Dear [Redacted]

Re:

Invitation for a Principal Speaker in the Discussion of the Global Warming Situation, 4-5 July 2008, Kuala Lumpur

The Asian Development Bank is now developing a BIMP-EAGA database on cross-border trade, investment, and tourism, in response to the need of the private and public sector for subregion-specific information on global warming activities. The database seeks to support the integration of subregional production base and market networks in pursuit of the new BIMP-EAGA strategy for regional cooperation and development.

In order to produce a useful database, we are trying to closely coordinate this undertaking with business and government users as well as information sources. We would thus like to invite you to give a presentation of the preliminary discussion that will be held on 4-5 July 2008 at the Holiday Villa, Apartment Suites, 225, Ampang Road in Kuala Lumpur KL 50450, Ph/F +61 2179 9000/ 2179 9001. M

We wonder if you would like to give your country perspective concerning the topic on Green Investment in the Global Warming Situation. Detail programme will be sent to you after your confirmation of attendance.

→ Please let us know as soon as possible if you will be able to attend the workshop, by email ([Redacted]), mobile phone ([Redacted]), or fax ([Redacted]).

We look forward to a productive collaboration and hearing from you soon.

Sincerely,

Investment Expert for Global Warming Project
