IWRM in River Basins :

Keys for Success

27 April – 1 May 2009, Solo, Indonesia

The Case of the Prachin Buri and Bang Pakong River Basin in Thailand

Presentation by:

Name Mr. Phathai Punturothai

Designation Director of Prachinburi Basin coordination
and management

Organization Department of Water Resources
Ministry of Natural Resources and Environment

Keys for Success with IWRM in the Prachin Buri and Bang Pakong River Basin

1. Having integrated strategic management in local area
2. Having Integrated Strategic Framework on Management and Development in the river basins approved by National Water Resources Committee
3. Establishment of Organization in river basin, sub-basin level and water conservation network group
4. Local people in Bangpakong River Basin aware of water value and cooperate in river and canal conservation.

Expectations from the Regional Knowledge Hub (CRBOM) and its Network

Performance benchmarking

- a Facilitate performance benchmarking
- b Developing indicators for performance benchmarking

Roadmaps for IWRM Investments

- a Study for efficient river basin planning on water
- b Study for governance in budgeting process

Expectations from the Regional Knowledge Hub (CRBOM) and its Network

IWRM Processes

a Eco efficiency water infrastructure

b Decision support system for water allocation

c Building and strengthening capabilities

of river basin organization and network groups

Proposed collaboration with CRBOM

- Training on benchmarking implementation of RBOs in river basin
- Training in planning and data management
- Help for formulation of efficient river basin plan and the roadmap for IWRM investment
- other topics related to IWRM such as water resources management tools, technology, and water resources management models.
