

Cambodia: GMS: Mekong Tourism Development Project

Project Name	GMS: Mekong Tourism Development Project	
Project Number	35282-013	
Country	Cambodia	
Project Status	Closed	
Project Type / Modality of Assistance	Loan	
Source of Funding / Amount	Loan 1969-CAM: GMS: Mekong Tourism Development Project	
	Concessional ordinary capital resources / Asian Development Fund	US\$ 15.60 million
Strategic Agendas	Environmentally sustainable growth Regional integration	
Drivers of Change	Governance and capacity development Private sector development	
Sector / Subsector	Industry and trade - Trade and services	
Gender Equity and Mainstreaming	Effective gender mainstreaming	
Description	The Project aims to reduce poverty, contribute to economic growth, increase employment, and promote the conservation of the natural and cultural heritage. The specific objective of the Project is to promote sustainable tourism in the lower Mekong basin through infrastructure improvements, community and private sector participation, and sub-regional cooperation. The Project will comprise four parts: Part A, tourism-related infrastructure improvements; Part B, pro-poor, community-based tourism development; Part C, sub-regional cooperation for sustainable tourism; and Part D, implementation assistance and institutional strengthening.	
Project Rationale and Linkage to Country/Regional Strategy	The GMS is the fastest growing tourism destination in the world. This is bringing in much-needed foreign exchange, creating jobs, and contributing to economic growth. However, growth in tourism is constrained by difficulties in access, the lack of investment in tourist infrastructure, the absence of new products to attract visitors, and weaknesses in policy and institutional capacities. The GMS countries have a strong comparative advantage in tourism, demonstrated by the high growth rates, but need to exploit it more effectively to use it as an instrument of poverty reduction, and broad-based economic growth. GMS Economic Cooperation Program GMS Program Strategic Framework	
Impact	Promote sustainable tourism development in Cambodia through infrastructure improvements, community and private sector participation, and sub-regional cooperation.	

Project Outcome

Description of Outcome	The two expected outcomes are: i). Increased economic growth, and ii). Sustainable tourism in the lower Basin of the Mekong River
Progress Toward Outcome	

Implementation Progress

Description of Project Outputs	<p>The key expected outputs are: A. Tourism-related infrastructure improvements, B. Pro-poor, community based tourism development, C. Subregional cooperation for sustainable tourism, D. Implementation assistance and institutional strengthening</p> <p>Part A: Tourism-Related Infrastructure Urban sewer on the west side of Siem Reap rehabilitated, new connections to the system were constructed, stabilizing lagoons constructed in the west part of the town to treat discharges from the area of about 17,000 population; Community sanitation and health awareness program conducted 6.3 km of road access to the Genocide Memorial rehabilitated</p> <p>Part B: Pro-Poor, Community-Based Tourism Development: Capacity building activities for local tourism communities and construction of small-scale tourism infrastructures in Rattanak Kiri and Stung Treng, were completed. A certain number of infrastructure such as visitor information centers (VIC), small bridges, parking areas, toilets, sign posts, fences, food & vendor stalls, changing areas, and ticket booths, etc. were constructed.</p> <p>Part C: Sub-regional Cooperation: Tourism Law approved; sub-decree on the new hotel classification system harmonized with Lao PDR and Viet Nam prepared, approved and implemented; Mekong Tourism Coordinating Office was established and the Project contributed funds for its operation.</p>

Business Opportunities

Consulting Services	To support the implementation of the Project, a total of 346 person-months of consulting services (127 person-months international and 219 person-months domestic) will be required. The Consultants will be engaged in accordance with the ADB's Guidelines on the Use of Consultants and other arrangements satisfactory to ADB on the engagement of domestic consultants. Separate consulting services packages will be required to provide assistance to the PCUs in the NTOs, and the PMUs in charge of infrastructure improvements. The consultants for PMUs will be firms and will focus on Part A. The consultants for the PCUs will be firms and will focus on overall project management and part C of the Project. Individual consultants will be engaged for Part B and will be recruited by PCU. Consulting firms will be selected and engaged following the quality and cost-based selection method. Consultants will provide on-the-job training to national and provincial government officials involved in implementation.
Procurement	Goods and works to be financed by ADB will be procured in accordance with ADB Guidelines for Procurement. International competitive bidding (ICB) procedure will be used for major civil works contracts estimated to cost over \$1.0 million and supply contracts valued over \$500,000. Procurement of minor civil works will be undertaken through local competitive bidding (LCB) in accordance with procedures acceptable to the ADB. International shopping (IS) will be followed for materials and equipment packages estimated to cost more than \$100,000 equivalent but less than \$500,000 equivalent. Equipment items that are locally available, and cost less than \$100,000 equivalent, may be procured through direct purchase in accordance with procedures satisfactory to ADB. For the pro-poor, community-based tourism component, where the proposed subprojects will be relatively small, and scattered throughout the provinces, the Project may fund NGOs to work in a collaborative and participatory manner with local communities.
