SIFEM - SWISS INVESTMENT FUND FOR EMERGING MARKETS,

and

SWEDFUND – SWEDFUND INTERNATIONAL AB

Dated: October 12th, 2013
MEMORANDUM

MEMORANDUM dated October 12th, 2013 between each of the undersigned INTERNATIONAL FINANCIAL INSTITUTIONS (hereinafter collectively referred to as the “IFIs” and singularly as an “IFI”)

WHEREAS

(A) Historically, the IFIs have used a variety of monitoring systems to track the development results of their operations. While these systems have varied in structure and process, reflecting the diversity of mandates, stakeholders, and organizational structures existing among IFIs, their common features are that they are designed to assess the development results stemming from operations and they use specifically-defined data sets, primarily referred to as indicators, as the basis for setting targets and monitoring results during implementation.

(B) While the IFIs have used similar indicators, their definitions of such indicators have not been universal, leading to variations in the data collected from clients and accordingly imposing a reporting burden on them, particularly those holding larger scale operations who frequently receive financing from more than one IFI. Such clients have found that some reporting made to multiple IFIs is therefore duplicative and sometimes redundant. Furthermore, variations in the way indicators are defined and tracked inhibit the sharing of lessons learned among the IFIs.

(C) In light of these issues, the IFIs have recognized the need to work together towards harmonizing a set of indicators that would help ease the reporting burden on shared private sector clients, as well as facilitate learning from each other, and to this end agreed to procure an external consulting firm to assist in and speed up the harmonization initiative.

(D) The consulting firm has, with input from the IFIs, put together an initial set of indicators (the “Indicators”) which has been submitted to and approved by each of the IFIs, such Indicators being set forth in Annex A to this Memorandum.

(E) The purpose of this Memorandum is to set forth the intent of the IFIs to support the principle of harmonization and to adopt the initial set of Indicators in their private sector operations in place of any existing indicators covering the results sought by the Indicators and to incorporate them into their results reporting systems.

(F) The IFIs look forward to continuing their collaboration into refining and complementing the initial list of Indicators so far referred to in this Memorandum, to better capitalise on the benefits of harmonization.
NOW, THEREFORE, each IFI hereby acknowledges its intentions with respect to the Indicators as follows:

1. Adoption of Indicators

If an IFI tracks development results along the terms covered by the Indicators listed, it will use the definitions and units of measurement as set forth in Annex A with respect to each Indicator, and, if such IFI has a results tracking system in place that already features indicators aimed at monitoring development results along the same terms covered by the Indicators, it will replace such indicators with the Indicators.

2. No Obligation to Use Indicators and Reporting

Nothing in this Memorandum shall create any obligation for any IFI to start tracking and reporting development results along the terms covered by the Indicators if, based on its internal protocols and procedures, it does not wish to track those development results.

3. Tracking Additional Indicators

An IFI may, in addition to the Indicators, continue to employ other indicators already in use that focus on collecting data that goes beyond what is captured by the Indicators.

4. Data Collection

Each IFI intends to incorporate the Indicators within its development results system within one (1) year from the signing of this Memorandum.

5. Distribution

Each IFI may distribute this Memorandum as it deems appropriate, including by publishing it on its website in accordance with its respective rules, regulations and procedures.

6. No Commitment

Each IFI acknowledges and agrees that this Memorandum shall be regarded as an administrative arrangement between the IFIs and is therefore not legally binding, and it acknowledges that it is not the IFIs’ intention to create, and nothing herein shall be construed as creating, legal rights and obligations, any commitment or incurrence of legal liability whatsoever. Each IFI shall have the discretionary right to terminate at any time its relationship with respect to the subject matter and scope of this Memorandum with all other IFIs under this Memorandum.

7. Implementation Costs

Unless otherwise provided in a supplementary agreement in advance of implementation of related activities, each of the IFIs will incur its own expenditures arising as the result of its implementation of the Indicators that are the subject of this Memorandum.
8. Other Arrangements/Modifications to Indicators List/Additional Parties

(a) Nothing in this Memorandum will limit the right of, or prevent any of the IFIs from entering into memoranda or arrangements with other parties with respect to the subject matter and scope of this Memorandum.

(b) The IFIs intend to continue their collaboration with respect to the Indicators, to consult with each other regarding the implementation of and results obtained from application of the Indicators, and to discuss modifications of, additions to and deletions from the list of Indicators set forth in Annex A.

(c) Any international financial institution that is not a party to this Memorandum may indicate its willingness to use the Indicators in writing addressed to all the IFIs.

9. Privileges, Immunities and Exemptions

Nothing in this Memorandum will constitute or be construed as a waiver, renunciation or other modification of privileges, immunities and exemptions, if any, enjoyed by each IFI.

10. Communications

Any notice or other communication to be given or made under this Memorandum will be addressed and sent to the following contact points or at such other address as any party designates by notice to the other parties:

For ADB - Asian Development Bank
Address: Private Sector Operations Department, Asian Development Bank, 6 ADB Avenue, Metro Manila 1550, Philippines

Attention of: Philippe Leclercq
E-mail: pleclercq@adb.org

For AfDB - African Development Bank
Address: 13 rue de Ghana B.P. 323, EPI C, Tunis - Belvedere, Tunisia

Attention of: Issa Faye
E-mail: I.FAYE@AFDB.ORG

## List of Harmonized Indicators, Definitions, and Units of Measurement

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Definition</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Cross Sector</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Direct Employment – Operations and Maintenance</td>
<td>Number of full-time equivalent employees as per local definition working for the client company or project at the end of the reporting period. This includes directly hired individuals and individuals hired through third party agencies as long as those individuals provide on-site services related to the operations of the client company. Also, this includes full-time equivalent worked by seasonal, contractual and part time employees. Part-time jobs are converted to full-time equivalent jobs on a pro rata basis, based on local definition (e.g., if working week equals 40 hours, a 24 hr/week job would be equal to 0.6 FTE job). Seasonal or short-term jobs are prorated on the basis of the portion of the reporting period that was worked (e.g., a full-time position for three months would be equal to a 0.25 FTE job if the reporting period is one year). If the information is not available, the rule-of-thumb is two part-time jobs equal a full-time job. Note: employment for the purpose of the construction of the client company's hard assets is not to be included in this indicator. For such jobs, please use the indicator Direct Employment – Construction Phase.</td>
<td># FTE</td>
</tr>
<tr>
<td>Direct Employment – Construction Phase</td>
<td>Number of full-time equivalent construction workers employed for the construction of the company or project's hard assets during the reporting period. Part-time jobs for construction are converted to full-time equivalent jobs on a pro rata basis, based on local definition (e.g., if working week equals 40 hours, a 24 hr/week job would be equal to 0.6 FTE job; a full-time position for three months would be equal to a 0.25 FTE job if the reporting period is one year). If the information is not available, the rule-of-thumb is two part-time jobs equal a full-time job. Note: employment for the client company's operations and maintenance is not to be included in this indicator. For such jobs, please use the indicator Direct Employment – Operations and Maintenance.</td>
<td># FTE</td>
</tr>
<tr>
<td>Payment to Gov't</td>
<td>All transfers to the government made by client company over the reporting period. At a minimum, this includes payments to the government in the form of corporate income or profit taxes. Additional forms of transfer to be reported as appropriate include (i) sales taxes, (ii) net VAT, (iii) royalties, (iv) dividends and related taxes, (v) management and/or concession fees, (vi) license fees, (vii) tax on payment of interest, and (viii) other material payments net of any direct subsidies received.</td>
<td># currency</td>
</tr>
<tr>
<td><strong>Agribusiness</strong></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Farmers Reached</td>
<td>Number of farmers that are linked to the client company as suppliers, buyers, contractors or farming employees during the reporting period.</td>
<td>#</td>
</tr>
<tr>
<td>Total Sales</td>
<td>Unit count (as applicable) and gross value of sales over the reporting period.</td>
<td># &amp; # currency</td>
</tr>
<tr>
<td>Export Sales</td>
<td>Value of export sales of the product or service over the reporting period.</td>
<td># currency</td>

<td># &amp; # currency</td>
</tr>
</tbody>
</table>

---

1 An ongoing and separate study to determine global best practices for defining Microenterprises and SMEs is being undertaken by the Microfinance Exchange (MIX). Until a final recommendation arises from this ongoing study, the harmonization work recommends that the definition of Microenterprises and SMEs be left up to the IFI undertaking results tracking. This applies to both indicators for Microenterprise Loans and SME Loans.
