About How to Design, Negotiate, and Implement a Free Trade Agreement in Asia

This reference book, intended to complement the training courses on free trade agreements (FTAs) conducted by ADB, aims to increase the knowledge and capacity of officials who are actively involved in designing, negotiating, and implementing FTAs. Building on international trade theories and good practices and FTA experience of countries worldwide, the book explains important facts and benchmarks to be considered when preparing, negotiating, and enforcing FTAs in Asia.

About Asian Development Bank

ADB's vision is an Asia and Pacific region free of poverty. Its mission is to help its developing member countries substantially reduce poverty and improve the quality of life of their people. Despite the region's many successes, it remains home to two thirds of the world's poor. Nearly 1.7 billion people in the region live on \$2 or less a day. ADB is committed to reducing poverty through inclusive economic growth, environmentally sustainable growth, and regional integration.

Based in Manila, ADB is owned by 67 members, including 48 from the region. Its main instruments for helping its developing member countries are policy dialogue, loans, equity investments, guarantees, grants, and technical assistance. In 2007, it approved \$10.1 billion of loans, \$673 million of grant projects, and technical assistance amounting to \$243 million.
