

**Former Bogota Mayor Enrique Peñalosa
Presentation to ADB's Urban and Transport
Communities of Practice
4 June 2004, Library k-Hub**

**Towards a More Socially and
Environmentally Sustainable City**

What is a good city? “It is a city that is built around the needs of people, and not cars.

It is a city that is safe and friendly to pedestrians and bicycles. It is not one with great highways but rather one where a child in a bicycle could go safely everywhere”, according to Mayor Penalosa.
