The Dynamics of Farmer Producer Organisations and eNAM in India

Discussant
Bidur Paria

Author
Sampriti Biswas
Objectives of the study

- Investigate and understand why smallholder farmers do not want to use eNAM, even though it has real and measurable benefits.

- Analyze the function of FPO in India to protect the interests of small farmers using eNAM by securing ownership rights and equitable distribution.
Structure & drawbacks of agricultural market (AM)

Role of different stakeholders in AM

Solution through eNAM for farmers

FPO and its ability to protect farmers' interests who use eNAM

Factor affecting farmers to adopt eNAM?

Exploitation possibilities by large farmers?

Observations from pilot survey

Possible trust factors not to adopt

Approaches to measure trust

Trust bridging the gap between eNAM and smallholder

Introduction

FPO

FPO and eNAM

Trust and eNAM

Conclusion

Context

Section

Summary of the study
Observations and suggestions....1

- Need justification for study area section (Bihar and West Bengal)
- Method of conducting pilot survey is absent
- Study rarely discusses how?
- Need critical discussion of the observations for drawing conclusion
- No conclusion for second objective
Observations and suggestions...2

- Along with SFAC, NABARD and other organisation like (NGO, trust) can promote FPO

- Need revision in the text:
  - Citation (APC format)
  - Section division
  - Need title and sources for figures
  - References are not in order
THANK YOU
