Factors creating a demand for radical changes

- Presence of backward public administration forms, presence of a large number of bureaucratic methods of state regulation;
- Overlapping functions of state bodies in issues of control over the movement of goods and vehicles
- Interest of the business community and its participation in optimization of external trade procedures;
- Implementation of customs modernization

Availability of Political Will

- Decree of the President of the Kyrgyz Republic dated October 23, 2007, № 464
- Action Plan of the Government of the Kyrgyz Republic for improvement of indicators in the World Bank "Doing business" rating
- Investment Council under the President of the Kyrgyz Republic

Initiation of reforms

- National Concept of the Single Window for external trade and development of a feasibility study
- Amendments to the national legislation
- Program for investment climate improvement under the MEDT of the KR
- Introduction of the Single Automated Information System by the Customs from 2010
