Footnotes:

- a Beginning in 1988, data are intercensal estimates based on the 1988 and 1999 population censuses.
- b The OPS and ESCAP estimated the GDP for 1982 to 1990 based on the income approach. Estimates from 1991 onward are based on the value-added approach following the methodology of a Forum Secretariat Consultant, revising where appropriate.
- c Refers to Majuro only.
- d Exclude government imports and tax-exempted goods for 1982 to 1988. For 1989, figure is estimated based on three months of complete registration.
- e Presented on a fiscal year basis as non-trade data are derived from budget. Merchandise trade data usually compiled and published on a calendar year basis are converted to fiscal year.
- f The unit of currency of the Marshall Islands is the US dollar.
- g Refers to government and government-guaranteed debt only.
