Description	The TA will carrount a stocktake and analysis of existing climate change financing in the Pacific Region, consolidate infomration on program implementation and new sources of financing for climate initiatives to support cross-country learning, and propose concrete, feasible recommendations to increase Pacific DMCs' access to climate change financing. it will consider ongoing initiatives of ADB's Regional and Sustainable Development Department (RSDD) as well as relevant Council of Regional Organizatinos of the Pacific (CROP) agencies and development partners on climate change financing studies, particularly the SPREP Climate Change Financing Study (2010) and the PIFS Study on Improving Access to and Management of Climate Change Resources (2011). The TA will have two main outputs: (i) stocktake and analysis of existing climate change financing in the Pacific Region conducted; and (ii) recommendations to improve the Pacific DMCs' access to the said climate change financing windows prepared. These two outputs will be consolidated in a technical report that will be submitted by ADB to the Working Committee of Pacific DMC Finance Ministers, for them to present to the Pacific Governors at the 46th ADB Annual Meeting in May 2013.		
Project Rationale and Linkage to Country/Regional Strategy	This small-scale regional capacity development technical assistance is a response to the request of the Pacific DMC Governors for ADB to support the Working committee of Pacific Finance Ministers, through the preparation of a technical report that will align the Pacificf DMCs; climate change financing needs with current financing schemes, including workable recommendations for improving the countries' acces to the said funding sources.
