

Energy Strategy Development Stakeholder Consultation Workshop

East Asia

6 July 2007 • Chang An Club, Beijing, People's Republic of China

Workshop Program (Tentative)

The workshop aims to bring together a diverse group of external stakeholders (governments, development partners, civil society organizations, private sector, academia, and others) to hear their views on the consultation draft of the energy strategy. Following the workshop, the views expressed will be considered during the revision process and incorporated, as appropriate, in finalizing the energy strategy.
