I. CONSISTENCY OF BUSINESS PLAN WITH THE PACIFIC APPROACH

1. In 2016, the Asian Development Bank (ADB) approved the Pacific Approach, 2016–2020¹ as the country partnership strategy for the 11 small Pacific island countries (PIC-11).² In line with the Pacific Approach, the country operations business plan (COBP) for 2019–2021 also takes a multicountry approach to identify common development challenges and opportunities for operational efficiencies across the PIC-11. The COBP is aligned with Strategy 2030³ and supports the three-pronged strategy of the Pacific Approach: reducing costs, managing risks, and enabling value creation. The COBP defines a program of assistance for the PIC-11 in key sectors and thematic areas for 2019–2021. The assistance results areas for the PIC-11 are in Appendix 1 and the list of linked documents is in Appendix 2.

2. ADB's infrastructure program in the Pacific focuses on investments in transport, information and communication technology, and renewable energy to reduce the costs of connectivity and energy. Improving the business environment, reforming state-owned enterprises, and creating public–private partnerships will also assist in reducing the costs of doing business and delivering services, and promote private sector development and investment in the region.

3. ADB's public sector management operations continue to support country efforts to manage financial and economic risks. The PIC-11 program expands ADB's work in climate change and disaster risk management to mobilize more concessional financing to introduce innovative solutions to strengthen disaster preparedness, reduce vulnerabilities, and build resilience. ADB's program will also build on efforts to strengthen country resilience by investing in urban planning, education, health, and social protection.

4. To enable value creation in the PIC-11, ADB will continue to support legislative and financial reforms to improve the business environment. This assistance includes structuring and financing private sector transactions and improving access to finance and public sector reforms to expand opportunities for the private sector.

5. ADB's forward program of operations in the Pacific will increasingly use the recently introduced Project Readiness Financing (PRF) for project preparation. The PRF will be beneficial for the PIC-11 that do not have strong capacity to design and prepare infrastructure projects. ADB's regional technical assistance (TA) for Building Project Implementation Capacities in the Pacific is strengthening the capacity of executing agencies to implement projects effectively by providing on-ground support for project management and procurement.⁴

II. INDICATIVE RESOURCE PARAMETERS

6. The PIC-11, which includes Group A, B, and C developing member countries,⁵ have indicative resources available for commitment for sovereign operations totaling \$359.7 million

¹ ADB. 2016. *Pacific Approach, 2016–2020*. Manila.

² Cook Islands, Kiribati, the Marshall Islands, the Federated States of Micronesia, Nauru, Palau, Samoa, Solomon Islands, Tonga, Tuvalu, and Vanuatu.

³ ADB. 2018. *Strategy 2030: Achieving a Prosperous, Inclusive, Resilient, and Sustainable Asia and the Pacific*. Manila.

⁴ ADB. 2016. *Technical Assistance for Building Project Implementation Capacities in the Pacific*. Manila (TA 9086).

⁵ (1) Group A countries are eligible for ADF grants and concessional OCR loans (COL). In 2017, the debt distress classifications of Samoa and Tonga shifted from Moderate to High, and corresponding grant shares were applied in 2018. Kiribati, Republic of Marshall Islands, Federated States of Micronesia, Nauru, and Tuvalu retain their high debt distress classification receiving 100% of their country allocations in grants. The debt distress classification of Solomon

during 2019–2021. The resources available comprise \$78.0 million in regular ordinary capital resources (OCR) and \$281.7 million in concessional resources—\$71.6 million in concessional OCR lending (COL) and \$210.1 million in Asian Development Fund (ADF) grants.

7. **Lending program.** The lending program for 2019–2021 is expected to total \$656.1 million, comprising \$31.1 million in regular OCR lending, \$154.5 million in COL, and \$470.5 million in ADF grants (Appendix 3).⁶ ADB will address the gap in resources available for assistance by securing additional regional allocations, frontloading concessional resources consistent with the concessional assistance policy, and seeking funding from other sources. The total cofinancing program for 2019–2021 is \$796.5 million.⁷ A significant proportion of this cofinancing is expected to be provided by the Green Climate Fund to support energy, water, and urban projects.

8. **Nonlending program.** The nonlending program for 2019–2021 is about \$16.5 million (Appendix 3). In addition to stand-alone TA projects, ADB will process and support TA projects through ongoing and planned regional TA facilities and cluster approaches. The nonlending program is expected to increase once governments identify their priorities for the medium to long term, particularly for project preparation. The PIC-11 lending and nonlending assistance program for 2018 is in Appendix 4.

9. **Knowledge publications and events program.** ADB will work closely with the PIC-11 to identify their needs and produce relevant knowledge products and services. ADB will also look ahead to generate, capture, and share knowledge in anticipation of emerging and future needs. The knowledge program will be coordinated with ADB's flagship regional programs in the Pacific—the Pacific Region Infrastructure Facility, the Private Sector Development Initiative, and the Pacific Economic Management TA. The list of indicative knowledge publications and events is in Appendix 5.

III. SUMMARY OF CHANGES TO LENDING AND NONLENDING PROGRAMS

10. ADB's key adjustments to the lending and nonlending programs include the following: (i) 65 firm projects and 29 TA projects are programmed for 2019–2021 (previously 49 projects and 18 TA projects were programmed for 2018–2020); (ii) 30 projects were added to the pipeline, 5 projects were dropped, and 9 projects will be committed in 2018; and (iii) 19 TA projects were added to the pipeline, 8 TA projects were subsumed under regional TA projects, dropped, or will be committed in 2018.⁸

Islands, and Vanuatu were assessed to be moderate and are to receive 50% of their country allocations in grants in accordance with the ADF grants framework. The final allocations for Group A countries will depend on available resources and the outcome of the country performance assessments, and are subjected to a 20% volume discount on the grant portion of the country allocation. The proportion of grants for the 2019–2021 resource allocations will be determined by future annual debt distress classifications in accordance with the ADF grants framework. (2) Palau, a Group B country, is eligible for COL and regular OCR lending. Palau's final allocation will also depend on available resources and the outcome of the country performance assessments. (3) Cook Islands, a Group C country, is eligible for regular OCR lending.

⁶ Excludes \$2.5 million under 2021 standby (one project). Each program, project, and TA in the pipeline is listed under the year they are expected to be signed.

⁷ Cofinancing figures in the tables below are indicative and subject to confirmation.

⁸ Regional projects and TA projects are not included in the count.

ASSISTANCE RESULTS AREAS

Key PIC-11 Development Outcomes that ADB Contributes to	ADB		
	Key Areas of Assistance	Indicative Resource Available for Commitment in 2019–2021 ^a	Changes from Last COBP
1. Transport			
Enhanced transport connectivity and efficiency; greater resilience to climate change and disaster risks	<p>Investments in ports and maritime safety Water transport sector policies and reforms</p> <p>National roads and road safety Transport sector policies and reforms</p>	<p>Amount: \$18.0 million COL, \$149.6 million ADF grant, and \$102.0 million cofinancing</p> <p>Share of COBP envelope: 26%</p>	ADB indicative resource allocation updated
2. Water and Other Urban Infrastructure and Services			
Improved access to water supply in urban areas	<p>Support for sustainable and climate resilient urban water supply and sanitation infrastructure</p> <p>Priority investment in water, sanitation, and hygiene services policies and reforms</p> <p>Capacity development of service providers and other key water sector agencies</p> <p>Building capacity for resilient urban planning</p>	<p>Amount: \$21.1 million regular OCR, \$58.6 million COL, \$89.5 million ADF grant, and \$220.1 million cofinancing</p> <p>Share of COBP envelope: 26%</p>	ADB indicative resource allocation updated
3. Public Sector Management			
<p>A more conducive environment for business and resource mobilization to support private sector-led growth</p> <p>Greater resilience to external economic and financial shocks</p> <p>More effective and efficient use of public resources for service delivery</p> <p>Enhanced capacity to manage fiscal risks arising from disasters</p>	<p>Support for reforms that remove key constraints to doing business and private investments</p> <p>Reforms to national planning and public financial management</p> <p>Support for policy reform to strengthen public institutions, and improved capacity for project management and development partner coordination; and improve management of public assets</p> <p>Support for post-disaster recovery and disaster risk financing</p>	<p>Amount: \$10.0 million regular OCR, \$5.5 million COL, \$97.0 million ADF grant, and \$93.0 million cofinancing</p> <p>Share of COBP envelope: 17%</p>	ADB indicative resource allocation updated

Key PIC-11 Development Outcomes that ADB Contributes to	ADB		
	Key Areas of Assistance	Indicative Resource Available for Commitment in 2019–2021 ^a	Changes from Last COBP
4. Energy			
Greater availability, reliability, and affordability of energy supply	<p>Construction and rehabilitation of climate-resilient infrastructure for power generation</p> <p>Improve electricity network efficiency (transmission, distribution network, and smart metering)</p> <p>Support for sector reforms and improvements to key operational and financial performance</p> <p>Support for private sector investment in the energy sector</p>	<p>Amount: \$24.4 million COL, \$84.4 million ADF grant, and \$356.4 million cofinancing</p> <p>Share of COBP envelope: 17%</p>	ADB indicative resource allocation updated
5. Health			
Improved diagnostic and health services	Priority investment in technology to support effective health coverage and preventive care	<p>Amount: \$9.0 million COL, \$12.0 million ADF grant</p> <p>Share of COBP envelope: 3%</p>	ADB indicative resource allocation updated
6. Finance			
<p>A more conducive environment for business</p> <p>Better environment for business and finance sector development</p>	Support for agribusiness to access credit	<p>Amount: \$5.0 million COL, \$18.0 million ADF grant, \$25.0 million cofinancing</p> <p>Share of COBP envelope: 4%</p>	ADB indicative resource allocation updated
7. Information and Communication Technology			
Greater availability and affordability of ICT connectivity	<p>Support for investment in submarine ICT cables</p> <p>ICT applications to support ICT-enabled services</p>	<p>Amount: \$25.0 million COL, \$6.0 million ADF grant,</p> <p>Share of COBP envelope: 5%</p>	ADB indicative resource allocation updated
8. Education			
Improved quality of education	Priority investment in infrastructure, technology, and capacity building to support effective primary, secondary, and technical and vocational education.	<p>Amount: \$9.0 million COL, \$12.0 million ADF grant</p> <p>Share of COBP envelope: 3%</p>	

Key PIC-11 Development Outcomes that ADB Contributes to	ADB		
	Key Areas of Assistance	Indicative Resource Available for Commitment in 2019–2021 ^a	Changes from Last COBP
9. Industry and Trade			
Support for sustainable tourism	Support for investments in the tourism industry and for policy reforms to strengthen the tourism industry	Amount: \$2.0 million ADF grant Share of COBP envelope: 0%	

ADB = Asian Development Bank, ADF = Asian Development Fund, COBP = country operations business plan, COL = concessional OCR lending, ICT = information and communication technology, OCR = ordinary capital resources, PIC-11 = 11 small Pacific island countries.

^a Share of COBP envelope excludes cofinancing. Numbers may not sum precisely because of rounding.

ASSISTANCE PROGRAM FOR CURRENT YEAR: TUVALU

Table A4.19: Lending Products, 2018

Project/Program Name ^a	Sector	Poverty Targeting	Strategic Agendas and Drivers of Change	Division	Year of TRTA/PDA	Cost (\$ million)						
						ADB						
						Total	Regular OCR	COL	ADF Grants	Total	Gov't	Co-finance
Outer Island Maritime Infrastructure Project (additional financing)	TRA	GI	IEG, ESG, GEM, GCD, RCI	PATE	2015	16.9			15.4 ^b	15.4	1.5	0.0
Systems Strengthening for Effective Coverage of New Vaccines in the Pacific (regional) ^c	HLT	GI	IEG, GEM, GCD, RCI, KNS, PAR	PAUS	2017	2.7			2.5 ^c	2.5	0.2	0.0
Total						19.6			17.9	17.9	1.7	0.0

0.0 = magnitude zero; ADB = Asian Development Bank; ADF = Asian Development Fund; COL = concessional OCR lending; ESG = environmentally sustainable growth; GCD = governance and capacity development; GEM = gender equity and mainstreaming; GI = general intervention; Gov't = government; HLT = health; IEG = inclusive economic growth; KNS = knowledge solutions; OCR = ordinary capital resources; PAR = partnerships; PATE = Pacific Department Transport, Energy, and Natural Resources Division; PAUS = Pacific Department Urban, Social Development, and Public Management Division; PDA = project design advance; RCI = regional cooperation and integration; TRA = transport; TRTA = transaction technical assistance.

^a Given the provisional nature of the indicative lending program, the composition of the lending instruments delivered may change.

^b Comprised of \$12.04 million performance-based allocation, \$1.24 million disaster risk reduction, and \$2.14 million from the savings and cancellations pool.

^c Financing shows Tuvalu's country share for the regional project only. Other participating countries include Samoa, Tonga, and Vanuatu. The amount includes \$1.50 million approved allocation from the regional health security pool.
