

Solomon Islands: Solomon Islands Flood Disaster Response Project

Project Name	Solomon Islands Flood Disaster Response Project		
Project Number	48239-001		
Country / Economy	Solomon Islands		
Project Status	Closed		
Project Type / Modality of Assistance	Grant		
Source of Funding / Amount	<div>Grant 0385-SOL: Solomon Islands Flood Disaster Response Project</div> <div>Asia Pacific Disaster Response FundUS\$ 200,000.00</div>		
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth		
Drivers of Change			
Sector / Subsector	Health / Disease control of communicable disease		
Gender	No gender elements		
Description	Prolonged heavy rainfall on 3 5 April 2014 associated with a tropical depression, which later became Tropical Cyclone Ita, has caused severe flooding in Solomon Islands. The worst affected area is the capital city of Honiara, after the Mataniko River burst its banks on 3 April 2014. The damage is widespread across the entire Guadalcanal province and considerable damage has also been reported in Malaita and Isabel provinces. Major infrastructure, including the sewerage system, water supplies, roads, and bridges, has been badly damaged or destroyed.		
Project Rationale and Linkage to Country/Regional Strategy	Immediate financial assistance from ADB would help alleviate resource constraints faced by the Government. Based on the identified urgent needs, the proposed emergency funds may be used for (i) provision of medical kits, food and drinking water, (ii) provision of personal hygiene kits, (iii) debris sifting, (iv) site clearance, and (v) safe disposal of useless rubble, etc.		
Impact			
Project Outcome			
Description of Outcome			
Progress Toward Outcome		The grant has been completely disbursed by ADB and liquidated by the government. As stated in the grant agreement, an audit is required before the grant account can be closed.	
Implementation Progress
