**Strategic Agendas**
- Environmentally sustainable growth
- Inclusive economic growth

**Drivers of Change**
- Governance and capacity development
- Knowledge solutions
- Private sector development

**Sector / Subsector**
- Water and other urban infrastructure and services
- Other urban services
- Urban sanitation
- Urban sewerage

**Gender Equity and Mainstreaming**
- Effective gender mainstreaming

**Description**
ADB will apply a comprehensive and programmatic approach to develop more integrated urban development solutions. The transaction TA facility will provide project preparation support to a series of ensuing projects, comprising: (i) Taskskent Province Sewerage Improvement Project ($160 million); (ii) Uzbekistan Water Supply and Sanitation Development Program ($200 million); (iii) Uzbekistan Integrated Urban Development Project ($200 million); and (iv) Uzbekistan Solid Waste Management Development Project ($150 million) (Appendix 3). The transaction TA facility will support improvement of WSS and other public services through technical, policy, and capacity development, in both urban and rural areas. Uzbekistan now has stronger country systems and capacity and using the principle-based sector program approach will give the country a greater sense of ownership. An integrated approach will be applied to the development of economic growth clusters with stronger urban rural linkages. Support in these areas, including tourism development, will cover urban planning and management, urban rural linkages and provision of public services, cultural heritage protection, information and communications technology, public-private partnership arrangements, and small and medium-sized enterprises (SME) and women business enterprise (WBE) development.

**Project Rationale and Linkage to Country/Regional Strategy**
The Asian Development Bank (ADB) has had a fruitful partnership with Uzbekistan on urban development for two decades, particularly in the water supply and sanitation (WSS) sector, a relationship which is deepening and expanding in scope, both on project finance and sector reform. Achievements have been accomplished in utility management, water quality management, and financial sustainability. Extensive experience has been gained in effective project design and implementation. ADB's assistance has been closely aligned with the government's evolving development priorities, to improve living conditions, create a sustainable environment, and strengthen economic competitiveness. To date, more than 5 million residents (more than 15% of the population) are benefitting from the assistance. Since 1997, ADB has provided loan financing of more than $700 million for eleven investment projects in the sector, and grant funding of $2.5 million for sector enhancement (Appendix 4).

**Impact**

Business Opportunities
Consulting Services
International and national consultants will be engaged to complete all TA projects. The indicative consultants' input allocation is shown in Appendix 2. These estimates will be finalized in consultation with the government. The consulting firm and individual consultants will be recruited based on the requirements of each TA project. The consulting firm will be engaged in accordance with the quality- and cost-based selection method, with a quality-cost ratio of 90:10 using full, simplified, or bio-data technical proposal. Individual consultants, will be selected using the individual consultant's selection method to provide specialized technical and administrative inputs to fulfill ADB due diligence requirements and enhance project readiness. The recruitment of all consultants will be carried out in accordance with ADB’s Procurement Policy (2017, as amended from time to time) and its associated project administration instructions and/or staff instructions. Lump-sum or output-based contracts will be considered for consulting services, consistent with ADB’s Strategy 2030, to reduce administrative burden and improve the economy, efficiency, and value for money. The consultants will procure any goods and equipment purchased under the TA and will turn them over to the executing agency at or before the completion of the TA.

Procurement
To be procured by consultants.

Responsible ADB Officer
Jung Ho Kim

Responsible ADB Department
Central and West Asia Department

Responsible ADB Division
Urban Development and Water Division, CWRD

Executing Agencies
Ministry of Housing and Communal Services of the Republic of Uzbekistan
1, Niyozbek yuli street, Yunusabad, Dist Tashkent, Republic of Uzbekistan, 100035
State Committee for Ecology and Environmental Protection (formerly State Committee for Nature Protection)
5, Mustakillik street, Tashkent Uzbekistan
