## ITALY

The Asian Development Bank (ADB) continues to work and evolve to meet the changing and increasingly complex needs of its members. In 2022, ADB completed a comprehensive organizational review and identified the need for a new operating model that will enable holistic improvements. The reforms will ensure that ADB delivers greater impact in the region, including by scaling up climate financing, mobilizing more private sector investment, and providing a wider range of development solutions in response to client needs.

With finance and knowledge, ADB is supporting high-quality green and digital infrastructure by attracting private investment, rebuilding smartly, and closing the digital divide. ADB focuses on addressing inequality including by closing the gender gap, and investing in health, education, and social protection. Helping the region improve its domestic resource mobilization is key to this. Meanwhile, ADB is strengthening cooperation and integration within the region to enable better future linkages in areas ranging from trade to health.

Italy is a founding member of ADB. It has provided \$2.55 billion in capital subscription to ADB as of 31 December 2022. It has also contributed and committed \$1.29 billion to ADB's special funds since becoming a member.

## CONTRIBUTIONS TO SPECIAL FUNDS RESOURCES

Italy contributes to the Asian Development Fund (ADF) and the Technical Assistance Special Fund (TASF). The ADF provides grants to ADB's low-income developing member countries. The TASF provides technical assistance grants to developing member countries to help prepare projects and undertake technical or policy studies.

### Contributions:

**\*\*ADF (committed):** \$1.23 billion

**\*\*TASF (committed):** \$55.37 million

**Nonsovereign operations.** Some of ADB's nonsovereign operations involving entities in Italy are as follows:

Savio Macchine Tessili S.p.A. is a supplier to a textile manufacturing project in Bangladesh. GDM SpA Societa Unipersonale is a contractor in a personal hygiene products project in Viet Nam. Renco is the sponsor of a gas-fired combined-cycle power plant project in Armenia; other shareholders include Simest S.p.A., Cassa Depositi e Prestiti, and Italy's Ministry of Economy and Finance. ## FINANCING PARTNERSHIPS

Financing partnerships enable ADB's financing partner governments or their agencies, multilateral financing institutions, and private organizations to participate in financing ADB projects. The additional funds may be in the form of loans and grants, technical assistance, and nonsovereign cofinancing.

Italy's cofinancing commitments from 1 January 2018 to 31 December 2022 comprised:

### Projects

- Nonsovereign: \$27.13 million for 3 projects

A list of projects cofinanced by Italy is available at [www.adb.org/what-we-do/financing-partnerships/sovereign-financing#donor-countries](http://www.adb.org/what-we-do/financing-partnerships/sovereign-financing#donor-countries).

**Trust funds.** ADB manages trust funds established through financing agreements initially from single donors targeting specific sectors. It has been increasingly switching to thematic trust funds and financing partnership facilities that link various forms of assistance to support priority areas such as water, clean energy, regional cooperation and integration, urban sector financing, and health.

<sup>c</sup> The program limit for ADB's regional Trade Finance Program (TFP) (\$1 billion since 2009, and increased to \$1.35 billion in 2018 and \$2.15 billion in 2020) is the maximum exposure the TFP can assume at any one point in time. Although the TFP exposure exceeds the program limit annually, this limit was not breached at any one point in time because TFP transactions tend to be short—on average less than 180 days—and the program limit can revolve (be reused) within a year. In addition, the TFP distributes risk exposures to various partners that leverage its capital resources.

## ADB AT A GLANCE

ADB is committed to achieving a prosperous, inclusive, resilient, and sustainable Asia and the Pacific, while sustaining its efforts to eradicate extreme poverty. It has 68 members—of which 49 are from Asia and the Pacific and 19 outside. ADB headquarters is in Manila, Philippines and has 43 offices around the world, with 3,775 staff from 66 members as of 31 December 2022.

ADB maximizes the development impact of its assistance to its members by providing financing and tailored knowledge solutions through policy dialogue and advisory services, among others. It mobilizes financial resources through cofinancing from official, commercial, and export credit sources.

ADB met strong demand for its assistance in 2022. It unlocked greater resources for its members through the private sector and partnerships. ADB provided financing for climate change mitigation and adaptation initiatives, education quality and access, affordable health care, and more sustainable and climate-resilient food systems. In 2022, 97% of ADB operations contributed to gender equality. ADB fostered greater regional collaboration on issues such as health threats and tax cooperation. ADB also responded to demand for tailored knowledge solutions from its members.

**ADB operations.** In 2022, ADB committed \$20.5 billion in loans, grants, equity investments, guarantees, private sector programs, and technical assistance to both the public and private sectors of its borrowing members. ADB bolstered its total support with cofinancing of \$11.4 billion.

As of 31 December 2022, ADB's cumulative commitments in 45 countries stood at \$358.4 billion covering 4,189 loans, \$12.6 billion in 566 grants, and \$5.5 billion in technical assistance grants, including regional technical assistance grants.

In addition to loans, grants, and technical assistance, ADB uses guarantees, equity investments, and private sector programs to help its developing member countries.

Total commitments in nonsovereign loans, equity investments, and guarantees from ADB's own funds in 2022 amounted to \$1.1 billion for 37 transactions in economic and social infrastructure, finance sector, and agribusiness.

In 2022, ADB mobilized \$1.7 billion of long-term project cofinancing and \$5.3 billion of cofinancing through its Trade and Supply Chain Finance Program and Microfinance Program. Total outstanding balances and undisbursed commitments of nonsovereign transactions funded by ADB's own resources stood at \$12.8 billion as of 31 December 2022.
