Operational Priorities	OP1: Addressing remaining poverty and reducing inequalities OP2: Accelerating progress in gender equality OP6: Strengthening governance and institutional capacity OP7: Fostering regional cooperation and integration				
Sector / Subsector	Health / Health sector development and reform				
Gender	Effective gender mainstreaming				
Description	The Asian Development Bank (ADB) plans to assist the Government of the Kyrgyz Republic with the proposed Strengthening Regional Health Security Project at an estimated cost of \$35 million of which \$20 million will be financed by the Asian Development Fund 13 Thematic Pool (Regional Cooperation and Integration set-aside) grant, \$10 million will be financed by ADB's ordinary capital resources (concessional loan), and \$5 million will be financed by government counterpart. The project aims to improve public health and regional health security in the Kyrgyz Republic by enhancing coverage of effective laboratory services and border zone hospitals.				
Project Rationale and Linkage to Country/Regional Strategy	The project is aligned with the government's national health sector development program, regional health security commitments, and laboratory development plan, and ADB's Strategy 2030 and country and regional cooperation programs. The ensuing loan, grant, and this transaction technical assistance (TA) are listed in the current country operations business plan for the Kyrgyz Republic, 2021-2023. The TA will support preparation of the project and facilitate the transition to the project implementation phase. Detailed project preparation will be supported by a team of international and national consultants engaged through a firm.
