RETA 6482 – Improving Price Collection and
Updating PPP Estimates for Selected DMCs

First Data Review Workshop

Overview

11-14 May 2009

ADB Headquarters
Manila, Philippines

Workshop Objectives

- To identify sources of price variations and address issues for price variations of household products to improve price data quality
- To finalize the regional household product list
- To explain the methodology for price collection and PPP computation for non-household products

Expected Outputs

- Validated first quarter 2009 price data for household products
- Final regional household product list
- Methodology for price collection and PPP computation for non-household products explained
- Agreed on other deliverables after the workshop

Workshop Mechanics

- Introduce intra-inter-country price data validation procedures
- Presentation of the regional price data review results
- Discussion and agreement on how to address issues

Thank you!
