Description	The objective is to upgrade the structures and training facilities of TMTI, to meet IMO training requirements and thereby remain on the IMO White List, ensuring that Tuvaluan seafarers will continue to be employed on foreign vessels. This objective will contribute significantly to the goal of poverty reduction on the outer islands of Tuvalu and improve the education and skills of Tuvaluan seafarers. The scope of the Project includes rehabilitating and extending training facilities at TMTI; upgrading the wharf facilities; improving and increasing staff accommodation; improving water, power, and communication services; and procuring specialized training equipment.	
Project Rationale and Linkage to Country/Regional Strategy	<p>The general framework for ADB's country strategy for Tuvalu is spelled out in the Pacific Strategy (A Pacific Strategy for the New Millenium, 2000). It focuses on five broad strategic objectives by supporting (i) economic management, governance, and public sector reform, (ii) private sector development, (iii) promotion of a more active role for women in social, economic, and political spheres, (iv) sustainable environmental management, and (v) poverty reduction. The strategy aims to foster equitable growth through the Three Pillars of Growth of the ADB s Poverty Strategy: good governance, inclusive social development, and pro-poor economic growth.</p> <p>The medium-term development strategy (MTDS) for 1995-1998, with its amendment Tuvalu Vision 2015, was the basic Government strategy document, pending the formulation of a new MTDS. Of the five priority programs in the MTDS (i) public sector reforms, (ii) improvement of economic infrastructure, especially interisland shipping and telecommunication, (iii) Education For Life aimed at raising standards of education and training, (iv) encouragement of export-oriented business investment (while encouraging overseas employment), and (v) upgrading of human settlement, the first four area were reiterated in the State of the Nation Address in February 2002, and emphasis on greater self-reliance for the outer islands and reduction of poverty were included as Government's priorities.</p>	
Impact	To contribute to the sustained livelihood and well-being of the outer island communities where primarily the old, the very young, and women live	

### Project Outcome

## Summary of Environmental and Social Aspects

Environmental Aspects	This initial environmental examination has determined that the proposed upgrading of TMTI and extension of shipping services offices can be constructed and operated with no significant negative environmental and social impacts, and that environmental and social benefits should result from proper operation of the facilities. This Project can be classified as Category B (relatively small scale), not requiring an environmental impact assessment. Subject to the implementation of specified mitigation measures, the Project should be able to proceed without any significant negative effects.
Involuntary Resettlement	No resettlement issues
Indigenous Peoples	No issues

## Stakeholder Communication, Participation, and Consultation

During Project Design	Stakeholder consultations held during design of the original TMTI Loan 1921-TUV .
During Project Implementation	Ongoing stakeholder consultations maintained during during project implementation towards reaching project completion.

## Business Opportunities

Consulting Services	Approximately 7 person-months of international consulting services were required for the project management unit and were estimated at US\$177,000. Approximately 1.5 additional person-months of consulting services will be required to cover the extended period of construction supervision and necessary changes to some of the designs.
Procurement	Goods and services financed by ADB under the Project will be procured in accordance with ADB's Guidelines for Procurement. The civil works have been tendered under international competitive bidding. Materials and equipment valued below \$50,000 will be procured under direct purchase procedures. Funds from the supplementary loan will be used to finance part of the shortfall of the civil works contract. The received bids from the shortlisted firms for this ICB were all more than 100% above the appraisal estimates. The civil works contract will be offered for partial award to the lowest substantive responsive bidder for negotiations.
