Table A1.1: Progress toward the Millennium Development Goals and Targets

Goals and Targets	1990	1995	Latest Year	
Goal 1. Eradicate extreme poverty and hunger				
Target 1: Reduce incidence of extreme poverty by half from 1990 to 2015				
People living on below US\$1 a day, 1985 PPP (%)	—	—	31.0	1996
Population in poverty (% of population falling below the poverty line)	—	—	37.5	1996
Target 2: Reduce the proportion of people who suffer from hunger by half from 1990 to 2015				
Prevalence of child malnutrition (% of children under age 5)	35.0 1985	—	29.0	1997
Goal 2. Achieve universal primary education				
Target 3: Attain 100 percent primary school enrolment by 2015				
Net primary enrollment ratio (% of relevant age group)	—	73.0 1994	—	
Goal 3. Promote gender equality and empower women				
Target 4: Eliminate gender disparities in primary and secondary education by 2005 and to all levels of education no later than 2015				
Ratio of girls to boys in primary and secondary education (%)	77.0	—	—	
Goal 4. Reduce child mortality				
Target 5: Reduce infant and child mortality by two thirds from 1990 to 2015				
Infant mortality rate (per 1'000 live births)	83.0	77.0 1995-1997 ^a	58.0	1999
		73.0 1996		
Under-5 mortality rate (per 1'000 live births)	—	100.0 1995-1997 ^a	77.0	1999
		93.0 1996		
Goal 5. Improve Maternal Health				
Target 6: Reduce maternal mortality rate by three quarters between 1990 and 2015				
Maternal mortality ratio (per 100,000 live births)	—	—	370.0	1996
Births attended by skilled health staff (% of live births)	—	33.0 1995-1997 ^a	53.0	1997-1999 ^a
		47.0 1997		

MDGs and Targets	1990	1995	Latest Year	
Goal 6. Combat HIV/AIDS, malaria, and other diseases				
Target 7: Have halted by 2015, and begun to reverse the spread of HIV/AIDS				
HIV prevalence rate (% of people 15-49 years old)	—	—	0.2	1999
Contraceptive prevalence rate (% of women 15-49 years old)	4.0	20.0	26.0	1996
Target 8: Have halted by 2015, and begun to reverse the incidence of malaria and other major diseases				
Prevalence of malaria (per 100,000 people)	—	847.0 1997	364.0	1999
Prevalence of tuberculosis (per 100,000 people)	—	245.0 1998	239.0	1999
Goal 7. Ensure environmental sustainability				
Target 9: Integrate the principles of sustainable development into country policies and programs and reverse the loss of environmental resources				
Status of national environmental action plans	—	—	Completed	
Forest area (% of total land area)	—	—	67.6	2000
Nationally protected areas (% of total land area)	—	—	<0.1	1999
GDP per unit of energy use (PPP \$/kg oil equivalent)	—	—	—	
Carbon dioxide emissions (per capita metric tons)	—	—	0.5	1997
Target 10: Halve, by 2015, the proportion of people without sustainable access to safe drinking water				
Access to safe water (% of population)	—	24.0 1995-1997 ^a	41.0	2001
Target 11: By 2010, to have achieved a significant improvement in the lives of at least 100 million slum dwellers				
Access to sanitation (% of population)	—	25.0 1995-1997 ^a	83.0	2001

ADF = Asian Development Fund, AGR = agriculture and natural resources, DO = development objectives, ENE = energy, FIN = finance, HS = highly satisfactory, IND = industry and nonfuel minerals, IP = implementation progress, MUL = multisector, no. = number, OCR = ordinary capital resources, OTH = others, PS=partly satisfactory, S = satisfactory, Seg = segment (pertaining to loans with more than one withdrawal authority), SOC = social infrastructure, T&C = transport and communications, U = unsatisfactory.

^a "Yes" for loans with four or more risk factors associated with partly satisfactory or unsatisfactory performance.

^b A loan is considered "at risk" if it is rated as "PS" or "U" in either implementation progress or development objectives, or if it is a potential problem loan.

<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: The Government's road sector strategy in the National Transport Development Plan 2001–2010. (NTDP) includes institutional reform of the transport sector to (i) establish an autonomous road authority that will manage and maintain the national, provincial, and district roads efficiently and effectively; and (ii) adopt commercial approaches to management of the road sector to enhance its contribution to PNG's economic development.</p> <p>b. Goal and purpose: The proposed SDP will support the Government's road sector reorganization and establish a road authority. The SDP will enable the transfer of road operations from the Government's present Department of Works and Transport to the new authority, and support the prerequisites for orderly, publicly and politically popular change: (i) staff restructuring, (ii) establishment of communications</p>										

facilities, (iii) implementation of the planning cycle, (iv) establishment of appropriate and effective operational delivery capacity and procedures, and (v) sustainable funding arrangements.

c. Components and outputs:

The components and outputs of the proposed project will be determined through thorough examination of the needs prepared under TA 3716-PNG: Road Authority Development Project.

c. Expected results and deliverables:

The results and deliverables of the proposed project will be determined through thorough examination of the needs prepared under TA 3716-PNG.

e. Social or environmental issues or concerns:

The social issues of the proposed project will be determined through thorough examination of the needs prepared under TA 3716-PNG. The proposed project has no environmental implications and is classified under environmental category C.

f. Plans for disseminating results/deliverables:

The plans for disseminating results and deliverables of the proposed project will be determined through thorough examination of the stakeholders prepared under TA 3716-PNG.

7. Proposed executing/implementing agencies:

To be determined

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

The Government, through the National Executive Council (NEC), has been consulted on the need and mechanism to prepare the proposed project. The proposed project received an 'in principle' approval from the NEC in April 2002 and requires the analysis underway with the support of TA 3716-PNG: Road Authority Development Project. In the process, other government agencies have been consulted, including the departments of the prime minister and national executive council; national planning and rural development; and works and transport have been consulted in the process. The private-public Consultative Implementation Monitoring Committee (CIMC) has also been consulted. These consultations have been undertaken through CIMC meetings, ADB staff dialogue with organizations, and preparation and consideration of an NEC submission on the issue.

<p>5. Responsible ADB officer(s): S. Jarvenpaa</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy:</p> <p>The proposed project is envisaged to lead to (i) more frequent and reliable transport services with more comfortable and faster travel; (ii) greater mobility, especially for rural and disadvantaged people; and (iii) reduced operating costs for vehicles, making them increasingly available and cheaper. The improvements in transportation will facilitate access by the rural poor to markets in large villages and district centers, which is especially important for women as they are the major producers and sellers of market produce. The project is expected to benefit those in the cash economy, who will more easily be able to transport their crops to buyers in towns, or to sell directly at the point of production to traveling buyers. The delivery of health, education, and agricultural extension services in major towns will be improved if the road network is upgraded to a functional standard. The standards of all of these services have seriously declined during the past decade but remain better in towns than in rural areas. Access to health services for women and children, in particular, has become difficult due to inadequate transport.</p>										

b. Goal and purpose:

The proposed project will support the Government's road sector investment goals, and improve poor road infrastructure in the Southern Region of PNG, which constrains development and poverty reduction. These improvements will enable the delivery of government extension services, education, health, and policing, which have become difficult, and in some areas impossible, due to road conditions; and facilitate access to jobs and markets. These improvements are expected to lead to more peace and security and to reduce the urbanization of Port Moresby. The project will enhance the capacity of the road sector to contribute to poverty reduction and economic growth by increasing access of remote communities.

c. Components and outputs:

The components and outputs of the project will be determined through thorough examination of the needs prepared under TA 3717-PNG: Southern Road Rehabilitation and Upgrading Project.

d. Expected results and deliverables:

The results and deliverables of the proposed project will be determined through thorough examination of the needs prepared under TA 3717-PNG.

e. Social or environmental issues or concerns:

The social issues of the proposed project will be determined through thorough examination of the needs prepared under TA 3717-PNG. The proposed project has limited environmental implications, which need to be mitigated by ensuring implementation of sound engineering practices. The project is classified under environmental category B.

f. Plans for disseminating results/deliverables:

The plans for disseminating results and deliverables of the proposed project will be determined through thorough examination of the stakeholders prepared under TA 3717-PNG.

7. Proposed executing/implementing agencies:

To be determined

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

The project has been discussed with various government agencies, including the departments of the prime minister and national executive council; national planning and rural development; and works and transport. The private-public Consultative Implementation Monitoring Committee (CIMC) has also been consulted. These consultations have been undertaken through CIMC meetings and ADB staff dialogue with organizations.

<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: The CSP identifies rapid population growth as a key constraint on accelerating poverty reduction in PNG, and on improving the very poor social indicators. Gender inequalities are severe, and the CSP aims to ensure that, as much as possible, women derive the benefits of ADB assistance.</p> <p>b. Goal and purpose: The goal is to improve the quality of life and accelerate the pace of human development in PNG. The purpose of the project is to (i) help improve participation of women in economic, political, and social life; (ii) improve understanding and awareness of the linkages among population growth, development, and the environment; and (iii) improve the national capacity to produce population data and results.</p> <p>c. Components and outputs: The project details are under preparation. Background/linkage to country/regional strategy: The CSP highlights the very poor health indicators, especially for women, as a key area for ADB assistance. ADB has played a lead role in the health sector, providing central policy and financial assistance. The Government is moving toward a sector-wide approach for assistance based on achievements under the ADB-supported health sector development program, which is still under implementation, and has asked that ADB maintain its leading role in the program's continuation.</p> <p>b. Goal and purpose: The goal is to improve health service delivery, particularly in remote rural areas. The purpose is to improve the efficiency of resource utilization in the health sector, particularly at the subnational level.</p> <p>c. Components and outputs: Policy-based lending will support the sector-wide approach, together with other development partners, while investment lending will directly support improving service delivery.</p> <p>d. <p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: ADB has assisted the fisheries sector for over a decade. The Fisheries Development Project has recently resulted in fundamental institutional changes within the National Fisheries Authority (NFA), which has been downsized, making it more efficient, better focused on its mandate, and able to initiate and fund development provincial projects. The coastal fisheries management and development project, proposed for 2002, will aim to halt localized overfishing through increased market value of existing catches.</p> <p>b. Goal and purpose: Establish marine reserves at strategic locations to (i) create marine sanctuaries to replenish and maintain fish stocks in adjacent areas; and (ii) earn income from marine reserves, e.g., ecotourism, diving, and game fishing, and thus provide alternative and possibly more attractive income means than traditional fishing.</p> <p>c. Components and outputs: The TA will develop a project proposal that is likely to have the following</p>										

components: (i) policy issues relating to marine tenure, (ii) identified areas with high potential for alternative use, and (iii) links with an existing or emerging private sector to undertake required investment.

d. Expected results and deliverables: Improved socioeconomic and employment status for people in the project areas

e. Social or environmental issues or concerns: Marine tenure and traditional rights to certain fishing areas may hinder creating marine reserves large enough to have the desired impacts. This intervention will have a positive effect on the environment.

f. Plans for disseminating results/deliverables:

7. Proposed executing/implementing agencies: National Fisheries Authority

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

A wide range of stakeholders and beneficiaries will be consulted during the TA fact-finding and implementation: private companies involved in similar activities in other areas, NGOs concerned with marine protection, fisher associations, and local governments and provincial authorities.

<p>5. Responsible ADB officer(s): A. Iffland</p>										
<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: Low life expectancy, high infant mortality, poor adult literacy, and low enrollment ratios at all levels of education, combined with low per capita income, make PNG's human development level the lowest among ADB's 12 Pacific developing member countries. The 1995 human development index value for PNG was 0.507, placing the country in 129th place among 174 developing countries. The average adult literacy rate in 1995 was 52%, but 72% for men and 32% for women. Similar gender disparities exist in mean years of schooling and enrollment.</p> <p>Most adults have no access to basic education, and many school-age children are not able to study in the formal education system. Some NGOs and church organizations provide training in functional numeracy and literacy, but these programs are financed through donations, offered sporadically, and limited in their outreach. The Government does not provide basic education for adults or support other training providers, leaving a large number of adults, especially women, without basic education, which restricts their participation in the cash economy.</p>										

b. Goal and purpose: The goal of the assistance is to produce a literate adult population, which will contribute to and benefit from the economic development of PNG. The purpose is to provide the adult population, especially women, with basic education, and expand education opportunities for disadvantaged school-age children.

c. Components and outputs: (i) National policy for informal and adult education; (ii) national awareness campaign for informal/adult education; (iii) curriculum development, production of teaching aids, and teacher training for adult education; and (iv) basic educational training conducted by NGOs, church organizations, and other training providers

d. Expected results and deliverables: (i) Average literacy rate of 60% by 2010; (ii) a women's literacy rate of 50% by 2010; and (iii) at least 1,000 teachers training in functional numeracy and literacy by 2010

f. Plans for disseminating results/deliverables:

7. Proposed executing/implementing agencies: To be determined

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance: The departments of education, and national planning and rural development have identified the assistance as a priority. The public-private Consultative Implementation and Monitoring Committee also stresses the importance of adult education in reducing poverty.

(Note: Mention the institutions in government and civil society, including nongovernment organizations, that have been consulted about the project, and the nature of the consultations.)

<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: As stressed in the CSP, the fundamental challenge to PNG is to ensure that most of the population participates and shares in the benefits of economic growth. However, jobs in the formal sector have stagnated over the last decade. The private sector, particularly small and medium-sized enterprises (SMEs) finds it increasingly difficult to maintain current operations, let alone expand. Administrative barriers delay and hinder foreign and local investments, commercial financial institutions do not cater to the needs of SMEs, and nonfinancial business development organizations are supply driven and offer mostly irrelevant services.</p> <p>b. Goal and purpose: The goal of the proposed assistance is to help SMEs become the engine of economic growth and contribute substantially to job creation. The purpose is to help provide an environment conducive to SME development.</p> <p>c. Components and outputs: The design needs to be refined. As envisaged now, components and outputs will include (i) reduction of administrative barriers to SME development, (ii) provision by commercial financing</p>

institutions of appropriate services to SMEs, and (iii) business development organizations that are demand-driven and offer nonfinancial services on a sustainable basis.

d. Expected results and deliverables: (i) Creation by SMEs of at least 5,000 new jobs by 2010, and (ii) at least 25% of economic growth fueled by SMEs by 2010

<p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: The CSP identifies land tenure generally as a key impediment to development in PNG. The traditional forms of land ownership are central to PNG customs and form an integral part of the strong safety systems. However, pressure is growing to examine alternative systems that retain the desirable features of traditional systems while allowing flexibility in mobilizing land resources. Land tenure greatly affects gender equality and inequity. The issue is highly sensitive and will require careful consultation.</p> <p>b. <p>6. Description of assistance(s)</p> <p>a. Background/linkage to country/regional strategy: The CSP identifies improving social indicators as a key area for ADB assistance. Ongoing poverty assessment identifies safe water supply as a critical issue for the poor in peri-urban squatter settlements and rural areas. Inadequate water and sanitation services are a serious public health concern, especially in the high-density Highlands Region. ADB leads in improving water supply and sanitation, and the Government has asked that ADB continue to do so.</p> <p>b. Goal and purpose: The goal of the proposed assistance is to help improve PNG's social indicators. The purpose is to help make water more available in rural areas.</p> <p>c. Components and outputs: To be determined</p> <p>d. Expected results and deliverables: Improved rural water supply</p>

8. Nature/extent of government/beneficiary involvement in identifying or conceptualizing the assistance:

The Department of National Planning and Rural Development, the Department of Provincial and Local Level Government Affairs, and the Department of the Prime Minister and National Executive Council have all identified rural water supply as a priority. The National Council of Women has also urged the Government to pay attention to it.

(Note: Mention the institutions in government and civil society, including nongovernment organizations, that have been consulted about the project, and the nature of the consultations.)
