FOREWORD

The coronavirus disease (COVID-19) continues to pose an unprecedented challenge to the development aid community. The pandemic has claimed millions of lives, devastated economies, and, in many cases, reversed years of development gains. Clearly, it calls for stronger global cooperation. The health, economic, and social crises created by the pandemic have increased demand for additional foreign aid, especially for emergency aid delivered quickly and efficiently. Official development assistance has been central in both limiting the spread of the virus and mitigating its economic impact. In 2020, ADB committed a record \$31.6 billion in operations with an additional \$16.4 billion in cofinancing to provide much needed financing for the immediate pandemic response and recovery, while continuing to help economies meet their long-term development agendas.

Pooled funding—such as trust funds, global funds, and special funds—remains a vital tool in providing needed aid. It plays an essential role in coordinating and harmonizing development interventions, even during a pandemic. Pooled funding offers three critical services as it (i) mobilizes financial resources across various sources, (ii) reduces fragmentation or duplication of aid initiatives by supporting coordinated assistance delivery, and (iii) leverages donors' knowledge and resources to meet development challenges. For ADB, it remains a valuable way to efficiently and effectively mobilize and deploy external resources into our operations.

By the end of 2020, cumulative donor contributions to ADB reached \$8.8 billion. These significant contributions help sustain support for issues such as disaster risk management, clean energy, private sector development, gender and development, good governance, information technology, poverty reduction, and regional trade. Under our long-term Strategy 2030, ADB will further strengthen our partnerships for funding, collaboration, and knowledge-sharing. We will strategically work with our partners to promote innovation, deliver high quality grant and loan projects, and to develop the capacity of our developing members.

Trust funds are instrumental in advancing our knowledge agenda as they support technical assistance. In 2020, \$143 million or about 30% of ADB technical assistance were financed by trust funds, global funds, and special funds. They helped promote pilot projects, scale up successful pilot projects, replicate projects across borders, apply innovative technology solutions, build capacity, and offer policy advice and research. Trust funds contribute to our objective of becoming an innovative and valued knowledge bank—one that disseminates specialized, evidence-based knowledge to help achieve a prosperous, inclusive, resilient, and sustainable Asia and Pacific region.

Trust funds quickly became an integral part of ADB's COVID-19 emergency support. In 2020, our donors committed \$170.6 million, of which \$79 million was deployed for pandemic response projects and technical assistance by end-December. This included \$55 million for rapid-deployment grants for immediate humanitarian and health emergency expenses to 29 developing members and through regional activities.

Supporting hard-hit economies, replacing jobs lost, protecting the vulnerable and strengthening overwhelmed health systems will be even more of an operational and financial challenge. Thus, trust fund management will remain a key part of ADB operations.

The *Trust Funds Report 2020* will help you become more familiar with what ADB is doing. It represents the continuing trust and enduring partnerships we have with our donors. As we prepare to live under a new (and next) normal, ADB will continue to collaborate and cooperate with donors to offer effective solutions and products that deliver benefits and generate results to improve the lives of the people in Asia and the Pacific.

Bambang Susantono

Vice-President

Knowledge Management and Sustainable Development
Asian Development Bank

I. INTRODUCTION

ABOUT THE REPORT

This report provides information on the status of trust funds (both stand-alone and those under financing partnership facilities), global funds, and special funds on a yearly basis. It highlights indicators including contributions committed, project commitments, disbursements, and net available balance for active funds. The report also assesses how the various funds have supported ADB's response and recovery efforts to the coronavirus disease (COVID-19) pandemic, as well as the seven operational priorities (OP) of ADB's Strategy 2030.

DEFINITION OF KEY TERMS

A trust fund is a means of channeling cofinancing resources to finance various projects and activities that meet certain eligibility criteria. It may be financed by a single partner or supported by multiple partners or donors. A trust fund may also be created as a stand-alone fund or established under a financing partnership facility (FPF).

Financing partnership facilities are ADB's operational mechanisms for strategic, long-term, and multi-partner cooperation. FPFs link various forms of assistance in a coordinated manner for well-defined purposes.

A global fund is a fund for which an organization acts as its global trustee or administrator. It typically leverages a variety of public and private resources in support of international initiatives, enabling the development partner community to provide a direct and coordinated response to global priorities.

ADB acts as an implementing agency and signs a participation agreement for each global fund. Funds are transferred to ADB for project and program implementation and are used in accordance with ADB's policies and guidelines.

Special funds are funds defined in Article 19 of Agreement Establishing the Asian Development Bank. This report excludes the Asian Development Fund, the Technical Assistance Special Fund, and the ADB Institute Special Fund.

2020 ACTIVE TRUST FUNDS, GLOBAL FUNDS, AND SPECIAL FUNDS PORTFOLIO

As of the end of December 2020, ADB is administering 45 trust funds and 5 special funds, of which 15 trust funds and 1 special fund are under six financing partnership facilities (Clean Energy, Health, Regional Cooperation and Integration, Urban, Water, and ADB Ventures). In addition, ADB is also participating in 6 global funds.

Of the 45 trust funds, 1 trust fund is not yet operational; 28 trust funds have balances for new projects and activities; 3 trust funds have balances for specific usage such as Afghanistan projects, certified emission reduction, and scholarship programs; 4 trust funds are for Private Sector Operations Department (PSOD) projects; 1 trust fund is active with no balance for new projects, while 8 trust funds are inactive. Inactive trust funds are either awaiting (i) completion of projects; or (ii) partner's instruction on unutilized balances. (For data analysis, the Credit Guarantee Investment Facility has been excluded due to its distinct nature. This facility provides guarantees for local currency-denominated bonds issued by investment grade companies in Association of Southeast Asian Nations [ASEAN]+3 countries.)

2020 DONOR CONTRIBUTIONS

A total of \$701.8 million in contributions committed in 2020 came from 16 partners, bringing the total cumulative contribution commitments to \$8.8 billion.

NEW CONTRIBUTIONS AND ALLOCATIONS FOR COVID-19 PROPOSALS

In support of ADB's effort to its developing member countries (DMCs) in combating the effects of the coronavirus disease (COVID-19) pandemic, the Government of Japan provided emergency support of \$150 million through the Japan Fund for Poverty Reduction and the Asia Pacific Disaster Response Fund. In addition, \$2.3 million from the Ireland Trust Fund for Building Climate Change and Disaster Resilience in Small Island Developing States was used to support the health emergency responses of small island developing states, £4.8 million was contributed by the Government of the United Kingdom to the Regional Malaria and Other Communicable Disease Threats Trust Fund to support a regional technical assistance (TA), \$10 million was earmarked by the Government of the People's Republic of China (PRC) through the PRC Fund to support ADB DMCs address their COVID-19 challenges, and \$2 million was set aside by the Republic of Korea e-Asia and Knowledge Partnership Fund to support a regional TA which enhanced capacities of DMCs to detect, prevent, and respond to COVID-19 and other communicable diseases.

2020 PROJECT AND TA COMMITMENTS FROM TRUST FUNDS, GLOBAL FUNDS, AND SPECIAL FUNDS

Total project and TA commitments reached \$772.1 million, of which \$768 million is for 201 investment projects and TA under administration, and \$4.1 million are for 32 direct charges.

Active projects portfolio comprises 751 projects.¹ Breakdown of active projects are: 500 technical assistance projects, 179 investment grants, and 72 loans and equities. A total of 84 projects were financially closed in 2020, comprising 59 TAs, 22 investment grants, and 3 loans.

Disbursements for project and direct charges expenditures amounted to approximately \$402.3 million in 2020, while administrative expenses amounted to \$41.6 million. Administrative expenses include ADB service fees, external audit fees, staff consultants, business travel, financial expenses, and provision for credit losses, among others.

\$79.3 million or 10.3% of the total project and TA commitments was for COVID-19 response and recovery support. A total of \$61.7 million of COVID-19 support went to investment projects while the remaining \$17.6 million supported technical assistance.

A. NUMBER OF TRUST FUNDS

The total number of ADB-administered funds in 2020 is 56, which includes 45 trust funds, 6 global funds and 5 other special funds. During the year, the ADB Ventures Financing Partnership Facility was established, bringing the total number of ADB-administered financing partnership facilities to six. Three new trust funds were also established: the ADB Ventures Investment Fund 1, the ADB Ventures Investment Fund 2², and the Australian Climate Finance Partnership. Two trust funds were also closed during the year— the Technical Assistance Grant Fund (France) and the Cooperation Fund in Support for Managing Development Results.

B. CONTRIBUTION COMMITMENT FROM EXTERNAL PARTNERS

ADB's partners provided commitments amounting to \$701.8 million for the year. See Appendix 1 for details of 2020 contribution commitments.

C. DISTRIBUTION OF ASSISTANCE

Total project and TA commitments reached \$772.1 million, of which \$768 million is for 201 investment projects and TA under administration, and \$4.1 million are for 32 direct charges. This brings the cumulative project and TA commitments financed by trust funds, global funds, and other special funds to \$6.6 billion. Cancellations and repayments in 2020 were approximately \$180 million.

The following section shows the distribution of 2020 project and TA commitments by sector, departments, DMCs, and type of assistance.

¹ Count by fund source; a project with multiple fund source is counted more than once.

² Not yet operational.

Table 1: 2020 Contribution Commitment from External Partners
(\$ million)

Partner	Amount
Trust Funds	466.1
Japan	230.4
Australia	106.0
ANA Trust Fund	25.0
Canada	24.1
Republic of Korea	23.4
Finland	21.8
Clean Technology Fund	17.0
Nordic Development Fund	9.8
United Kingdom	7.2
France	1.1
Norway	0.2
Global Funds	158.6
Green Climate Fund	78.6
Climate Investment Funds	72.6
Global Agriculture and Food Security Program	4.0
Global Environment Facility	3.0
Global Partnership for Education	0.4
Special Funds	77.0
Japan	75.0
Luxembourg	2.0
Total	701.8

Notes:

1. Excludes 2020 ADB's allocation from ordinary capital resources net income to special funds.
2. Contribution received from Japan for the Leading Asia's Private Sector Infrastructure Fund (\$100.3 million) and the Canadian Climate Fund for the Private Sector in Asia II (\$22.6 million) is part of partner's commitment (Leading Asia's Private Sector Infrastructure Fund: \$1.5 billion, Canadian Climate Fund for the Private Sector in Asia II: \$149.4 million); Controller's Department formally recognized and recorded in ADB's system and financial statements once they are remitted by the financing partner to ADB.
3. Climate Investment Funds: Amount includes adjustment of \$3 million support to Technical Assistance 9948 which was reverted from Fund 7J to 5H (reference Private Sector Operations Department memo January 2021) and additional letter of commitment from the trustee.

By Developing Member Country

Regional projects (covering multiple countries) are the biggest recipient of trust fund, global fund, and special funds financing, with \$193.12 million for 75 projects.

Figure 1: Distribution of Assistance by Developing Member Country—Trust Funds, Global Funds, and Special Funds

AFG = Afghanistan, ARM = Armenia, AZE = Azerbaijan, BAN = Bangladesh, BHU = Bhutan, CAM = Cambodia, COO = Cook Islands, FIJ = Fiji Islands, FSM = Federated States of Micronesia, GEO = Georgia, IND = India, INO = Indonesia, KAZ = Kazakhstan, KGZ = Kyrgyz Republic, KIR = Kiribati, LAO = Lao People's Democratic Republic, MLD = Maldives, MON = Mongolia, NAU = Nauru, NEP = Nepal, NIU = Niue, PAK = Pakistan, PAL = Palau, PHI = Philippines, PNG = Papua New Guinea, PRC = People's Republic of China, REG = regional, RMI = Marshall Islands, SAM = Samoa, SOL = Solomon Islands, SRI = Sri Lanka, TAJ = Tajikistan, THA = Thailand, TIM = Timor-Leste, TON = Tonga, TUV = Tuvalu, UZB = Uzbekistan, VAN = Vanuatu, VIE = Viet Nam.

Sources: Cofinancing Database and Statement of the Asian Development Bank's Operations in 2020.

Trust Funds

Projects across different countries or regions (regional) received the most assistance in 2020 from trust funds with \$173.3 million for 60 projects. In terms of volume, Afghanistan (\$129.8 million) and Bangladesh (\$106.9 million) received the second and third highest financing in 2020. Mongolia (13 projects) and India (8 projects) received the second and third highest number of cofinanced projects during the year. The project "Energy Supply Improvement Investment Program—Tranche 7" in Afghanistan received the largest support in 2020 at \$118 million from the Afghanistan Infrastructure Trust Fund.

Figure 2: Distribution of Assistance by Developing Member Country—Trust Funds

AFG = Afghanistan, ARM = Armenia, AZE = Azerbaijan, BAN = Bangladesh, BHU = Bhutan, CAM = Cambodia, GEO = Georgia, IND = India, INO = Indonesia, KAZ = Kazakhstan, LAO = Lao People's Democratic Republic, MLD = Maldives, MON = Mongolia, NAU = Nauru, NEP = Nepal, PAK = Pakistan, PAL = Palau, PHI = Philippines, PRC = People's Republic of China, REG = regional, SRI = Sri Lanka, TAJ = Tajikistan, THA = Thailand, TIM = Timor-Leste, UZB = Uzbekistan, VIE = Viet Nam.
Source: Cofinancing Database.

Global Funds

Pakistan (\$49 million), Indonesia (\$35 million), and Kiribati (\$32 million) received the biggest support in terms of volume from global fund sources. In terms of number, regional projects (7), Indonesia and Kiribati (2 projects each) received the most global funds support. Pakistan received the biggest global funds cofinancing from the Green Climate Fund with \$37.20 million loan and \$11.80 million grant cofinancing for the Karachi Bus Rapid Transit Red Line Project.

Figure 3: Distribution of Assistance by Developing Member Country—Global Funds

CAM = Cambodia, IND = India, INO = Indonesia, KIR = Kiribati, PAK = Pakistan, REG = regional, THA = Thailand, VIE = Viet Nam.

Special Funds

A majority of special funds went on to finance regional projects, with \$13.15 million financing for 17 projects in 2020. In terms of volume, Bangladesh (\$3.65 million) and Indonesia (\$3.30 million) complete the top three recipients of special funds financing, while Bhutan (4 projects) and the People's Republic of China (3 projects) also received the most financing in terms of number from special funds.

Figure 4: Distribution of Assistance by Developing Member Country—Special Funds

ARM = Armenia, BAN = Bangladesh, BHU = Bhutan, COO = Cook Islands, FIJ = Fiji Islands, FSM = Federated States of Micronesia, GEO = Georgia, INO = Indonesia, KAZ = Kazakhstan, KGZ = Kyrgyz Republic, KIR = Kiribati, LAO = Lao People's Democratic Republic, MLD = Maldives, MON = Mongolia, NAU = Nauru, NEP = Nepal, NIU = Niue, PAK = Pakistan, PAL = Palau, PHI = Philippines, PNG = Papua New Guinea, PRC = People's Republic of China, REG = regional, RMI = Marshall Islands, SAM = Samoa, SOL = Solomon Islands, SRI = Sri Lanka, TAJ = Tajikistan, TIM = Timor-Leste, TON = Tonga, TUV = Tuvalu, UZB = Uzbekistan, VAN = Vanuatu, VIE = Viet Nam.

Source: Statement of the Asian Development Bank's Operations in 2020.

By Department

Projects from the Central and West Asia Department (CWRD), Pacific Department, Southeast Asia Department, South Asia Department, and Sustainable Development and Climate Change Department received the most number of financing from trust fund, global fund, and special fund sources, while PSOD received the biggest financing at \$272.41 million.

Figure 5: Distribution of Assistance by Department—Trust Funds, Global Funds, and Special Funds

CWRD = Central and West Asia Department, EARD = East Asia Department, ERCD = Economic Research and Regional Cooperation Department, OGC = Office of the General Counsel, PARD = Pacific Department, PSOD = Private Sector Operations Department, SARD = South Asia Department, SDCC = Sustainable Development and Climate Change Department, SERD = Southeast Asia Department. Sources: Cofinancing Database and Statement of the Asian Development Bank's Operations in 2020.

Trust Funds

In terms of number of projects, the Sustainable Development and Climate Change Department, Southeast Asia Department, CWRD, and South Asia Department received the most cofinancing from trust funds. Their combined total represents 65% of total number of project and TA commitments in 2020.

PSOD, CWRD, and the Southeast Asia Department are the top three recipients in terms of amount from trust funds. PSOD received 48% of total commitments for 12 projects.

Figure 6: Distribution of Assistance by Department—Trust Funds

CWRD = Central and West Asia Department, EARD = East Asia Department, ERCD = Economic Research and Regional Cooperation Department, OGC = Office of the General Counsel, PARD = Pacific Department, PSOD = Private Sector Operations Department, SARD = South Asia Department, SDCC = Sustainable Development and Climate Change Department, SERD = Southeast Asia Department. Source: Cofinancing Database.

Global Funds

CWRD received \$49.0 million or 36% of the total support for a loan and grant cofinancing for Pakistan: Karachi Bus Rapid Transit Red Line Project from the Green Climate Fund.

Figure 7: Distribution of Assistance by Department—Global Funds

CWRD = Central and West Asia Department, PARD = Pacific Department, PSOD = Private Sector Operations Department, SDCC = Sustainable Development and Climate Change Department, SERD = Southeast Asia Department.
Source: Cofinancing Database.

Special Funds

The Pacific Department (\$21.8 million for 23 projects), CWRD (\$19.7 million for 14 projects), and the South Asia Department (\$14.4 million for 11 projects) are the biggest department recipients of special funds financing in 2020.

Figure 8: Distribution of Assistance by Department—Special Funds

Source: Statement of the Asian Development Bank's Operations in 2020.

By Sector

In terms of volume, the Energy sector (\$355.6 million), Water and Other Urban Infrastructure and Services (\$128.7 million), and Health (\$69.6 million) received the most assistance. Meanwhile, the Health sector recorded the most number of projects financed by trust funds, global funds, and special funds at 44 projects, followed by Energy (37 projects) and Agriculture, Natural Resources, and Rural Development (27 projects).

Figure 9: Distribution of Assistance by Sector—Trust Funds, Global Funds, and Special Funds

Sources: Cofinancing Database and Statement of the Asian Development Bank's Operations in 2020.

Trust Funds

The Energy sector received the most assistance from trust funds in both number and volume at 31 projects amounting to \$305.3 million. This is significantly higher compared to other sectors. Water and Other Urban Infrastructure and Services received the second largest assistance at \$99.8 million for 13 projects.

Figure 10: Distribution of Assistance by Sector—Trust Funds

Source: Cofinancing Database.

Global Funds

Consistent with trust funds, Energy sector is the top sector for global funds in terms of number of commitments. In terms of amount, Transport sector received the highest committed amount at \$49.0 million or 36% of total commitments.

Figure 11: Distribution of Assistance by Sector—Global Funds

Source: Cofinancing Database.

Special Funds

The Health sector received the biggest support in both volume and number of projects, with total amount of \$56 million for 36 projects, of which 99% were financed by the Asia Pacific Disaster Response Fund. The Agriculture, Natural Resources, and Rural Development (\$7.5 million) and the Public Sector Management (\$4.3 million) sectors also received significant support from special funds. Finance (9 projects) and Agriculture, Natural Resources, and Rural Development (7) sectors recorded the second and third largest number of projects supported by Special Funds in 2020.

Figure 12: Distribution of Assistance by Sector—Special Funds

Source: Statement of the Asian Development Bank's Operations in 2020.

By Type of Assistance

Trust Funds, Global Funds, and Special Funds

Of the total 233 projects and direct charges supported in 2020, 54% are TA, 13% are direct charges, and the remaining 32% represents loans, investment grants, and equity.

Figure 13: Distribution by Type of Assistance (Count)

Product Type	No.
Loans	11
Investment Grants	63
Equity	2
Technical Assistance	126
Direct Charges	32
Total	233

Note: Count for product type may be counted twice based on modality.

Sources: Cofinancing Database and Statement of the Asian Development Bank's Operations in 2020.

A majority of commitments are for loans (\$286.3 million) and investment grants (\$285.7 million) each with a share of 37% of total project commitments, followed by TA at 19% (\$143.5 million).

Figure 14: Distribution by Type of Assistance (Amount)
(\$ million)

Product Type	Amount
Loans	286.3
Investment Grants	285.7
Equity	52.5
Technical Assistance	143.5
Direct Charges	4.1
Total	772.1

Sources: Cofinancing Database and Statement of the Asian Development Bank's Operations in 2020.

D. TOP FUND SOURCES

Investment Projects

About 81% or \$624.4 million of 2020 project and TA commitments from trust funds, global funds, and special funds financed investment projects. Of this amount, \$338.9 million are for loans and equities (13 projects). The top three sources of loan and equity financing are the Leading Asia's Private Infrastructure Fund (\$249.4 million), the Clean Technology Fund (\$39.8 million), and the Green Climate Fund (\$37.2 million).

A total of \$285.7 million of trust fund, global fund, and special funds financing supported investment grants (63 projects), of which the biggest sources are the Afghanistan Infrastructure Trust Fund (\$118.0 million), the Asia Pacific Disaster Response Fund (\$59.6 million), and the Green Climate Fund (\$40.4 million).

Figure 15: Top Fund Sources—Investment Projects

Sources: Cofinancing Database and Statement of the Asian Development Bank's Operations in 2020.

Technical Assistance

The Japan Fund for Poverty Reduction provided the highest TA support—\$36.8 million or about 30% of the total committed amount. The Republic of Korea e-Asia and Knowledge Partnership Fund (\$15 million) provided the next highest amount for TA support, while the High-Level Technology Fund (\$10.8 million) the third highest.

Figure 16: Top 10 Fund Sources—Technical Assistance

Sources: Cofinancing Database and Statement of the Asian Development Bank's Operations in 2020.

E. COVID-19 RESPONSE SUPPORT

Total project commitments supporting COVID-19 response and/or recovery activities amounted to \$79.3 million for 57 projects. This represents about 10.3% of total 2020 project and TA commitments from trust fund, global fund, and special fund sources. \$56.2 million or 71% of COVID-19 financing came from special funds—\$55.5 million from the Asia Pacific Disaster Response Fund and \$0.75 million from the Regional Cooperation and Integration Fund.

F. NET AVAILABLE BALANCE

Total net available balance as of 31 December 2020 is \$687.3 million, of which \$476.8 million is available for allocation to new projects and activities in 2020. Details of net available balance by fund status and usage are shown in Table 2.

Table 2: Net Available Balance by Fund Status and Usage
(\$ million)

Funds with Balance for New Projects and Activities	Amount
For all departments' projects and activities	476.8
For Afghanistan projects	195.0
For scholarship program	3.1
For certified emission reduction	12.4
Total	687.3

Note: The funds available under the Afghanistan Infrastructure Trust Fund for Afghanistan are already marked for two projects:

- (i) \$143.80 million from the Afghanistan National Army Trust Fund (\$45.00 million), the United States Agency for International Development (\$18.00 million), and German development cooperation through Kreditanstalt für Wiederaufbau (\$80.77 million) for the Energy Sector Stand Alone Project which is firm for 2021; and
- (ii) \$46.00 million from the Government of Japan for Transport Network Improvement Project (Kabul–Jalalabad Road) which is firm for 2022.

Sources: Trust fund, global fund, and special fund Fund Manager teams.

A total of \$440.1 million or 64% of the total net available balance represents five funds with the largest balances.

Table 3: Funds with Largest Available Balance
(\$ million)

Fund Name	Amount
Afghanistan Infrastructure Trust Fund	195.0
Japan Fund for Poverty Reduction	131.6
Asia Pacific Disaster Response Fund	41.3
Japan Fund for the Joint Crediting Mechanism	38.6
Republic of Korea e-Asia and Knowledge Partnership Fund	33.6
Total	440.1

Sources: Trust fund, global fund, and special fund Fund Manager teams.

See Appendix 2 for net available balance by fund.

Inactive Funds

Nine funds are inactive and are awaiting (i) financial completion of supported projects and compliance with partner's reporting requirements, and/or (ii) receipt of instructions from partner on treatment of unutilized balances. These funds are in the process of winding down and will be closed in the near term.

Funds Replenishment

Funds are replenished based on discussion with partners while special funds are also replenished by ADB from allocation of the net income of ADB's ordinary capital resources. Nine funds have been regularly replenished by partners for the past 3 years (Table 5).

G. SUPPORT TO STRATEGY 2030 OPERATIONAL PRIORITIES

To achieve Strategy 2030's vision, ADB will focus on seven operational priority (OP) areas. Each OP will have its own operational plan, which will contribute to ADB's vision to achieve prosperity, inclusion, resilience, and sustainability.

To engender cohesion and strategic alignment in corporate performance management, results framework indicators were proposed to be consistent with corporate documents that make up the subsequent tiers of ADB's results framework architecture, such as the 2030 operational priority plans.

Out of 201 investment projects and TA supported by trust funds, global funds, and special funds in 2020, 167 committed projects have classification to the operational priorities. Project teams identified the proper OP classification on the basis of a tagging methodology issued by the Strategy, Policy, and Partnerships Department. Classification commenced beginning in April 2019 ADB-approved projects, except for (i) supplementary approvals for additional financing, and (ii) Private Sector Operations Department (PSOD) loans and equities. (See Appendix 3 for the list of committed projects supporting OPs.)

Of the seven OPs, OP1: Addressing remaining poverty and reducing inequalities (83%), OP6: Strengthening governance and institutional capacity (77%), and OP2: Accelerating progress in gender equality (70%) were the most supported operational priorities by projects committed in 2020.

Seven Operational Priorities of ADB Strategy 2030

Figure 19 shows the classification of total 2020 trust fund, global fund, and special fund-supported projects according to operational priorities. Table 7 provides the summary of support by fund to the seven operational priorities.

Total		8,831.8	6,641.6	6,570.2	4,773.1

ADB = Asian Development Bank, ASEAN = Association of Southeast Asian Nations, ACCSF = Asian Currency Crisis Support Facility. Figures may not add up due to rounding.

^a Special Fund.

^b Project approvals, commitments, and disbursements of trust funds for nonsovereign operations are commercially sensitive information and cannot be disclosed to the public.

^c Out of the \$63.3 million approved technical assistance and direct charges, \$50.6 million have been allocated by the Steering Committee.

^d Cumulative contribution committed refers to total amount pledged of \$1.5 billion. These contributions are formally recognized and recorded in ADB's system and financial statements once they are remitted by the financing partner to ADB.

^e Disbursement figure includes advances not yet liquidated.

Notes:

1. Excludes Credit Guarantee Investment Facility.

2. Cumulative contribution committed includes revaluation and devaluation of contributions not yet remitted to ADB; excludes investment income and foreign exchange gain (loss), hence, cumulative project and direct charges approval amount can be higher compared to cumulative contribution committed. For Green Climate Fund (GCF), ADB approval is requisite to GCF commitment.

3. Approved amount refers to the financing approved by ADB's Board of Directors or Management which may be in US dollars, special drawing rights or other currencies as applicable. Committed amount refers to financing for which a legal agreement has been signed by the borrower, recipient, or investee company and ADB. A commitment is recorded in ADB's accounts as of the date of the signing of the legal agreement.

4. Cumulative disbursements include project and direct charge expenditures and administrative expenses.

5. Cumulative Approved Projects and Direct Charges and Cumulative Committed Projects and Direct Charges are less of savings from financially completed projects and direct charges and cancellations.

6. The number on the first column is used as reference number for the Individual Fund Profiles in Appendix 5.

Sources: Cofinance Management System and December 2020 Status of Grants and Statement of Expenditures.

Individual Fund Profile

NOTES:

1. There are no fund profiles for the following:

A. *Inactive funds waiting for completion of active projects.*

1. Australian Technical Assistance Grant
2. Canadian Cooperation Fund on Climate Change
3. Danish Cooperation Fund for Renewable Energy and Energy Efficiency in Rural Areas
4. Financial Sector Development Partnership Fund
5. Gender and Development Cooperation Fund
6. Governance Cooperation Fund
7. Japan Fund for Public Policy Training
8. Second Danish Cooperation Fund for Renewable Energy and Energy Efficiency in Rural Areas

B. *Japan Special Fund*

2. Fund profile of Financial Sector Development Partnership Special Fund is included in the special fund.
3. The content of the individual fund profiles are based on Fund Manager teams' inputs.
4. Cumulative contribution committed are consistent with the 2020 ADB Annual Report figures and includes revaluation and devaluation of contributions not yet remitted to ADB. It excludes investment income and foreign exchange gain (loss), hence, cumulative project and direct charges approved amount can be higher compared to cumulative contribution committed.
5. Net Available Balance figures are based on Fund Manager teams' inputs and are consistent with the 2020 ADB Annual Report. Revisions and updated after cut-off were not considered.

1

ASIAN CLEAN ENERGY FUND under the CLEAN ENERGY FINANCING PARTNERSHIP FACILITY (CEFPF-ACEF)

Donor: Japan

Year Established	2008
Financing Products	Grant Component of Investment (GCI), Technical Assistance (TA)
Objective	Support the efforts of developing member countries (DMCs) toward reducing greenhouse gases through utilization of renewable energy and energy efficiency technologies.
Eligible Sectors	Energy, Transport, Urban, and Agriculture
Facility Manager Alternate Facility Manager	Robert Guild, Chief Sector Officer, SDSC Kee-Yung Nam, Principal Energy Economist, SDSC-ENE

Financial Position as of 31 December 2020 (Amount in \$ million)

Cumulative Donor Commitment	Net Balance Available for Trust Fund Committee Allocation		Number of Projects Funded (Approvals)	Number of Projects Funded (Commitments)
	Amount	% of Commitment		
55.70	0.50	1%	43	42

Featured Project

TA 6680-REG: Preparing the Floating Solar Plus Program under the Pacific Renewable Energy Investment Facility	
Committed Amount	\$2,000,000
Commitment Date	15 December 2020
Expected Completion Date	31 December 2024
Expected Outcome and/or Purpose	The transaction technical assistance facility aims to improve energy security in the Pacific. It will assess the potential for, and develop a road map of, financing floating photovoltaic projects in the 11 smallest Pacific island member countries.
Expected Results	The TA will conduct feasibility studies and due diligence to prepare floating solar PV projects in Kiribati, Tonga, and Tuvalu for approval within 2022–2023, as well as prefeasibility studies for the next three floating solar PV projects under the road map for potential ADB and private sector financing. With the implementation of these projects, Pacific island countries may rely less on imported fossil fuels for their energy needs and have sustainable, resilient, and low-carbon development in the region.

2020 Committed Projects

ADB Approved Number	Project Name
Grant 0753-INO	Sustainable Energy Access in Eastern Indonesia—Electricity Grid Development Program (Phase 2)
TA 9941-MON	Supporting Renewable Energy Development
TA 6680-REG	Preparing the Floating Solar Plus Program under the Pacific Renewable Energy Investment Facility

INO = Indonesia, MON = Mongolia, PV = photovoltaic, REG = regional, SDSC = Office of the Cluster Head of the Sustainable Development and Climate Change Department, SDSC-ENE = Energy Sector Group of the Sustainable Development and Climate Change Department.

2

CANADIAN CLIMATE FUND FOR THE PRIVATE SECTOR IN ASIA under the CLEAN ENERGY FINANCING PARTNERSHIP FACILITY (CFPS)

Donor: Canada

Year Established	2013
Financing Products	Loan, Technical Assistance (TA)
Objective	Catalyze private sector investment in climate change mitigation and adaptation.
Eligible Sectors	Energy, Transport, Urban, and Agriculture
Facility Manager Alternate Facility Manager	Robert Guild, Chief Sector Officer, SDSC Kee-Yung Nam, Principal Energy Economist, SDSC-ENE

Financial Position as of 31 December 2020 (Amount in \$ million)

Cumulative Donor Commitment	Net Balance Available for Trust Fund Committee Allocation		Number of Projects Funded (Approvals)	Number of Projects Funded (Commitments)
Amount	Amount	% of Commitment		
80.08	2.7	3%	20	20

Featured Project

TA 9949-AFG: Herat Power Project	
Committed Amount	\$225,000
Commitment Date	12 February 2020
Expected Completion Date	31 December 2021
Expected Outcome and/or Purpose	To spur economic growth in Afghanistan, the government with assistance from international donors, is focusing on expanding the availability of energy resources throughout the country. The TA will support the project development of the Herat Wind Power Project which will be the country's first grid-connected wind power project.
Expected Results	The ensuing project will (i) install about 25 MW new renewable energy capacity; (ii) generate about 111,143 MWh per year of electricity; (iii) reduce yearly emission by 33,343 tons of CO ₂ ; and (iv) create employment, including those for women, during the operation of the project.

2020 Committed Projects

ADB Approved Number	Project Name
TA 9949-AFG	Herat Wind

AFG = Afghanistan, CO₂ = carbon dioxide, MW = megawatt, MWh = megawatt hour, SDSC = Office of the Cluster Head of the Sustainable Development and Climate Change Department, SDSC-ENE = Energy Sector Group of the Sustainable Development and Climate Change Department.

3

CARBON CAPTURE AND STORAGE FUND under the CLEAN ENERGY FINANCING PARTNERSHIP FACILITY (CEFPF-CCSF)

Donor: Global Carbon Capture and Storage Institute, the United Kingdom

Year Established	2009
Financing Products	Grant Component of Investment, Technical Assistance (TA), Direct Charge
Objective	Accelerate deployment of carbon capture and storage demonstration by promoting projects, engaging in capacity development, supporting geological investigations and environmental studies related to potential carbon dioxide storage sites, and undertaking community awareness and support programs.
Eligible Sectors	Energy and Transport
Facility Manager Alternate Facility Manager	Robert Guild, Chief Sector Officer, SDSC Kee-Yung Nam, Principal Energy Economist, SDSC-ENE

TA 9686-REG: Integrated High Impact Innovation in Sustainable Energy Technology— Prefeasibility Analysis for Carbon Capture, Utilization, and Storage (Subproject 2)	
Committed Amount	\$2,000,000
Commitment Date	13 December 2018
Expected Completion Date	30 September 2023
Expected Outcome and/or Purpose	The TA subproject 2 aims to increase the use of sustainable carbon capture, utilization and storage technologies in participating developing member countries.
Expected Results	TA subproject will focus on carbon utilization opportunities rather than storage-only approaches. The TA subproject will conduct feasibility analysis to determine the needs for additional support and potential demonstration and deployment. Input in feasibility studies will be sought from both the international, regional, and country experts and stakeholder communities. Studies will focus on costs, environmental and public health benefits, carbon footprint, sustainability and deployment considerations, technology development, and scalability for future investment.

REG = regional, SDSC = Office of the Cluster Head of the Sustainable Development and Climate Change Department, SDSC-ENE = Energy Sector Group of the Sustainable Development and Climate Change Department.

TA 6637-UZB: Promoting Distributed Solar Photovoltaic Systems for Enhanced Access to Energy	
Committed Amount	\$1,000,000
Commitment Date	29 December 2020
Expected Completion Date	30 September 2022
Expected Outcome and/or Purpose	Uzbekistan's vast renewable energy resources are largely underdeveloped. The knowledge and support TA will promote the development of distributed solar photovoltaic (PV) systems in the country. Expansion of distributed solar PV systems will enhance energy access and fulfill the government's commitment to mitigate climate change impacts.
Expected Results	The TA will <ul style="list-style-type: none"> (i) support the development of the government's sector strategy for distributed solar systems to improve the quality of electricity supply in remote regions and to scale-up distributed solar systems through private investments; (ii) install at least 20-kilowatt distributed solar PV system to demonstrate the technical feasibility and socioeconomic benefits; and (iii) strengthen institutional capacity through hands on training in planning, designing, implementing, and operating the distributed solar PV systems.

6

REGIONAL COOPERATION AND INTEGRATION FUND

under the REGIONAL COOPERATION AND INTEGRATION FINANCING PARTNERSHIP FACILITY (RCIFPF-RCIF)

Donors: ADB, Japan

Year Established	2007
Financing Products	Technical Assistance (TA)
Objective	<p>The Regional Cooperation and Integration Fund (RCIF) is a special fund under the Regional Cooperation and Integration Financing Partnership Facility (RCIFPF) which aims to promote regional cooperation and integration (RCI) in Asia and the Pacific by financing TA projects that support greater and higher quality connectivity between economies, expand global and regional trade and investment opportunities, and increase and diversify regional public goods.</p> <p>The RCIF will prioritize TA projects that support one or more of the following innovations in RCI operations: (i) promoting sector and subsector diversification, (ii) expanding intersubregional cooperation, (iii) supporting development of new cross-border markets and geographic areas lagging in RCI, and (iv) increasing private sector participation in RCI. To encourage activities that are primarily regional in nature, priority is given to multi-country TA projects or projects supporting developing member countries (DMCs) as a group. Other factors for prioritization include (i) generation of RCI pipeline opportunities; (ii) application of multisector and/or cross-thematic approaches; (iii) enhancement of DMCs' resilience to pandemics such as the coronavirus disease; and (iv) support to vulnerable groups and segments of the economy in DMCs (such as small and medium-sized enterprises and women).</p>
Eligible Sectors	All sectors are eligible for support from the RCIF
Facility Manager	Ronald Antonio Q. Butiong, Chief of Regional Cooperation and Integration Thematic Group, SDTC-RCI
Alternate Facility Manager	Yuebin Zhang, Principal Regional Cooperation Specialist, SDTC-RCI

TA 9487-REG: Almaty–Bishkek Economic Corridor Support	
Committed Amount	\$2.50 million, of which \$0.75 million is financed by RCIF
Commitment Date	15 December 2017
Expected Completion Date	31 December 2021

TA 9487-REG: Almaty–Bishkek Economic Corridor Support

Expected Outcome and/or Purpose	The regional knowledge and support technical assistance (TA) supports the implementation of a pilot cross-border economic corridor around Almaty and Bishkek under the Central Asia Regional Economic Cooperation (CAREC) program. The Almaty–Bishkek Economic Corridor (ABEC, the corridor) follows a multisector approach to create one economic space without barriers. ABEC will allow businesses to specialize more, operate at a larger scale and achieve greater diversification and competitiveness with the purpose of exporting goods and services outside the region.
Expected Results	The regional TA will identify investment projects for ADB, the governments, the private sector, and other development partners through the platform of the corridor. The TA will also actively promote private sector investments in the corridor, support the further institutionalization of ABEC, and assist the ABEC subcommittee in identifying, prioritizing, and sequencing ABEC projects and reform initiatives.

7

INVESTMENT CLIMATE FACILITATION FUND under the REGIONAL COOPERATION AND INTEGRATION FINANCING FACILITY (RCIFPF-ICFF)

Donor: Japan

Year Established	2008
Financing Products	Technical Assistance (TA)
Objective	The objective of ICFF is to promote investments in ADB's developing member countries (DMCs) and facilitate regional cooperation and integration (RCI) through the construction of basic infrastructure, improvements in the investment climate, capacity building, and promotion of good governance, among others.
Eligible Sectors	Funding priority will be given to projects that promote financial sector development and regional investment. Examples are projects that aim to improve financial regulatory and supervisory frameworks, mitigate risks in financial markets, harmonize regional investment policies, and streamline procedures for investment applications and approvals.
Facility Manager	Ronald Antonio Q. Butiong, Chief of Regional Cooperation and Integration Thematic Group, SDTC-RCI

Featured Project

TA 9404-REG: Supporting the Development of Asian Bond Markets through AsianBondsOnline	
Committed Amount	\$1.5 million financed by ICFF
Commitment Date	17 October 2017
Completion Date	31 December 2020
Outcome and/or Purpose	The knowledge and support TA will strengthen, broaden, and sustain growth of Asian bond markets by disseminating information on the region's bond markets, creating knowledge products, and engaging in capacity building activities. The activities are expected to contribute to more informed and better functioning bond markets that lead to increased regional monetary and financial cooperation and integration in the Association of Southeast Asian Nations (ASEAN)+3. All activities will be undertaken in support of the Asian Bond Markets Initiative (ABMI), including its medium-term road map that was approved in May 2016. The TA is relevant to Strategy 2030, which indicates ADB's support for private sector development, including mobilizing private resources for development highlighting the importance of strengthening Asian bond markets.

TA 9404-REG: Supporting the Development of Asian Bond Markets through AsianBondsOnline

Results

The AsianBondsOnline (ABO) website revamp was completed, and the new ABO website was launched online on 3 July 2018. Nine issues of Asia Bond Monitor had been published and disseminated, five of which were launched in Kuala Lumpur, Malaysia; Seoul, the Republic of Korea; Singapore; Ha Noi, Viet Nam; and Phnom Penh, Cambodia. Bond market studies were completed and disseminated on the factors driving foreign and domestic investments in bond markets, the role of greenness in green bond pricing, the impact of the Asian Bond Markets Initiative on bond market development in Asia, importance of developing the housing bond market, and the effect of bond market development on banks' risk taking.

Two capacity building workshops were held, in 2018 and 2019. For 2018, the workshop was held in Vientiane, Lao People's Democratic Republic on 9–10 August and participated by more than 70 officials from public and private sectors. For 2019, the workshop was organized in Ho Chi Minh City, Viet Nam on 27 September and participated by over 100 participants both from the public and private sectors. Regional bond market development experiences, thematic issues in bond market developments, economic outlook, and regional bond market development were discussed.

UNITED KINGDOM FUND FOR ASIA REGIONAL TRADE AND CONNECTIVITY under the REGIONAL COOPERATION AND INTEGRATION FINANCING PARTNERSHIP FACILITY (RCIFPF-ARTCF)

Donors: The United Kingdom and Northern Ireland (acting through DFID)

Year Established	2018
Financing Products	Technical Assistance (TA)
Objective	The ARTCF aims to support the implementation of ADB's Operational Plan for Regional Cooperation and Integration, 2016–2020 (RCI-OP) by financing regional cooperation and integration (RCI) activities in selected developing member countries (DMCs) in Asia covering Central, South, and Southeast Asia, leading to improved integration with other regions of the world.
Eligible Sectors	The ARTCF will support RCI activities in the following sectors and/or areas: (i) regional electricity connectivity and trade, (ii) transport connectivity, (iii) digital connectivity, (iv) regulatory reform and broad regional trade and investment facilitation, (v) regional and/or cross-border value chains, and (vi) broader strategic issues related to connectivity investments.
Facility Manager	Ronald Antonio Q. Butiong, Chief of Regional Cooperation and Integration Thematic Group, SDTC-RCI

TA 9641-REG: Railway Sector Development in Central Asia Regional Economic Cooperation Countries	
Committed Amount	\$2 million of which \$1 million is financed by ARTCF
Commitment Date	14 November 2018
Expected Completion Date	31 December 2022
Expected Outcome and/or Purpose	The knowledge and support TA will accelerate the sound development of the railway subsector in Central Asia Regional Economic Cooperation (CAREC) countries through (i) railway transport market research, (ii) project identification and preparation, (iii) knowledge sharing, and (iv) capacity development. The TA supports regional and interregional trade and cooperation and promotes ADB as a prime development partner in the railway subsector in Central and West Asia, aiming for strong, long-term engagement with CAREC member countries.

¹ Figure includes revaluation and devaluation of contributions not yet remitted to ADB at reporting period.

TA 9641-REG: Railway Sector Development in Central Asia Regional Economic Cooperation Countries

Expected Results

The TA is expected to (i) develop a regional transport model that will indicate main traffic flows by origin and destination and type of cargo; (ii) facilitate swift mobilization of expertise to screen project options, perform prefeasibility studies or validate existing pre-feasibility or feasibility studies, and support the prioritization and initial conceptualization of investments; (iii) develop knowledge products and conduct events in common areas of interest in sector reform and commercialization; and (iv) facilitate activities to strengthen the capacity of railway agencies in key areas required for the development of bankable projects.

In 2020, the TA has resulted in (i) development of a CAREC Transportation Model, (ii) publication on track capacity and timetabling software (in response to a request of the CAREC Railway Working Group), and (iii) preparation of 11 country rail sector assessment reports.

TA 6568: Implementation Support for the Priority River Basins Flood Risk Management Project

Expected Outcome and/or Purpose	The project will improve the resilience of communities to flooding in six river basins in the Terai region by constructing flood embankments, spurs, and outlet structures, including planning and implementation of bioengineering of river embankments for enhanced flood risk management, using suitable vegetative methods to prevent soil erosion. It will support the development of maintenance manuals and asset management system for flood protection infrastructure. The local response to flooding will be strengthened through the installation of flood forecasting and early warning systems (FFEWS) and community-based disaster risk management.
Expected Results	Improved resilience of communities to flood risks in the six river basins in the Terai region with (i) 2,300 hectares of agricultural land and 2,850 households protected from 1-in-50-year flooding, and (ii) daily river flow information displayed on the Department of Hydrology and Meteorology river watch system, and flood risk bulletin based on FFEWS forecasts disseminated to communities and relevant agencies in line with Nepal's standard operating procedures.

14

MULTI-DONOR TRUST FUND under the WATER FINANCING PARTNERSHIP FACILITY (WFPF-MPTF)

Donors: Australia, Austria, Norway,⁴ Spain, and Switzerland⁵

Year Established	2006
Financing Products	Technical Assistance (TA), Grant, Direct Charge
Objective	<p>The WFPF is supporting the implementation of ADB's water financing program 2006–2020 and Water Operational Plan 2011–2020 aimed at doubling ADB's annual water investment to well over \$2 billion or at least \$30 billion from 2006 to 2020. Moving forward after 2020, WFPF will support the implementation of ADB's water operations under Strategy 2030 guided by the Water Sector Framework 2021–2030: Water-Secure and Resilient Asia-Pacific currently under preparation which will cover the following focal areas: (i) water as a sustainable resource, (ii) universal and safe water services, (iii) productive water in agriculture and energy, and (iv) reduced water-related disaster risks.</p> <p>The fund prioritizes activities designed to result in significantly more people with access to safe drinking water and improved sanitation, higher productivity and efficiency of irrigation and drainage services, more people with reduced risk of flooding; sustainable management of water resources; increased knowledge and capacity; and improved sector governance.</p>
Eligible Sectors	Water and Other Urban Infrastructure and Services; Agriculture, Natural Resources, and Rural Development
Facility Manager Alternate Facility Manager	Robert Guild, Chief Sector Officer, SDSC Christian Walder (Acting), Water Supply and Sanitation Specialist, SDSC-WAT

Financial Position as of 31 December 2020 (Amount in \$ million)

TRTA 9200: Preparing South Tarawa Water Supply Project

Expected Outcome and/or Purpose	The project will combat factors that result in the high incidence of waterborne disease in Kiribati's capital, South Tarawa, through the delivery and effective management of new and rehabilitated climate-resilient water supply assets and of improved hygiene practices. Climate-resilient and low-carbon water supply infrastructure Capacity of Ministry of Infrastructure and Sustainable Energy and Public Utilities Board to effectively manage water supply infrastructure increased. This will be delivered through 5-year operation and maintenance contracts for the desalination plant and water supply network. Awareness of water, sanitation, and hygiene (WASH) and climate change issues is raised. This will be achieved through the implementation of a 5-year WASH and climate change awareness program.
Expected Results	Increased access of 95% of South Tarawa's population (51.5% women) to safe, climate-resilient water supplies by 2027.

15 SANITATION FINANCING PARTNERSHIP TRUST FUND under the WATER FINANCING PARTNERSHIP FACILITY (WFPF-SFPTF)

Donor: Bill & Melinda Gates Foundation

Year Established	2013
Financing Products	Technical Assistance (TA), Grant, Direct Charge
Objective	<p>The WFPF is supporting the implementation of ADB's water financing program 2006–2020 and Water Operational Plan 2011–2020 aimed at doubling ADB's annual water investment to well over \$2 billion or at least \$30 billion from 2006 to 2020. Moving forward after 2020, WFPF will support the implementation of ADB's water operations under Strategy 2030 guided by the Water Sector Framework 2021–2030: Water-Secure and Resilient Asia and the Pacific currently under preparation which will cover the following focal areas: (i) water as a sustainable resource, (ii) universal and safe water services, (iii) productive water in agriculture and energy, and (iv) reduced water-related disaster risks.</p> <p>The fund initially focused on innovative sanitation solutions to increase support for fecal sludge management through non-networked (non-sewered) sanitation and septage management. The focus has now shifted to a more holistic approach through the citywide inclusive sanitation framework to increase access to appropriate sanitation systems, whether sewerred or non-sewerred, centralized or decentralized, including the required support to increase knowledge and capacity and improve governance.</p>
Eligible Sectors	Water and Other Urban Infrastructure and Services

17 AFGHANISTAN INFRASTRUCTURE TRUST FUND (AITF)

Donors: Afghan National Army (ANA) Trust Fund, Canada, Germany, Japan, the United Kingdom, and the United States

Year Established	2010
Financing Products	Grant, Technical Assistance (TA)
Objective	To pool and deliver financing for infrastructure development in Afghanistan and to leverage resources through cofinancing with private sector and other development partners. The fund will provide grant cofinancing alongside ADB-funded infrastructure projects, with resources supplementing those provided by ADB through its own operational budget. ADB will provide operational and project management expertise to enable the Afghanistan government to implement the country's key infrastructure development plans. The Afghanistan Ministry of Finance and ADB will work together to ensure that the fund is efficiently utilized to support the highest priority infrastructure projects and leverage additional financing from the private sector and other partners.
Eligible Sectors	Agriculture and Natural Resources, Energy, Transport, Water, and Urban
Fund Manager Alternate Fund Manager	Narendra Singru, Country Director, AFRM Artur Andrysiak, Deputy Country Director, AFRM

773.2	195.0 ⁹	26%	19	19

Featured Project

Grant 0556-AFG: Energy Supply Investment Program—Tranche 4	
Committed Amount	\$60 million
Commitment Date	17 October 2017
Expected Completion Date	30 June 2023
Expected Outcome and/or Purpose	The project will finance the northeast power grid extension through construction of a 220-kilovolt (kV) transmission line from Kabul to Jalalabad province, and construction of a 220/110 kV substation in Jalalabad. It will extend the national grid into the eastern provinces with a population of nearly 2 million people.

⁹ The funds available under the AITF are already marked for two projects: (i) \$143.80 million from the Afghanistan National Army Trust Fund (\$45.00 million), the United States Agency for International Development (\$18.00 million), and German development cooperation through KfW (\$80.77 million) for the Energy Sector Stand Alone Project which is firm for 2021; and (ii) \$46.00 million from the Government of Japan for Transport Network Improvement Project (Kabul–Jalalabad Road) which is firm for 2022.

Grant 0556-AFG: Energy Supply Investment Program—Tranche 4

Expected Results

The project will allow (i) transmission of domestic power generation and extension of the power interconnection to the country's eastern load centers, (ii) interconnection of isolated networks into a unified grid, and (iii) greater power system stability. The project will also provide sustainable power to two industrial parks in the east and enable grid stability by interconnecting transmission lines in the adjoining provinces. The transmission line will have the capacity to transmit 300 megawatts of power and energize an additional 300,000 new connections to residential, commercial, and industrial consumers.

Featured Project

TA 9948-REG: ADB Ventures	
Committed Amount	\$1,400,000
Commitment Date	29 September 2020
Expected Completion Date	31 December 2022
Expected Outcome and/or Purpose	To support early-stage companies with technology-enabled solutions to test new products, business models, and to scale their impact, contributing to the Sustainable Development Goals (SDGs) in ADB's developing member countries (DMCs), including SDG 13. Supported start-ups utilize technology to develop climate-related financial risk management solutions.
Expected Results	To enable the growth of early-stage companies providing climate-focused financial risk management related technology solutions: (i) supporting the mobilization of additional investments; and (ii) expanding the number of individuals benefiting from the solutions provided.

¹⁰ Includes three Direct Charges.

19 ASIA PACIFIC PROJECT PREPARATION FACILITY (AP3F)

Donors: Australia, Canada, and Japan

Year Established	2014
Financing Products	Grant, Technical Assistance, Direct Charge
Objective	The fund is to provide financial assistance to developing member countries' governments and their public sector agencies to support the financial, legal, and technical advisory services required to prepare and structure transactions. The fund also offers support for enabling reforms and capacity building that can be linked to potential or current transactions.
Eligible Sectors	All sectors

AP3F053/PP020: UZB: Second Phase - Sherabad Solar Independent Power Producer (IPP) in the Surkhandarya Region	
Committed Amount	\$725,325
Commitment Date	1 October 2020
Expected Completion Date	31 December 2021
Expected Outcome and/or Purpose	The purpose of the support is to assist in the project preparation and tendering and attract competitive offers from investors and developers and reach commercial and financial close.
Expected Results	The assistance will (i) facilitate the development of a 1-gigawatt solar photovoltaics independent power producer program in Uzbekistan led by ADB, under One ADB approach; (ii) diversify energy sources in Uzbekistan; (iii) decrease the dependence on depleting fossil fuel, gas in particular; (iv) reduce carbon dioxide emissions in energy production generally and for the region of Sherabad in particular; (v) provide positive impact on applicable tariffs in the Uzbekistan energy market; and (vi) increase production of power available for exports, especially to Afghanistan, which is importing 85% of its energy.

¹¹ The Steering Committee of AP3F has approved total 54 projects to date with total fund commitment of \$50.6 million. All of these projects have been booked under ADB's Cluster TA 0020-REG. The figure of 1 represents the number of TA approved for AP3F. It does not represent the number of projects AP3F has supported.

Featured Project

53340-001 - UZB: Navoi Solar Power Project	
Committed Amount	\$8.0 million
Commitment Date	December 2020
Expected Completion Date	December 2022
Expected Outcome and/or Purpose	Navoi Solar is the first utility-scale solar project in Uzbekistan. The project entails a 100 megawatt solar power generation facility sited approximately 35 kilometers west of Navoi City. Power will be sold under a 25-year power purchase agreement with Uzbekenergo, the state-owned monopoly power utility.
Expected Results	Concessional loan funded by CFPS II supported the first competitive tender in the country's renewable energy sector and enabled a lower-than-expected power tariff for the project, thereby underscoring the price-competitiveness of the country's solar power sector amid a strong national push toward clean energy.

Featured Project

TA 9925-REG: Southeast Asia Transport Project Preparatory Facility Phase 2 (Supplementary)	
Committed Amount	\$750,000
Commitment Date	September 2020
Completion Date	December 2022
Expected Outcome and/or Purpose	<p>The TA aims to provide project preparation support and capacity building to the governments of six Southeast Asian developing member countries—Indonesia, Myanmar, the Philippines, Thailand, Timor-Leste, and Viet Nam—for a series of ensuing transport sector projects. The TA has three outputs: (i) feasibility study for ensuing projects prepared, (ii) project implementation activities supported, and (iii) technical and project management capacity of the executing agencies and implementing agencies improved.</p> <p>The trust fund will support the development of the Ha Noi Metro Rail Extension Project (Line No. 3: Ha Noi Railway Station to Hoang Mai Section) in Viet Nam.</p>
Expected Results	<p>The proposed additional financing to the TA facility will assist in achieving the long-term Ha Noi transport master plan objectives by increasing metro coverage and promoting a modal shift from private vehicles to the public transport in Ha Noi, which are consistent with AFD's key focus on mobility and transport. In addition, AFD and ADB have been cofinancing the ongoing Ha Noi Metro Line 3 Project since 2011. Since AFD has experiences of urban railway projects in Asia and South America, the cooperation with AFD through cofinancing will increase a chance of successful project implementation.</p>

43936-014 – THA: Solar Power Project	
Approved Amount	\$3.23 million
Approval Date	22 July 2011 (signing date–FCF contract)
Completion Date	18 September 2020 (FCF contract)
Outcome and/or Purpose	<p>The project involves the construction and operation of a 55-megawatt AC (net) solar photovoltaic power project located in Lopburi Province in central Thailand, approximately 155 kilometers north of Bangkok. It is the first solar power project to achieve CDM registration in Thailand. The project contributes to reduction of greenhouse gas emissions through exporting renewable power and replacing fossil fuel-based electricity. The project was registered under CDM in September 2011.</p> <p>The project is also delivering variety of co-benefits to the communities including energy access, employment generation, improved livelihoods, and diffusion of low-carbon technologies, among others.</p>
Results	As of 31 December 2020, FCF has disbursed the entire \$3.23 million to the project, under three transactions.

SDCD = Climate Change and Disaster Risk Management Division of the Sustainable Development and Climate Change Department, THA = Thailand.

40625-013 – PRC: Lanzhou Sustainable Urban Transport Project	
Approved Amount	\$72,835
Approval Date	14 July 2010 (start date as per eOperations), 7 February 2012 (signing date–FCF contract)
Completion Date	31 December 2018 (end date as per eOperations), Q1 2021 (FCF contract)
Outcome and/or Purpose	<p>The project involves the construction and operation of a Bus Rapid Transit (BRT) system and supporting facilities in Lanzhou City that meets the growing demand for efficient urban transport in the People’s Republic of China (PRC). The project consists of (i) 12.3 kilometers of urban roads, including BRT stations and non-motorized transport lanes; (ii) advanced traffic management through real-time monitoring of buses; (iii) advanced environmental monitoring; and (iv) capacity building to support project implementation and BRT operation and management. Through the advance and efficient BRT systems, the project is delivering co-benefits by reducing traffic congestion and upgrading urban transport services to local beneficiaries.</p> <p>The project contributes to reduction of greenhouse gas emissions and was registered as a CDM project activity in July 2012.</p>
Results	As of 31 December 2020, FCF disbursed a total of \$72,835 to the project.

2020 Supported Projects

In 2020, the Fund disbursed \$2.22 million worth of carbon finance to 10 projects located in Bangladesh, Fiji, India, Nepal, PRC, and Thailand. Out of the \$2.22 million, \$0.34 million worth of carbon finance was disbursed to three ADB-funded projects contracted under the FCF.

In 2020, ADB, as the trustee of FCF, did not execute any new CER purchase agreements and made no new commitments to the project developers.

25 HIGH-LEVEL TECHNOLOGY FUND (HLT FUND)

Donor: Japan

Year Established	2017
Financing Products	Investment Project, Technical Assistance (TA), Direct Charge
Objective	To promote integration of high-level technology and innovation solutions in project design and implementation into ADB projects
Eligible Sectors	Priority sectors are Energy, Health, Transport, Urban, and Water but all sectors and themes are eligible to apply.
Fund Manager	Lin Lu, Principal Operations Coordination Specialist, SDOD

Financial Position as of 31 December 2020 (Amount in \$ million)

Cumulative Donor Commitment	Net Balance Available for Trust Fund Committee Allocation		Number of Projects Funded (Approvals)	Number of Projects Funded (Commitments)
Amount	Amount	% of Commitment		
70.32	17.81	25%	37	37

Featured Projects

TA 9079-PHI: Strengthening Social Protection Reforms (Supplementary)	
Committed Amount	\$1,000,000
Committed Date	10 July 2020
Expected Completion Date	31 December 2023
Expected Outcome and/or Purpose	The education and health profile of the children of program, Pantawid Pamilyang Pilipino Program (4Ps) households are improved.
Expected Results	The advice is timely provided in key policy areas and themes of social protection as identified by the Department of Social Welfare and Development and the national advisory committee for the conditional cash transfer program, 4Ps.

TA 9950-REG: Regional Support to Address the Outbreak of Coronavirus Disease 2019 and Potential Outbreaks of Other Communicable Diseases	
Committed Amount	\$300,000
Committed Date	16 November 2020
Expected Completion Date	30 December 2022
Expected Outcome and/or Purpose	The developing member countries' (DMCs) capacities to prevent and contain the COVID-19 outbreak and other communicable diseases are strengthened.
Expected Results	The following are the expected results (i) health outcomes in Asia and the Pacific improved, (ii) access to improved health services increased (Operational Plan 1 of Strategy 2030), and (iii) regional initiatives to reduce cross-border health risks increased.

TA 6563-REG: Regional Support to Build Virus Resilient and Energy Efficient Centralized Air-Conditioning Systems	
Committed Amount	\$500,000
Committed Date	12 September 2020
Expected Completion Date	31 December 2021
Expected Outcome and/or Purpose	The deployment of centralized air-conditioning systems that meet energy efficiency and indoor air hygiene needs are increased.
Expected Results	The disease resilient clean energy development in DMCs is promoted.

TA 9887-MON: Sustainable Fodder Management (Supplementary)	
Committed Amount	\$400,000
Committed Date	26 August 2020
Expected Completion Date	30 Nov 2021
Expected Outcome and/or Purpose	The sustainable fodder management practices (production, processing, storage, and supply) are adopted.
Expected Results	The sustainable and economically viable fodder industry in Mongolia is improved.

TA 9984-NAU: Digital Twin Capabilities in Project Management	
Committed Amount	\$225,000
Committed Date	21 May 2020
Expected Completion Date	31 December 2021
Expected Outcome and/or Purpose	The Government of Nauru's capacity to monitor port project is improved.
Expected Results	Effective project implementation of port project in terms of improved transport infrastructure and reliable and affordable public transport service provided to the Nauru population.

9.74	Fully committed	0%	10	10

Featured Projects

TA 9728-REG: Scoping of Community Resilience Partnership Program	
Committed Amount	\$375,000
Commitment Date	23 April 2019
Completion Date	30 September 2020
Outcome and/or Purpose	Undertake a scoping exercise for establishing the Community Resilience Partnership Program (CRPP). Its establishment is in response to the increase in climate and disaster risks, to which more and more communities are being exposed due to rampant and unplanned development in many countries. To manage this, investments in resilience need to reach scale. CRPP aims to support ADB's DMCs scale-up resilience through targeted investments that strengthen resilience of the poor, design and implementation of resilience-building financing mechanism that provide financial resources to the poor and vulnerable communities, and strengthening institutions and processes that provide space to engage the poor and vulnerable in resilience policy- and programs-related decision-making.
Results	The scoping exercise was successfully completed, resulting in the development and launch of the CRPP, including the confirmation of financial resources for the CRPP Financing Partnership Facility. The program will be implemented over the period 2021–2030, and will provide support related to action research, project development, and capacity building for local actions on resilience.

TA 8812-REG: Enhanced Use of Disaster Risk Information for Decision Making in Southeast Asia	
Committed Amount	\$3,075,000
Committed Date	11 December 2014
Completion Date	30 September 2018
Outcome and/or Purpose	Strengthen the capacity of government officials in Cambodia, the Lao PDR, Myanmar, the Philippines, and Thailand to use disaster risk information for investment planning processes.
Results	<p>Pipeline development. The IDRM Fund supported the development of pipeline investment on city government disaster insurance pool for the Philippines. Recognizing many cities in the Philippines face particularly high disaster risk, the pooled insurance arrangement was intended to help address the significant financing gap for rapid post-disaster financing, at the same time reducing the cost of premiums through the pooled arrangement by diversifying risk and absorbing the first layer of loss from pool reserves, in turn reducing the amount of reinsurance required to protect the pool. ADB plans to support the implementation of the pool through a disaster risk financing loan (\$100 million) for the Philippines, beginning with a pilot pool arrangement for 10 cities and scaling-up to include additional ones.</p>

TA 8570-REG: Support to Community-Based Disaster Risk Management in Southeast Asia	
Committed Amount	\$1,750,000
Committed Date	9 December 2013
Completion Date	30 September 2017
Outcome and/or Purpose	Aims to (i) support innovative pilot subprojects on strengthening community disaster resilience, (ii) facilitate peer-to-peer learning among local governments and community-based organizations on disaster resilience, and (iii) provide guidance on scaling-up community-based DRM.
Results	<p>Innovation. The IDRM Fund supported the design of a financial scheme for microfinance institutions to support rapid recovery of their clients in the aftermath of disasters (subproject under TA 8570). The scheme proposed a combination of portfolio insurance for microfinance institutions against extreme weather events and an emergency liquidity facility that would be made available in the aftermath of a climate-related disaster.</p> <p>Pilot activities. The IDRM Fund supported pilots on community resilience (subprojects under TA 8570). The pilots (i) supported community-based women's organizations to engage with local authorities in accessing resources from local development funds to implement their disaster resilience priorities, (ii) undertook research on cost-and-benefit analysis of community-led resilient infrastructure, and (iii) explored the potential of scaling-up community resilience through investments in social protection and community-driven development. Lessons from the pilots were used to inform the development of (i) ADB's investment in Myanmar Resilient Community Development Project (\$198 million), and (ii) the regional TA on Advancing Resilient and Inclusive Development targeted at the Urban Poor (\$5 million).</p>

Featured Projects

Grant 9212-PAL: Disaster Resilient Clean Energy Financing	
Committed Amount	\$3 million
Commitment Date	1 December 2020
Expected Completion Date	30 April 2024
Expected Outcome and/or Purpose	The impact is aligned with (i) access to disaster resilient clean energy for consumers increased; (ii) safe, resilient, and prepared communities for calamities and women livelihood recovery enhanced; and (iii) resilience of Palau communities to climate change and disasters enhanced. The outcome will be consumers' energy expenditures reduced.
Expected Results	The Disaster Resilient Clean Energy Financing Project will facilitate access of low-income households and female borrowers to affordable disaster-resilient clean energy financing in Palau through three outputs: (i) disaster-resilient clean energy financing facility for eligible borrowers made available, (ii) accessibility to disaster-resilient clean energy loans for eligible women borrowers improved, and (iii) capacity and awareness of stakeholders increased. The project has strong pro-poor, socially inclusive, and gender-sensitive features. The project will directly benefit approximately 900 households in Palau (or about 3,000 inhabitants), including at least 450 low-income households and 180 households headed by women. They will benefit from reduced households' energy expenditures and improved access to affordable renewable energy.

TA 9913-PHI: Strengthening the Transition of Vulnerable Communities Affected by the Malolos–Clark Railway Project

Committed Amount	\$2 million
Commitment Date	20 May 2020
Expected Completion Date	30 November 2022
Expected Outcome and/or Purpose	Poverty and vulnerability among the Malolos–Clark Railway Project affected persons reduced
Expected Results	<ul style="list-style-type: none"> (i) To improve financial resilience and stability of at least 1,200 participant households by providing one-on-one mentorship program to effectively engage the participants with Livelihood Restoration and Improvement Program activities, government social support mechanisms, and build capacity in household financial planning and management. (ii) To establish urban resettlement baseline and monitoring system to support project activities, and in the long term, to be used as government's tool for enhanced resettlement monitoring. (iii) To produce knowledge products presenting lessons and best practices in the context of urban resettlement and a framework on how to implement the graduation approach in urban resettlement setting.

Featured Project

Grant 0733-MLD: Greater Male Waste-to-Energy Project	
Committed Amount	\$10 million, grant
Commitment Date	5 February 2020
Expected Completion Date	31 March 2027
Expected Outcome and/or Purpose	Reduce disaster risk and improve climate change resilience while creating a cleaner environment and decreasing greenhouse gas emissions.
Expected Results	The project will establish an integrated regional solid waste management system in Greater Male including collection, transfer, treatment using waste-to-energy (WtE) technology, disposal, recycling, dumpsite closure and remediation, public awareness in reduce-reuse-recycle (3R), and to strengthen institutional capacities for service delivery and environmental monitoring. Specifically, JFJCM will support the development of a 500 tons/day WtE plant, which avoids methane emissions from landfill and replaces diesel-based electricity generation resulting in carbon dioxide emission reductions. The project will not only improve waste management and reduce greenhouse gas emissions, but it will also bring significant environmental, social, and economic benefits, including improvement of marine ecosystem by minimizing wastes dumped to the ocean, improvement of health of the surrounding residents by minimizing the odor and smoke from spontaneous combustion at the landfill, and reduction of diesel oil use resulting in improved energy security and trade balance of Maldives, which heavily depends on imported diesel for power generation.

Featured Projects

JL02-IND: DCDC Health Services Pvt Ltd	
Committed Amount	\$5 million
Commitment Date	29 June 2018
Completion Date	Completed and operational
Outcome and/or Purpose	Equity investment was designed to allow DCDC Healthcare Services Private Limited (DCDCPL) expand the reach of its dialysis and ancillary health services in India to more than 180 centers, from the 100 centers in operation at the time of the transaction.
Results	The expansion of the DCDC network improves access to quality dialysis services for end-stage renal diseases especially in under-served and lower-income populations.

¹² Cumulative contribution committed refers to total amount pledged of \$1.5 billion. These contributions are formally recognized and recorded in ADB's system and financial statements once they are remitted by the financing partner to ADB.

LN8369-REG: Asia Pacific Remote Broadband Internet Satellite Project	
Committed Amount	\$25 million
Commitment Date	30 November 2019
Completion Date	Completed and operational
Outcome and/or Purpose	Parallel loan for the construction and operation of a shared geostationary, high-throughput satellite bringing broadband internet to remote areas of Asia and the Pacific that are hard to reach with conventional terrestrial internet networks.
Results	The project allows governments of Pacific islands and island nations in the coverage region to connect remote schools and roll out telemedicine programs to remote locations which have limited access to education and medical care

LN8373-VIE: Gulf Solar Power Project	
Committed Amount	\$7.6 million
Commitment Date	22 January 2020
Expected Completion Date	2021
Expected Outcome and/or Purpose	Concessional loan to construct a 50 megawatt solar power plant and an associated transmission line in the Thanh Thanh Cong Industrial Zone of Tay Ninh Province in southern Viet Nam.
Expected Results	<p>The project is one of Viet Nam's first independent power producers in renewable energy raising an international project finance facility.</p> <p>The project will provide renewable electricity, avoid greenhouse gas emissions, and diversify Viet Nam's fuel mix in line with government priorities.</p>

CAREC = Central Asia Regional Economic Cooperation, COVID-19 = coronavirus disease, MON = Mongolia, PAK = Pakistan, REG = regional, SDPF = Partner Funds Division of the Sustainable Development and Climate Change Department, UZB = Uzbekistan.

Donor: Nordic Development Fund

Year Established	2016
Financing Products	Technical Assistance (TA), Project Design Advance, Multitranches Financing Facility
Objective	The Project Readiness Improvement Trust Fund is a multi-donor financing facility administered by ADB to help countries deliver their respective Nationally Determined Contributions and focus on critical infrastructure investment projects addressing climate change. PRI TF supports upstream preparatory activities, namely, climate risk vulnerability assessments (CRVAs), engineering designs incorporating climate-resilient measures and greater safety factors, feasibility studies and project design reports, bidding documents and procurement plans, knowledge transfer and on-the-job training of central and local partners, and customized climate-resilient solutions. It complements existing ADB project start-up support facilities to enhance project readiness for fast rollout by saving 6 to 24 months in the procurement process, quicker start-up on the ground, and faster fund disbursement.
Eligible Sectors	All developing member countries in Southeast Asia are eligible to access the fund. Assistance to date has been tapped to prepare projects across the agriculture, transport, and tourism sectors, and for strengthening climate resilience of urban services.

Featured Project

TA9323-LAO: Sustainable Rural Infrastructure and Watershed Management Sector Project	
Committed Amount	\$ 0.5 million
Commitment Date	17 July 2017
Expected Completion Date	30 April 2022
Expected Outcome and/or Purpose	Sustainable, market-oriented agricultural production, and natural resources management in selected watersheds.
Expected Results	<ul style="list-style-type: none"> (i) Improved rural incomes from market-driven diversified farm output, watershed health, and community nutrition in the four northern provinces of Houaphan, Louangphabang, Xaignabouli, and Xiangkhouang through (a) promotion of diversification into dry season high-value crops and provision of irrigation and access; (b) protection of watershed ecological services; and (c) improvement of nutrition through awareness building and water, sanitation, and hygiene (WASH) facilities. (ii) Ensured sustainable water resources management with stronger project ownership through capacity building and learning-by-doing.

LAO = Lao People's Democratic Republic, SEOD = Office of the Director General of the Southeast Asia Department, SERC = Regional Cooperation and Operations Coordination Division of the Southeast Asia Department, SERD = Southeast Asia Department.

REPUBLIC OF KOREA E-ASIA AND KNOWLEDGE PARTNERSHIP FUND (EAKPF)

Donor: The Republic of Korea

Year Established	2006
Financing Products	Grant, Investment Project, Technical Assistance (TA)
Objective	To contribute to poverty reduction and economic and social development through reducing digital divide and promoting knowledge cooperation between ADB, its developing member countries, and the Republic of Korea.
Eligible Sectors	All Sectors

37 AUSTRALIAN CLIMATE FINANCE PARTNERSHIP (ACFP)

Donor: Australia

Year Established	2020
Financing Products	Guarantees and Risk Participation, Unhedged Local Currency Financing, Technical Assistance (returnable and non-returnable), and Grant
Objective	<p>The objective of the fund is to contribute to a more stable, secure and prosperous Indo-Pacific to meet the challenges of climate change.</p> <p>To achieve this objective, the fund will support projects that contribute to the following outcomes:</p> <ul style="list-style-type: none"> (i) reduced project countries' greenhouse gas emission compared to business-as-usual scenario, (ii) project countries becoming more resilient to the impacts of climate change, (iii) national or sectoral reforms improving the enabling environment for climate finance and ease of doing business in participating countries, and (iv) target countries becoming more supportive of gender equality and women's empowerment in fund-targeted sectors.
Eligible Sectors	Climate mitigation and adaptation. Mitigation project types include, but are not limited to renewable energy, sustainable transport, urban infrastructure, energy efficiency, land use and agribusiness, water supply and sanitation/wastewater treatment, solid waste management, and blue carbon mitigation and/or adaptation activities. Adaptation project types include but are not limited to, water supply and management, agriculture and forestry, land use management, natural resource management, resilient infrastructure, marine and coastal ecosystem protection, healthcare, and disaster risk management.

562671 REG: ADB Ventures Financing Partnership Facility	
Committed Amount	\$20 million
Commitment Date	September 2020 ADB commitment Date: 31 Dec 2020 (for TA 9948: ADB Ventures TA)
Expected Completion Date	NA
Expected Outcome and/or Purpose	The ADB Ventures Facility will support and invest in early-stage companies (\$100,000 to \$4 million per investment) with technology-enabled solutions that contribute to climate impact in the Asia and the Pacific.
Expected Results	The expected outcome will be the growth of early-stage companies with technology-enabled solutions that contribute to climate impact in the Asia-Pacific (SDG 13). Conservative estimates show the proposed program has the potential to enable investments leading to greenhouse gas reductions of approximately 0.24 million tCO ₂ e annually, or 4 million prorated tCO ₂ e over the investment lifetime.

NA = not available, REG = regional, SDCCD = Climate Change and Disaster Risk Management Division of the Sustainable Development and Climate Change Department, tCO₂e = metric tons of carbon dioxide equivalent.

TA 6629-REG: Improved Decision-making for Climate-Resilient Development in Asia and the Pacific	
Committed Amount	\$2.15 million
Commitment Date	30 October 2020
Expected Completion Date	31 March 2023
Expected Outcome and/or Purpose	Decision-making for climate-resilient development in selected DMCs improved.
Expected Results	<p>Output 1: Country systems for climate risk-informed fiscal decision-making strengthened. Support provided through proposed diagnostic work, improved understanding of long-term climate risk and opportunities in specific sectors, capacity building on use of climate risk-informed fiscal planning tools and guidelines, and strengthened coordination between ministries and with stakeholders, will lead to improved decision-making for climate-resilient development and development and strengthening of fiscal policy and management processes to support such decision-making.</p>

TA 6629-REG: Improved Decision-making for Climate-Resilient Development in Asia and the Pacific

Output 2: Knowledge on climate risk-informed decision-making enhanced.

The TA is innovative, as it attempts to shift the entry point for climate adaptation from a project level to upstream fiscal and sector planning. Such an approach will allow for the identification of wider processes that can help influence the future pipeline of investments in climate adaptation, including investments that could be potentially be financed by ADB. Furthermore, by promoting a whole-of-society approach toward resilience, the TA aims to systematically engage the private sector in climate adaptation-related investments, which is critical in recognizing the scale of finance needed for climate adaptation.

Featured Projects

Grant 0302-CAM: Emergency Food Assistance Project	
Committed Amount	\$24.5 million (fully financed by GAFSP)
Commitment Date	11 September 2012
Actual Closing Date	16 November 2016
Outcome and/or Purpose	To reduce the vulnerability of food-insecure households in the target provinces through improved access to sufficient and nutritious food and production inputs
Results	The project improved the food security of over 55,000 households. Among the beneficiary households, prevalence of severe (from 12% to 4%) and moderately (from 56% to 32%) severe food-insecure households was reduced, while little or no food-insecure households increased from 32% to 64%. Other outcomes include the establishment of food security and nutrition monitoring and evaluation system with MIS and quarterly bulletins, increase of rice yields from 2 t/ha to 3.4 t/ha during dry season and 1.5 t/ha to 2 t/ha during wet season, and improved access to toilets (from 15% to 56%) and increased practice of hand washing (46% increase).

¹⁴ Countries which are part of the World Bank's International Development Association. <https://ida.worldbank.org/>.

¹⁵ Number of projects approved by ADB (3 Grants, 1 TA). Two additional projects were approved by the Trust Fund Committee in 2020 for ADB processing (i) Additional financing of \$3.8 million grant for CAM: Climate-Resilient Rice Commercialization Sector Development Program scheduled in 2021; and (ii) \$15 million grant for AFG: Community-Driven Irrigation Management Sector Project (\$3 million TA for Food and Agriculture Organization of the United Nations and \$12 million grant for the ADB project) scheduled in 2022.

Grant 0349-CAM: Climate-Resilient Rice Commercialization Sector Development Program	
Committed Amount	\$14.6 million
Commitment Date	27 June 2013
Expected Closing Date	30 September 2021
Expected Outcome and/or Purpose	To enhance the production of quality rice in Cambodia while preserving the natural resource base
Expected Results	The project completed 11 of 12 policy conditions to facilitate climate-resilient rice commercialization. Community-agroecosystem analysis were completed for 100% of the target communities. Land use, soil classification, and rice ecosystem maps were produced for the 13 target districts, while 8 training programs and 3 workshops were organized on land use mapping for 386 participants (8% women). The project rehabilitated irrigation subprojects providing water access to 49,520 farmers (51% women); completed 146 laser land levelling training to 4,740 farmers (40% women); and organized 153 training for 6,786 agricultural cooperative members (36% women). Technical information packages were produced on rice production during dry and wet seasons, rice seed production, pest and diseases, laser land levelling, rice post-harvest technology and agro-eco analysis. Business matching was completed by 767 representatives (24% women) to facilitate linkages with rice millers, agricultural cooperatives, and exporters. The feasibility study of weather indexed crop insurance was completed for pilot testing in May 2020.

Grant 0617-MYA: Climate-Friendly Agribusiness Value Chains Project	
Committed Amount	\$22 million
Commitment Date	9 October 2018
Expected Closing Date	30 June 2026
Expected Outcome and/or Purpose	To develop productive and resource-efficient agribusiness value chains in the project areas
Expected Results	<p>Recruitment of project implementation consulting firm (PIC) and individual consultants on financial management, procurement, and agriculture digital finance was completed. Procurement of some civil works packages for farm roads and several goods packages have also been completed, while procurement of the rest of the goods, works, and consulting services packages are underway. The contract for the project implementation consultants (PIC) was signed in May 2020. Only national consultants of PIC could be mobilized in August 2020 because of travel restrictions on international consultants imposed due to the coronavirus disease 2019 (COVID-19) pandemic.</p> <p>Under output (i), three contracts for a few farm roads worth \$0.43 million were awarded in July 2020. Under output (ii), the Department of Agriculture, with support from PIC, is finalizing the terms of reference to recruit the International Rice Research Institute through single source selection. Under output (iii), the Department of Planning has begun to conduct training workshops on monitoring and evaluation to staff at regional and township levels. The inception mission successfully concluded in December 2020.</p>

TA 9694-MYA: Climate-Friendly Agribusiness Value Chains Sector Project

Committed Amount	\$994,937
Commitment Date	17 December 2018
Expected Closing Date	30 June 2026
Expected Outcome and/or Purpose	To support a randomized controlled trial impact evaluation of Grant 0617-MYA: Climate-Friendly Agribusiness Value Chains Project through four interventions: irrigation, advisory services, finance, and nutrition.
Expected Results	Competitive firm selection was completed in 2020, and a contract with IDinsight was issued. Study progress has been impeded by travel restrictions imposed for COVID-19 control.

AFG = Afghanistan, CAM = Cambodia, COVID-19 = coronavirus disease, MYA = Myanmar, SDTC-AR = Rural Development and Food Security (Agriculture) Thematic Group of the Sustainable Development and Climate Change Department, t/ha = tons per hectare.

40 GLOBAL ENVIRONMENT FACILITY (GEF)

Donor: Global Environment Facility (GEF)

Year Established	1991
Financing Products	Technical Assistance (TA), Grant, Non-Grant Instrument
Objective	Provide grants for projects that benefit the global environment (i.e., biodiversity, climate change, international waters, land degradation, sustainable forest management, and chemicals management).
Eligible Sectors	Environmental Sustainability
Facility Manager	Bruce Dunn, Director, SDSS

Financial Position as of 31 December 2020 (Amount in \$ million)

Cumulative Donor Commitment	Net Balance Available for Trust Fund Committee Allocation		Number of Projects Funded (Approvals)	Number of Projects Funded (Commitments)

Featured Project

49453-002-KIR: South Tarawa Renewable Energy Project	
Committed Amount	\$4,457,156
Commitment Date	11 December 2020*
Expected Completion Date	31 December 2027
Expected Outcome and/or Purpose	The Asian Development Bank provided a grant to the Government of Kiribati. The project will combat factors that result in the high incidence of waterborne disease in South Tarawa, the capital of Kiribati, through the delivery and effective management of new and rehabilitated climate-resilient water supply assets and of improved hygiene practices. The Global Environment Fund (GEF) additional financing will progressively introduce climate-resilient asset management into the embryonic national asset management process. This will create a strong foundation for upscaling and rolling out climate-resilient asset management nationally and integrating climate change resilient at key stages.
Expected Results	The GEF component will <ul style="list-style-type: none"> (i) establish a common data and information platform to provide management and decision-making support to multiple stakeholders, and (ii) proposing strategic use of asset management as a tool to achieve climate resilience.

*GEF commitment date.

¹⁶ Number of projects include CEO-endorsed by GEF. Approved and committed number of projects by ADB is 89 for both grants and TA projects.

2020 Committed Project

ADB Approved Number	Project Name
TA9911-REG	Promoting Action on Plastic Pollution from Source to Sea in Asia and the Pacific–Enhancing Knowledge and Creating Enabling Environments for Reducing Marine Plastic Pollution (Subproject 1) (Supplementary)

KIR = Kiribati, REG = regional, SDSS = Safeguards Division of the Sustainable Development and Climate Change Department.

Donors: Australia, Belgium, Canada, the Children's Investment Fund Foundation (CIFF), Denmark, the European Commission, Finland, France, Germany, Ireland, Italy, Japan, Luxembourg, the Netherlands, Norway, the Republic of Korea, Romania, the Russian Federation, Senegal, Spain, Sweden, Switzerland, the United Arab Emirates, the United Kingdom, the United States, the Open Society Foundation, Dubai Cares, Stichting Benevolentia (Porticus), and the Rockefeller Foundation

Year Established	2011
Financing Products	Program Development Grant
Objective	GPE mobilizes global and national investments and brings partners together to help governments build strong education systems, based on data and evidence. It brings together developing countries, donors, international organizations, civil society, including youth and teacher organizations, the private sector, and private foundations to pursue the shared objective of equitable, quality education for all.
Eligible Sectors	Focus areas are on the following: (i) gender equality, (ii) education in crisis, (iii) inclusive education, (iv) early education, (v) learning assessments, (vi) teaching quality, and (vii) data systems.

Featured Project

TA 9645-REG: Strengthening Education in the Pacific Region	
Committed Amount	\$389,875
Commitment Date	10 February 2020
Expected Completion Date	30 June 2025
Expected Outcome and/or Purpose	Regional capacity to improve education outcomes in the Pacific enhanced. The purpose of the Program Development Grant is to effectively develop and prepare a program that will support the development of the region's education sector plan which meets the criteria to be financed by the GPE through an Education Sector Program Implementation Grant (ESPIG) and/or a Multiplier Grant.
Expected Results	A program for implementation of the Pacific Regional Education Framework (PACREF) developed. The activities are: (i) strengthening the PACREF Program Facilitating Unit (PFU), (ii) in-country consultations, (iii) strengthening PACREF Program governance, (iv) preparation and finalization of the Pacific Region's ESPIG, (v) all country Review of the Final Pacific Region ESPIG Application Package, and (vi) grant administration training.

2020 Committed Projects

ADB Approved Number	Project Name
TA 9645-REG	Strengthening Education in the Pacific Region (Supplementary)

NA = not available, REG = regional.

Donors: Green Climate Fund, which has received contributions from Austria, Belgium, Brussels Capital Region (Belgium), Bulgaria, Canada, Denmark, Finland, France, Germany, Hungary, Iceland, Indonesia, Ireland, Italy, Japan, Liechtenstein, Luxembourg, Malta, Monaco, the Netherlands, New Zealand, Norway, Poland, Portugal, the Republic of Korea, the Slovak Republic, the Russian Federation, Slovakia, Slovenia, Spain, Sweden, Switzerland, the United Kingdom, and Wallonia (Belgium) <https://www.greenclimate.fund/about/resource-mobilisation>

Year Established	2010
Financing Products	Grant, Loan, Equity, Guarantee
Objective	The Green Climate Fund (GCF) is a global fund created to support the efforts of developing countries to respond to the challenge of climate change. GCF helps developing countries limit or reduce their greenhouse gas (GHG) emissions and adapt to climate change. It seeks to promote a paradigm shift to low-emission and climate-resilient development, taking into account the needs of nations that are particularly vulnerable to climate change impacts.
Eligible Sectors	Ecosystem; Livelihoods; Transport; Infrastructure Resilience; Forestry and Land Use; Energy access and generation; Health, food and water security; Energy Efficiency
Fund Manager	Preeti Bhandari, Chief of Climate Change and Disaster Risk Management Thematic Group concurrently Director, SDCD
Alternate Fund Manager	Christian Ellermann, Senior Climate Change Specialist, SDCD

Featured Project

Grant 0653-KIR: South Tarawa Water Supply Project	
Committed Amount	\$ 28.6 million (grant)
Commitment Date	October 2018
Expected Completion Date	4 April 2028
Expected Outcome and/or Purpose	The estimated \$62 million project will address both adaptation and mitigation objectives by building a 6,000 cubic-meter-per-day (cbm/day) reverse osmosis seawater desalination plant, to provide South Tarawa with a reliable, climate-resilient source of fresh water. The project will also renovate and expand the reticulated water network to reduce leakages and ensure access to the new clean-water source.

¹⁷ Number of projects approved by ADB is 11 while number of projects committed is 10. Projects for REG 9425 and COO 3193/0415/0493/0548 are counted as separate projects by ADB.

Grant 0653-KIR: South Tarawa Water Supply Project

A photovoltaic power plant will also be constructed to offset the greenhouse gas emissions from the desalination plant and the increased water treatment and distribution.

The entire population of Tarawa—currently about 53% of Kiribati’s population—will benefit directly from the project. Without it, there will be more water shortages as the population grows, and there will be less water of consistently good quality for the most vulnerable people and communities. Carbon dioxide emissions are expected to decrease by 111,323 metric tons over the 20-year period as water pumping is reduced and the country moves away from diesel generation.

Expected Results

62,298 beneficiaries;
89,400 tCO₂e reduced per year;
2.5 megawatts of solar photovoltaic installed
At least 95% of South Tarawa’s population (51.5% of them women) has access to safe, climate-resilient water supplies
6,000 cbm/day desalination capacity is installed

Featured Project

Women Accelerating Vibrant Enterprises in Southeast Asia and the Pacific (WAVES) Program	
Committed Amount	\$20.2 million, of which \$13.37 million for Viet Nam, \$5.5 million for Pacific
Commitment Date	September 2019
Expected Completion Date	December 2025
Expected Outcome and/or Purpose	The WAVES Program aims to build capacity across the entrepreneurial ecosystem, in partnership with governments, the private sector and women's businesses, to open new doors and create an empowering environment for women-owned or led small and medium-sized enterprises (WSMEs) to grow and scale-up. The WAVES Program will target 5,105 growth-oriented women's businesses to enable them to become thriving SMEs.
Expected Results	By 2024, the WAVES Program will have <ul style="list-style-type: none"> (i) strengthened institutional capacity and interest of financial institution partners to actively develop WSME-tailored products, services, and approaches; (ii) positioned WSMEs firmly on the policy agendas of governments, and ensured WSMEs' voices are included in decision-making processes; and (iii) built up WSME's capacity and confidence to run successful businesses, and to increase their contributions to building inclusive and dynamic economies.

Women Accelerating Vibrant Enterprises in Southeast Asia and the Pacific (WAVES) Program

Status as of December 2020

WAVES Program in Viet Nam

In December 2020, ADB Management approved a COVID-19 response project using We-Fi funds which will support at least 500 women-owned/led small and medium-sized enterprises (WSMEs) in Viet Nam to overcome the COVID-19 pandemic. Principal activities include restructuring of loans and loan holidays, complemented by a specialized business counseling program to enable these entrepreneurs to receive dedicated one-on-one business counseling. The counselling program is set to begin in Q1 2021.

WAVES Program in the Pacific

ADB approved in December 2020 two subprojects under the TA cluster REG: Technical Assistance for the Women's Financing Marketplace with the overall outcome of increasing sustainable financial inclusion for women and women's businesses. Subproject 2 will support the identification and design of innovative technologies and suitable and sustainable digital service delivery models to support gender-responsive ecosystems. Subproject 3 will build the capacities of women's businesses and financial institutions.

44a ASIA PACIFIC DISASTER RESPONSE FUND (APDRF)

Donors: ADB

Year Established	2009
Financing Products	Grant
Objective	The fund responds to the urgent need for financial assistance immediately after the occurrence of a disaster, providing incremental and quick-disbursing grant resources to any ADB developing member country (DMC) for the restoration of life-preserving services to the affected communities.
Eligible Sectors	Multisector
Fund Manager	Preeti Bhandari, Chief of Climate Change and Disaster Risk Management Thematic Group concurrently Director, SDCD
Alternate Fund Manager	Charlotte Benson, Principal Disaster Risk Management Specialist, SDCD

Financial Position as of 31 December 2020 (Amount in \$ million)

Amount	Amount	% of Commitment		
90.00	14.2	15.8%	48	47

Project Highlights

APDRF is an important source of immediate liquidity to ADB DMCs impacted by disasters.

As of 31 December 2020, 47 grants totaling \$76.2 million have been committed in response to disasters in 22 countries:

- (i) tropical storms/cyclones in Fiji, Palau, the Philippines, Samoa, Tonga, Vanuatu, and Viet Nam;
- (ii) floods in Cambodia, Fiji, Myanmar, Pakistan, Solomon Islands, Sri Lanka, and Thailand;
- (iii) droughts in the Marshall Islands and Viet Nam;
- (iv) dzud in Mongolia;
- (v) earthquakes and tsunamis in Indonesia, Nepal, Papua New Guinea, and Samoa;
- (vi) volcanic activity in Vanuatu; and, most recently,
- (vii) the COVID-19 pandemic in the Federated States of Micronesia, Indonesia, Maldives, the Marshall Islands, Mongolia, Nauru, Pakistan, Philippines, Tonga, and Tuvalu.

Proceeds have been used for a wide variety of purposes, including the provision of clean water, food, tents, blankets, and medical supplies and equipment; relief logistics and transportation; restoration of community infrastructure and public services; and livelihood restoration, including cash-for-work programs.

44b APDRF GOVERNMENT OF JAPAN FOR COVID-19 (APDRF JPN)

Donor: Japan

Year Established	2020
Financing Products	Grant
Objective	The Government of Japan's contribution to the Asia Pacific Disaster Response Fund (APDRF) responds to the urgent need for financial assistance of ADB's developing member countries, providing quick-disbursing grants of up to \$3 million to help strengthen their capacity to contain the spread of the coronavirus disease 2019 (COVID-19).
Eligible Sectors	Multisector
Fund Manager	Preety Bhandari, Chief of Climate Change and Disaster Risk Management Thematic Group concurrently Director, SDCD
Alternate Fund Manager	Charlotte Benson, Principal Disaster Risk Management Specialist, SDCD

Featured Project

Grant 0707-TIMOR-LESTE: COVID-19 Food Security Emergency Response	
Committed Amount	\$1,000,000
Commitment Date	9 July 2020
Expected Completion Date	28 February 2021
Expected Results	The grant enabled urgent food assistance to be provided to approximately 28,000 food-insecure people—including over 12,000 children and 4,000 older people—across 5 municipalities and 100 villages. The nutritionally balanced food baskets, which included fresh vegetables, fruits, rice, beans, and super foods such as moringa noodles, were sourced from the local market. This farm-to-table emergency food distribution is an innovative approach that has also helped over 1,000 local farmers, and micro and small enterprises who have not been able to sell their products due to COVID-19 emergency restrictions imposed to contain the spread of the virus. The grant contributed to ensuring food and nutrition security for the most vulnerable households. In particular, the grant helped prevent further wasting and stunting in children under 5 years.

45 CLIMATE CHANGE FUND (CCF)

Donor: ADB

Year Established	2008
Financing Products	Grant Component of Investment, Technical Assistance (TA) (stand-alone and linked to loan), and Direct Charge
Objective	To facilitate greater investments in developing member countries (DMCs) to effectively address the causes and consequences of climate change, by strengthening support to low-carbon and climate-resilient development in DMCs. CCF plays a key role in mainstreaming climate actions in ADB's operations and is critical for achieving the climate targets under Strategy 2030's third operational priority of tackling climate change, building climate and disaster resilience, and enhancing environmental sustainability. The fund focuses on three areas: (i) adaptation; (ii) clean energy development; and (iii) reduced emission from deforestation and degradation and improved land use management.
Eligible Sectors	Multiple
Fund Manager	Preety Bhandari (overall fund manager; coordinator–adaptation and land use), Chief of Climate Change and Disaster Risk Management Thematic Group concurrently Director, SDCC
Fund Coordinator	Robert Guild (coordinator–clean energy), Chief Sector Officer, SDSC

Featured Projects

TA 9323-LAO Flood and Drought Mitigation and Management Project	
Committed Amount	Climate Change Fund - \$1,300,000
Commitment Date	December 2020 (increase in TA amount–\$1 million) December 2018 (increase in TA amount–\$0.3 million)
Expected Completion Date	April 2022

¹⁸ This figure does not account remaining investment income amounting to \$2.3 million, and audit fees and other financial charges amounting to a total of \$0.2 million. Accounting for these would result in a net balance of resources amounting to \$23.5 million.

¹⁹ Figure reflects cumulative allocations to grant component of investment/technical assistance (stand-alone and linked to loan) projects and direct charges, and includes allocations in 2020 to 6 technical assistance projects and 1 direct charge.

TA 9323-LAO Flood and Drought Mitigation and Management Project

Expected Outcome and/or Purpose	Climate adaptation initiatives integrated in the project design
Expected Results	The TA will support the preparation and project design of the Flood and Drought Mitigation and Management project in Lao People's Democratic Republic, in particular, incorporating climate adaptation initiatives to reduce the impacts of extreme weather events caused by climate change. The project aims to improve climate resilience and livelihoods of agricultural communities through harnessing flood water and reducing damages, improving water reliability during droughts, modernizing agrometeorological information systems, and improving nutrition awareness and facilities.

TA 6627-REG: Building Institutional Capacity: Delivering Climate Solutions under Operational Priority 3 of Strategy 2030

Committed Amount	Climate Change Fund - \$2,000,000
Commitment Date	December 2020
Expected Completion Date	November 2023
Expected Outcome and/or Purpose	Implementation of climate actions in Asia and the Pacific increased
Expected Results	The TA will deliver the following outputs: (i) support to developing member countries in incorporating climate change and resilience in long-term strategic planning and projects provided; and (ii) knowledge on climate change-related concepts and tools improved.

GLOSSARY

ADB committed amount	Amount of projects approved and signed by ADB
contribution commitment	Contributions committed by financing partners in United States \$ equivalent valued at exchange rate as of signed cofinancing agreement date
cumulative disbursements	Total amount of project expenditures and administrative expenses paid out from the fund
global funds	Funds for which an organization acts as their global trustee or administrator. They typically leverage a variety of public and private resources in support of international initiatives, enabling the development partner community to provide a direct and coordinated response to global priorities.
net available balance for allocation	Amount available for fund committee's allocation to new projects and/or activities
project and TA commitment	The financing approved by ADB's Board of Directors or management for which the legal agreement has been signed by the borrower, recipient, or the investee company and ADB
special funds	Funds as defined in Article 19 of Agreement Establishing the Asian Development Bank
trust funds	Means of channeling cofinancing resources to finance various projects and activities that meet certain eligibility criteria

Asian Development Bank Trust Funds Report 2020

Includes Global and Special Funds

This report provides key information about the 2020 financial operations of trust funds, global funds, and special funds administered by the Asian Development Bank (ADB). It includes an assessment of how these trust funds helped ADB's developing member countries respond to the coronavirus disease (COVID-19) pandemic. The contribution made by the funds to the operational priorities of ADB's Strategy 2030 is also discussed.

About the Asian Development Bank

ADB is committed to achieving a prosperous, inclusive, resilient, and sustainable Asia and the Pacific, while sustaining its efforts to eradicate extreme poverty. Established in 1966, it is owned by 68 members—49 from the region. Its main instruments for helping its developing member countries are policy dialogue, loans, equity investments, guarantees, grants, and technical assistance.
