value and experience
1. Being meaningful with theoretical and practical value
2. Informative analysis packed with statistics
3. Constructive research
thinking
• Farmers’ Cooperatives in the PRC
  attribute: harmonious (cooperation) among shareholders?
  capital integrity of the organization?

• Farmers’ Cooperatives in the PRC
  function: only economical?
  economical organization with governance, cultural
  and environmental protection?

So, to what extent is Marshall conflict theory appropriate to analyze
farmers’ cooperatives in the PRC?
