governments to promote participatory water resources management.

e. Social or environmental issues or concerns: To be determined.

f. Plans for disseminating results/deliverables: To be determined.

7. Proposed executing/implementing agencies: Asian Development Bank

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance: None so far.

9. Timetable for assistance design, processing, and implementation
