Investing in Ourselves: Giving and Fund Raising in Nepal provides NGOs and fund raising practitioners with a deeper knowledge of the fund raising principles and strategies employed in the country. Whether you're a small, young non-profit, or a large national or international organization, you will benefit from the fund raising experiences of the local NGOs in the case studies. The publication of the book is part of a seven-country research project spearheaded by the Asia Pacific Philanthropy Consortium (APPC), and funded by the Asian Development Bank, through the Asia Foundation, Nippon Foundation and United States Agency for International Development (USAID).
