Japan Special Fund	US\$ 300,000.00																
Strategic Agendas	Inclusive economic growth																
Drivers of Change	Governance and capacity development																
Sector / Subsector	Health - Health care finance - Health sector development and reform - Mother and child health care																
Gender Equity and Mainstreaming	Gender equity																
Description	The Project has an overall goal to help the Government achieve the Millenium Development Goals by reducing maternal and child mortality, and morbidity, by focusing especially on the rural poor, and on the vulnerable population. In order to achieve this, the Project aims to have two broad objectives: (i) to improve the equity in access to quality and cost effective services for woman and child health, and (ii) improve the efficiency of health care delivery system. The Project comprised four components: (i) strengthening decentralized woman and child health services (ii) strengthening finance, information, and management (iii) building a blood safety program, and (iv) improving project management.																
Project Rationale and Linkage to Country/Regional Strategy																	
Impact	Improved health status of women and children in Uzbekistan.																

Project Outcome

Description of Outcome	(i) Support health sector reform initiatives; (ii) Improve the efficiency of health care delivery system for Woman and Child Health (WCH).
Progress Toward Outcome	The project has a visible impact on the delivery of services for mother and children and on their health. The achievements demonstrate that the project has achieved most of its targets and even surpassed some.

Implementation Progress

Description of Project Outputs	Strengthened WCH services Strengthened finance, information and management Improved efficiency of blood service delivery
--------------------------------	--

Status of Implementation Progress (Outputs, Activities, and Issues) The project had a good progress in achievement of all project's outputs.

Summary of Environmental and Social Aspects

Environmental Aspects Project social and environmental monitoring is supervised by the Evaluation and Monitoring Specialist. Performance indicators were revised during the midterm review in 2007. Statistical data was collected and analyzed on quarterly basis. Social analyses were conducted by ExpertFikri Consulting Company at baseline, interim, and pre-final stages. The analyses also made use of the state statistics data, current data from MOH, and research data from other international organizations (UN, WHO, UNICEF, and WB).
