**Description**
The impact of the project will be to improve urban livability and competitiveness in Ho Chi Minh City through developing water supply infrastructure.

The ensuing project loan (L2754-VIE / 41456-023) has been approved in February 2011 and declared effective in May 2012 under the first tranche (PFR1) of the MFF0054-VIE (41456-013).

**Project Rationale and Linkage to Country/Regional Strategy**
The proposed Project addresses provision of a sustainable supply of potable water for Ho Chi Minh City. The Project is directly linked to the agenda of supporting infrastructure development and public/private partnerships in infrastructure, as set out in the Country Strategy and Program (2007-2010). The Project contributes to Goal 7 of the Millennium Development Goals, to “Ensure environmental sustainability”, and specifically to Target 10: “Halve by 2015 the proportion of people without sustainable access to safe drinking water and basic sanitation.”, and to the corresponding Viet Nam Development Goals.

**Impact**
Improved urban livability and economic competitiveness of HCMC due to better quality and more sustainable water supply.
