GS = generally successful, HS = highly successful, LS = less than successful, S = successful, US = unsuccessful.

Note: Totals may not add up because of rounding.

^a Based on aggregate results of project completion reports (PCRs), extended annual review reports (XARRs), XARR validation reports (XVRs), and project performance evaluation reports (PPERs) using XVR or PPER ratings in all cases where both PCR/XARR and XVR/PPER ratings are available.

^b The criteria used in evaluating sovereign projects were also used in evaluating nonsovereign projects from 1992 to mid-2006.

^c The new criteria for evaluating nonsovereign projects, as harmonized with other members of the Evaluation Cooperation Group, were used starting end-2006.

^d In May 2012, the Independent Evaluation Department changed the previous rating category of "partly successful" to "less than successful" to clarify that such a category indicates "below the line" performance.
