## Figures

1.1	<i>Distribution of Per Capita Household Expenditure, 1993 and 1998</i>	1
2.1	<i>Conceptual Framework for Human Capital and Poverty</i>	9
3.1	<i>Literacy Rate for the Population Over the Age of 18, by Expenditure Quintile, 1992–1993 and 1997–1998</i>	16
3.2	<i>Literacy Rates, by Gender, 1992–1993 and 1997–1998</i>	16
3.3	<i>Education Level of Adults Between the Ages of 25 and 65</i>	16
3.4a	<i>Gross Enrollment Rate (GER)—Primary School, 1980 to 1995</i>	17
3.4b	<i>Gross Enrollment Rate (GER)—Lower Secondary School, 1980 to 1995</i>	17
3.4c	<i>Gross Enrollment Rate (GER)—Upper Secondary School, 1980 to 1995</i>	17
3.5	<i>Enrollment, 1992–1993 and 1997–1998</i>	18
3.6a	<i>Enrollment in Primary School—Net Enrollment</i>	19
3.6b	<i>Enrollment in Primary School—Age-Specific Enrollment</i>	19
3.7a	<i>Enrollment in Lower Secondary School—Net Enrollment</i>	20
3.7b	<i>Enrollment in Lower Secondary School—Age-Specific Enrollment</i>	20
3.8	<i>Relationship Between Lower Secondary School Net Enrollment Rate (NER) and Poverty Rate at the Provincial Level, 1992–1993 and 1997–1998</i>	20
3.9	<i>Percentage of Students Receiving Good or Excellent Marks in Primary, Lower Secondary, and Upper Secondary School</i>	21
3.10	<i>Relationship Between Poverty and Infant Mortality at the Provincial Level</i>	22
3.11	<i>Relationship Between Poverty and Infant Mortality Rate (IMR) at the Regional Level, 1992–1993 and 1997–1998</i>	23
3.12a	<i>Indicators of Growth and Well-Being for Children from 2 to 11 Years—Average Height-for-Age</i>	27
3.12b	<i>Indicators of Growth and Well-Being for Children from 2 to 11 Years—Average Weight-for-Height</i>	27
3.13	<i>Body Mass Index (BMI) for Adults over the Age of 20, 1992–1993 and 1997–1998</i>	28
3.14	<i>Distribution of Patient Days, by Expenditure Quintile</i>	32
3.15a	<i>Prenatal Care for Most Recent Birth—Use of Prenatal Care</i>	33
3.15b	<i>Prenatal Care for Most Recent Birth—Average Number of Prenatal Visits</i>	33
3.16	<i>Percentage of Births in Modern Facilities</i>	33
3.17a	<i>Child Immunization Rate—Percentage of Children with at Least One Vaccination</i>	34
3.17b	<i>Child Immunization Rate—Percentage of Children Who Are Fully Immunized</i>	34
4.1	<i>National Student-to-Teacher Ratio</i>	39
4.2	<i>Percentage of Primary School Students with All the Required Textbooks</i>	40
4.3a	<i>Average Cost of School, by Quintile—Primary School</i>	43
4.3b	<i>Average Cost of School, by Quintile—Lower Secondary School</i>	43
4.4	<i>Distribution of Public Subsidies for Education</i>	45
4.5a	<i>Cost of Textbooks as a Proportion of Nonfood Expenditure—Primary School</i>	48
4.5b	<i>Cost of Textbooks as a Proportion of Nonfood Expenditure—Upper Secondary School</i>	48
4.5c	<i>Cost of Textbooks as a Proportion of Nonfood Expenditure—Lower Secondary School</i>	48
4.6a	<i>Hours Worked per Week by Children—Children Aged 11 to 14</i>	49
4.6b	<i>Hours Worked per Week by Children—Children Aged 15 to 17</i>	49
4.7	<i>Relationship Between Private Providers and Poverty</i>	55
4.8	<i>Average Cost of a Hospital Stay</i>	56
4.9	<i>Population Covered by Health Insurance</i>	58
4.10	<i>Distribution of Public Subsidies for Health</i>	59
4.11a	<i>Hours Worked per Week by Women Who Are Pregnant or Have Infants—1992–1993</i>	59
4.11b	<i>Hours Worked per Week by Women Who Are Pregnant or Have Infants—1997–1998</i>	59

## Tables

1.1	<i>Transition into and out of Poverty, 1993 to 1998 (%)</i>	2
3.1	<i>Changes in the Literacy Rate in Viet Nam, 1989 to 1999 (%)</i>	16
3.2	<i>Gross Enrollment Rate (GER), Children Aged 6 to 10 (%)</i>	19
3.3	<i>Gross Enrollment Rate (GER), Children Aged 11 to 14 (%)</i>	19
3.4	<i>Gross Enrollment Rate (GER), Children Aged 15 to 17 (%)</i>	20
3.5	<i>Infant Mortality Rate (IMR) for Poor and Nonpoor Households, 1992–1993 and 1997–1998 (%)</i>	23
3.6	<i>Ratios of Self-Reported Morbidity, 1992–1993 and 1997–1998</i>	24
3.7a	<i>Percentage of the Population Unable to Carry Out Normal Activities Because of Illness, 1992–1993 and 1997–1998</i>	25
3.7b	<i>Number of Days Lost to Illness over the Previous Four-Week Period</i>	25
3.8	<i>Percentage of Children Aged 1 to 5 Who Are Malnourished or Severely Malnourished, Based on Lower-Arm Circumference</i>	27
3.9	<i>Percentage of Stunted or Severely Stunted Children</i>	28
3.10a	<i>Health-Seeking Behavior of People with Illness, 1992–1993 (%)</i>	30
3.10b	<i>Health-Seeking Behavior of People with Illness, 1997–1998 (%)</i>	30
3.11a	<i>Health-Seeking Behavior of the Entire Population, 1992–1993 (%)</i>	30
3.11b	<i>Health Seeking Behavior of the Entire Population, 1997–1998 (%)</i>	30
3.12	<i>Standardized Rates of Contact with the Health System (%)</i>	32
3.13	<i>Inpatient Admission and Patient Days per Hospital Stay</i>	32
3.14	<i>Percentage of Women Giving Birth, by Type of Provider in Attendance</i>	34
4.1	<i>Effects of Doi Moi on Education</i>	36
4.2	<i>Estimated Student-to-Teacher Ratios and Percentage of Trained Teachers in Primary Schools</i>	40
4.3	<i>Enrollment in Nonpublic General Education Schools, 1997–1998 (%)</i>	42
4.4	<i>Education Expenditures as a Percentage of Total Household Expenditures</i>	43
4.5	<i>School Cost as a Percentage of Per Capita Nonfood Expenditure</i>	44
4.6	<i>Share of Government Subsidies and Household Contributions in Education Costs (%)</i>	46
4.7	<i>Percentage of Students with Partial or Total Exemption from School Fees</i>	47
4.8	<i>Percentage of Students Who Have Received Fellowships</i>	48
4.9	<i>Effects of Doi Moi on Health</i>	50
4.10	<i>Reported Problems in Local Health Providers (%)</i>	54
4.11	<i>Health Expenditures as a Percentage of Total Household Expenditures</i>	56
4.12	<i>Health Care Expenditures as a Percentage of Total Household Nonfood Expenditures</i>	57
4.13	<i>Per Capita Consumption of Food and of Rice (in thousand dong, adjusted for 1998 prices)</i>	60
4.14	<i>Current Tobacco Users (%)</i>	61
A3.1	<i>Basic Human Capital Indicators of the Poorest and Wealthiest Groups</i>	76

## Text Boxes

1.1	<i>Poverty Changes</i>	3
2.1	<i>Poverty Lines in Viet Nam</i>	6
2.2	<i>How the Poor Define Themselves</i>	7
3.1	<i>Education and Enrollment</i>	18
3.2	<i>Health-Seeking Behavior</i>	31
4.1	<i>Quality of Education</i>	41
4.2	<i>Education Can Be a Major Expense for the Poor</i>	44
4.3	<i>School and Work</i>	49

This report is the result of a study conducted for the technical assistance project Human Capital for the Poor in Vietnam: Situation and Policy Options (TA 3402), with funding from the Asian Development Bank (ADB). The project was implemented under the overall guidance of Mr. Edward M. Haugh, Manager, Education, Health and Population Division (West), of ADB.

The Ministry of Labor, Invalids, and Veterans of the Socialist Republic of Viet Nam (under its Poverty Reduction Project) and ADB's Education, Health, and Population Division (West) jointly prepared this report. It seeks to further the understanding of the relationship between human capital and poverty, and to provide policymakers, academicians, and researchers with a reference that they can use in developing poverty alleviation strategies and plans for the national Government and the provinces.

The authors of this report—Dr. Indu Bhushan, Dr. Erik Bloom, Dr. Nguyen Hai Huu, and Dr. Nguyen Minh Thang—would like to thank the many people and organizations that helped in preparing this report. The first draft received useful and concrete comments from many experts from related ministries and other organizations, especially Dr. Nguyen Ba Ngoc, Dr. Dao Quang Vinh, Dr. Hoang Cong Giap, Dr. Nguyen Ba Thai, Dr. James Knowles, and Mr. Goran Dahlgren. Sincere thanks also go to advisers, managers, and scientists from the Ministry of Planning and Investment, Ministry of Health, Ministry of Education and Training, Vietnam Women's Union, Vietnam Farmers' Association and Viet Nam Youth Union for their contribution to the data and information analysis and to the writing of this report. Ms. Nguyen Nhat Tuyen and Ms. Nguyen Thi Mai Au of the Viet Nam Resident Mission of ADB coordinated the field work and the qualitative study. Ms. Camille Contreras and Ms. Rosario Romasanta of ADB provided administrative support in Manila.

For the inevitable mistakes and shortcomings, the authors wish to take all responsibility. Feedback and suggestions for improving this report and updating the findings are welcome.
