

Project Data Sheet

Project 37597-012

Project Name	Wuhan Wastewater and Stormwater Management Project	
Project Number	37597-012	
Country / Economy	China, People's Republic of	
Project Status	Closed	
Project Type / Modality of Assistance	Technical Assistance	
Source of Funding / Amount	TA 4436-PRC: Wuhan Wastewater and Stormwater Management Project	
	Technical Assistance Special Fund	US\$ 700,000.00
Strategic Agendas	Environmentally sustainable growth Inclusive economic growth	
Drivers of Change	Knowledge solutions	
Sector / Subsector	Water and other urban infrastructure and services / Urban flood protection - Urban sewerage	
Gender		
Description	The technical assistance will prepare a project that would improve environment conditions in Wuhan, the capital city of the Hubei Province, through improved wastewater and storm water management. The ensuing project is expected to include the following components: (i) construction of storm water drainage improvement facilities covering an area of about 150 km2 and expansion of the Hanxi wastewater treatment plant (Phase II) with a treatment capacity of 400,000 m3 day and associated about 100 km of sewer network in the Hankou district (ii) construction of a new wastewater treatment plant with a treatment capacity of 50,000 m3 day and associated sewer network in the Hanyang district and (iii) capacity building of the existing wastewater company.
