

## OPERATIONS MANUAL POLICIES AND PROCEDURES

---

These policies and procedures were prepared for use by ADB staff and are not necessarily a complete treatment of the subject. This *Operations Manual* was prepared by the Procurement, Portfolio, and Financial Management Department (PPFD) and issued by the Strategy, Policy, and Partnerships Department with the approval of the President and is subject to compliance review. Questions may be directed to the director, Public Financial Management Division of PPFD.

### FINANCIAL DUE DILIGENCE IN SOVEREIGN OPERATIONS

#### A. Scope

1. Article 14(vi) of the *Agreement Establishing the Asian Development Bank* (the Charter) requires the Asian Development Bank (ADB) to pay due regard to whether the borrower and its guarantor, if any, will be able to meet their obligations under the loan contract. Article 14(xi) requires ADB to take necessary measures to ensure that the proceeds of any loan made, guaranteed, or participated in by ADB are used only for the purposes for which the loan was approved and with due attention to considerations of economy and efficiency.<sup>1</sup> Article 14(xiv) requires ADB to be guided by sound banking principles in its operations (endnote i).

2. This *Operations Manual* section applies to

- (i) all projects and programs processed, irrespective of whether they are financed by an ADB loan, a grant from the Asian Development Fund (ADF), or any combination of ADB loan, ADF grant, and loan or grant cofinanced from trust funds and other external sources administered by ADB, following the provisions of *Operations Manual* section D11 (Sovereign and Sovereign-Guaranteed Financing), unless otherwise provided in other sections of the *Operations Manual* or staff instructions on respective financing modalities;
- (ii) technical assistance operations processed following the provisions of *Operations Manual* section D12 (Technical Assistance), if the technical assistance implementation is delegated (partially or entirely) to the executing and/or implementing agencies; and
- (iii) knowledge partnerships and other partnership arrangements with development partners.

3. This *Operations Manual* section does not apply to nonsovereign operations, which are covered by *Operations Manual* section D10 (Nonsovereign Operations), or policy-based loans, which are covered by *Operations Manual* section D4 (Policy-Based Lending).

#### B. Policy

4. Preparation of ADB projects include four financial due diligence activities: (i) financial management assessments of the executing and implementing agencies;<sup>2</sup> (ii) review of cost

---

<sup>1</sup> The term “loan” includes grants for this purpose.

<sup>2</sup> The terms “executing and/or implementing agency” and “executing and implementing agencies” will include the borrower, if the context so requires, for the purposes of financial due diligence activities, such as the financial

estimates and a financing plan; (iii) a financial analysis of the executing and implementing agencies; and (iv) where applicable, a financial evaluation of the project (or project components). Sufficient analysis is required to determine whether the project is financially viable and sustainable and whether the executing and implementing agencies are financially sustainable and have acceptable financial management arrangements that, as part of the overall arrangements in place for implementing the project, provide reasonable assurance that ADB's loan proceeds are used only for the purposes for which they are approved with due attention to considerations of economy and efficiency.

5. The results of the financial due diligence and the identified risks to the financial management capacity, the project's financial viability or sustainability, and the entity's financial sustainability should be reported along with recommended mitigation measures in the project documents (e.g., the report and recommendation of the President, the project administration manual, the risk assessment and risk management plan, the technical assistance report, and other technical assistance or knowledge partnership documents). Financial covenants for monitoring the risks and the agreed mitigating measures should be incorporated in the legal agreements, as appropriate.
