RANJI CASINADER - RESUME'

Ranji Casinader is an Independent Consulting Engineer based in Melbourne, Australia, practising in the field of water resources engineering. His professional experience of over 45 years has mainly been on hydropower and water supply projects, in many of which dams were a component, and also on dams for irrigation projects.

He recently served as the Water Resources and Power Engineering Expert on the Advisory Panel for ADB's "Study of Large Dams and Recommended Practices".
