### Description
Subproject B is part of the cluster regional capacity development technical assistance (TA) that supports the banking and finance sectors in developing member countries (DMCs) of the Asian Development Bank (ADB) to improve the implementation of anti-money laundering and combating the financing of terrorism (AML/CFT) regulatory measures, and strengthen the capacity of domestic banks and nonbank financial institutions (NBFIs) to comply with the requirements of the Financial Action Task Force (FATF). The DMCs that were originally covered by the TA are Bhutan, Mongolia, Papua New Guinea, and the Philippines. Post-circulation of the Technical Assistance Subproject report, the following additional DMCs have also signified their interest to be part of Subproject B: Nepal, Sri Lanka, Tajikistan, Thailand and Vietnam. In total, Subproject B will now support nine DMCs.

Subproject A has successfully supported the targeted DMCs to expand the reach of domestic AML/CFT reforms beyond the banking sector and into other targeted risk areas, particularly NBFIs and DNFBPs. Subproject B intends to deepen the impact of these reforms by helping the governments of the targeted DMCs to ensure that the improved regulatory frameworks are adequately implemented by the domestic banking sector, NBFIs and DNFBPs. This is foreseen to entail a deeper level of engagement with covered persons from within these sectors, including focused interventions to train compliance officers in the private sector, and assistance to develop or improve internal AML/CFT governance structures, policies and processes.

### Project Rationale and Linkage to Country/Regional Strategy
Considering that Subproject A managed to provide technical assistance aimed at strengthening the compliance functions within domestic banks and NBFIs, and supported FIUs and regulators to improve regulatory frameworks, Subproject B is expected to expand the impact of the TA by providing more resources to: (i) further deepen the initial assistance provided, by ensuring that the trainings, tools and guidelines delivered under Subproject A actually translate to improved compliance programs, systems and practices; (ii) broaden the reach of the assistance to a wider number of banks and NBFIs, and to DNFBPs; and (iii) strengthen national corporate registration systems and data sources, which will - in turn - improve the effectiveness of the CDD performed by domestic entities.

### Impact
Legal and institutional systems to combat money laundering and the financing of terrorism are established and implemented effectively.
