a FAO estimates are derived from official (i.e. country) estimates of total production and total harvested area. Data for 2000 are provisional.

b Includes data for Taipei,China.

c For 1990 onwards, area of land cultivated for paddy field was used as divisor. Figure for 2000 refers to 1999.

d To avoid double counting of the totals in deriving the average yield, estimates for Taipei,China were not included.
