Best Green Deal

This award will recognize a trade finance transaction supported by TSCFP that specifically involves environmental sustainability components according to the criteria below:

How “TeFP” is the deal?

- **Trade impact.** Please give details of the transaction such as the value and origin of the goods. How were the goods used in your country? What difference did the shipment make to development impact, the environment, economic growth or job creation?

- **Environmental Impact.** How does this deal demonstrate environmentally sustainable investments (e.g., promotes clean energy to reduce risk for climate change; promotes conservation efforts to protect natural resources; restoration of ecosystems; encourages environmental and health impact assessments for more informed business decisions, etc.)? Cite the environmental components and impacts of the transaction.

- **Partnership.** How did TSCFP support extend or enhance your bank’s correspondent banking relationships and in what way? Was the bank able to attract a new client as a result of concluding the deal? Would this deal have happened without TSCFP support?

Who can participate?

- All TSCFP issuing and confirming banks may participate.
- Issuing and Confirming banks in the same trade finance deal are encouraged to submit a single nomination. Both banks would receive an award if their joint nomination wins.

How to participate?

- Trade transactions to be nominated should have occurred between 1 July 2020 to 30 June 2021.
- All written nominations must be submitted via email to Clarissa Laysa at mlaysa. consultant@adb.org on or before **30 July 2021**.
- Banks must describe their proposed deals in 500 (maximum 1,000) words.
- Judging of winners will be done by an independent panel in August. Winners will be notified via email. Online awarding is on 9 September, 3pm SGT.
