

**Madhav G. Badami**

School of Urban Planning and McGill School of Environment

McGill University, Canada

e-mail: [madhav.badami@mcgill.ca](mailto:madhav.badami@mcgill.ca)

Professor Madhav Badami has a joint appointment in the School of Urban Planning and the McGill School of Environment. After having studied mechanical engineering at the Indian Institute of Technology, Madras, he spent nine years in diesel engine development in the Indian truck and bus industry. He then obtained a Master's degree in environmental science at The University of Calgary, and a PhD in environmental policy at the University of British Columbia.

His teaching and research interests are in the areas of environmental policy and planning; urban infrastructure and services in low-income countries; alternative transport fuels; sustainable urban transport; and environment and development. He is currently leading a collaborative SSHRC-funded (Social Sciences and Humanities Research Council) research program involving the integrated assessment of compressed natural gas as a transport fuel in India.
