Description	<p>The project consists of activities relating to the provision of life preserving services for communities affected by the 2011 flooding. The project will support (i) procurement of rice seeds; (ii) temporary repairs of canal embankments in particular through the procurement of fuel and empty bags; (iii) families affected by the flooding through food or cash for work schemes for emergency repairs to flood-damaged rural roads.</p> <p>To maximize impact, minimize fiduciary risks, ensure complementary with the activities of the UN family and other development partners, and support effective implementation of the emergency response activities financed by the APDRF funds, the RGC proposes that the APDRF be used to address critical needs for: (i) rice seeds to enable affected households rapidly to replant destroyed rice fields; (ii) temporary repairs of irrigation canals embankments; and (iii) support affected families through food and cash for work schemes by undertaking emergency repairs to flood-damaged rural roads in order to restore connectivity of affected communes. Royal Government of Cambodia (RGC) has indicated that the emergency road repairs could be achieved through engaging UN World Food Program (WFP). This would quickly restore access to flooded-affected areas for distribution of emergency assistance while providing jobs to the affected people, assisting in their economic recovery.</p>
