Background

- ❑ In Indonesia, drought and flood disaster and water pollution have reached the critical level
- ❑ Water resources is the most important element of natural resources for the survival of humanity and ecosystem
- ❑ Integrated effort are required within a national frame work by all stake holders, in order to overcome the critical situation to achieve the people welfare and sustainable development

WATER FORUM

- ❑ Indonesia has conducted Indonesia Water Forum I (IWF I) in November 2000, followed by Water Forum II (IWF II) in March 2002
- ❑ IWF I had achieved a common perception in water resources management :
 - (-) Vision : efficient and sustainable water management and use for the welfare of the people
 - (-) Commitment : government policy reform in water resources development

WATER FORUM

- ❑ Establishment of Indonesia Water Partnership (IWP) and nominated nine representatives from stake holders to establish IWP Secretariat.
- ❑ Recommendation on policy and strategy for flood mitigation and management
- ❑ IWF II come to a declaration of two important statements.

STATEMENTS

- ❑ IWF is a periodic meeting amongst public, sector, private sector and the community to achieve policy on sustainable water resources development
- ❑ IWF is a net working amongst public sector, private sector and the community which agreed to support the implementation of IWRM
- ❑ IWP Secretariat is a working unit which is established by representative of water resources stake holders
- ❑ IWRM is a process which promotes the coordinated management of water resources to maximize the resulting welfare in equitable manner without compromising the sustainability of ecosystem

VISION AND MISSION

- ❑ Vision of IWP is an efficient and sustainable water management and use for the welfare of the people
- ❑ Mission : to support the government, private sector and community in implementing the Integrated Water Resources Management at national, provincial, river basin and district/ municipal level.

FRAME WORK

Frame work :

- ❑ The enabling environment
- ❑ Institutional roles and functions of administrative and stake holders level
- ❑ Management instrument or tools which are needed to replace the way water resources are managed and use

WORK MECHANISM

- ❑ Indonesia will conduct IWF periodically as a summit meeting to discuss any issues related to water resources management and committed to realize as part of programs of each stake holders
- ❑ IWP will become a focal point to communicate with international and regional water institutions such as GWP, GWP-SEATAC, IWMI, INPIM, NARBO, ICID, ICOLD
- ❑ IWP will also establish relation with water stake holders at provincial, river basin and district/municipal level by promoting the establishment of provincial and local water partnership

PARTNER ORGANIZATION

- ❑ There are more than 30 national organizations, agencies and institutions which already have the linkage and working in collaboration with IWP
- ❑ There are government agencies, private sectors, non-government organizations, universities, research institutes, professional society and associations.

WORK PROGRAM

Some IWP Work Program :

- ❑ to celebrate World Water Day for the year 2003, 2004 and 2005
- ❑ to held Indonesia Water Forum III in 2005
- ❑ to support the government conducting the water awareness public campaign
- ❑ to promote IWRM approach by motivating individuals, and organizations to work together in a more effective and collaborative way
- ❑ To contribute in the formulation of policy and strategy of water resources management
