How to Develop Ho Chi Minh City's Infrastructure

Asian Development Bank Presentation

1 December 2006

ADB

- HCMC will grow
- HCMC should grow
- HCMC is growing
 - with or without appropriate infrastructure

TODAY: 6 million

2020 (or earlier): 10 million

Need to invest in HCMC's infrastructure

NOW!

Because,
without appropriate infrastructure

- Huge inefficiency
- Poor Standard of Living

....also

Cost is increasing day by day

TIME IS MONEY!

But....

HCMC alone does not have to finance
necessary investment

Huge scope exists for Public
Private Partnership (PPP)

Also for HCMC's financing, there are
many new ways to arrange

Today, we will present

- Ho Chi Min City's Challenges
- Public Private Partnership
- Some of New Financing Arrangements

- to revisit the strategy

- Not just for ADB
 - We need to continue to discuss
(not just for Today!)
 - Country Program Confirmation
(January 2007)
 - Country Program Mission
(mid-2007)
-and in many more future occasions

Thank you, let us begin!
