II. INTRODAKSEN

CRPP IF bae hemi establishim mo mentenem, tru long wan ESMF, wan efektifiv envaeronmental mo sosol manejem sistem blong aedentifaem, asesem, manejem, mo monitarem ol potensel envaeronmental mo sosol impakt mo ol risk we oli asosiet wetem potfolio blong ol invesmen long klaemet adaptesen.

Dvelopmen mo implementesen blong ESMF i aplae long ol CRPP IF operesen mo evri CRPP invesmen. Hemi laenap wetem GCF rikwaemen blong envaeronmental mo sosol risk kategori I-2 aktiviti. Ol kategori 1 aktiviti oli olgeta we oli “involvem invesmen tru lo ol faenensol intamediet o ol deliveri proses we i involvem ol faenensol intamediet.” Definisen blong ol risk³ ya i inkludem: (i) hael level blong intamediesen, o I1, taemwe potfolio o propos potfolio blong wan intamediet hemi inkludem, or bae hemi ekspektet blong inkludem, faenensol eksposa long ol kategori A aktiviti; (ii) mediom level blong intamediesen, or I2, taemwe potfolio o propos potfolio blong wan intamediet hemi inkludem, or bae hemi ekspektet blong inkludem, faenensol eksposa long ol kategori B aktiviti; mo (iii) low level blong intamediesen, I3, taemwe potfolio o propos potfolio blong wan intamediet hemi inkludem faenensol eksposa long ol kategori C aktiviti. Ol Kategori B aktiviti, oli simila wetem ol ADB Kategori B projek we oli ol “Aktiviti wetem limit blong adves envaeronmental wetem sosol risk mo ol individuol o kumulektiv impakt oli smol, oli saet-spesifik, oli save rivesem olgeta mo oli save adresement olgeta wetem ol mitigesen mesa”. Folem ol fes asesment blong ol propos aktiviti blong sapotem (Tebol 2 blong Seksen 5), ol envaeronmental mo Sosol risk wetem impakt we i save tekples oli ol moderet risk aktiviti we oli save aedentifaem folem GCF definisen: “ol eksposa long ol risk mo impakt oli no bigwan olsem ol kategori A aktiviti long saed blong siknifikens (saes mo/o pawa) mo laeklihud blong hemi

III. PROGRAM DISKRIPSEN

CRPP bae hemi sapotem ol kantri blong mitim ol komitmen blong olgeta long Paris Agriment, wetem Sendai Fremwok blong Disasta Risk Ridaksen, mo ol Sastenabol Dvelopmen Gol. Program ya hemi rispond long COP 26 gol blong apskelem ol adaptesen blong protektem ol komuniti mo najurol habitat, mo mobilaesem ol faenens blong ol klaemet adaptesen mesa blong mitim nid blong ol pua mo valnerabol komuniti, mo hemi rispond tu long COP 27 we hemi askem apskel blong ol aproj blong sapotem transfomesenal adaptesen. CRPP hemi aedentifaed olsem wan flagship program anda long [Global Komisen blong Adaptesen](#) aksen proses we hemi gat lokol lidaship, we hemi gat em blong spidimap faenensing blong ol adaptesen mesa long lokol level, mo blong help blong krietem ol strakja we oli sapotem ol apopriet subsidi mo i givim ol lokol akta moa influens long desisen-meking long saed blong ol adaptesen-rileded mata.

CRPP hemi wan programatik aproj blong delivarem ol adaptesen solusen we i sapotem olgeta pua pipol long wan gudfala skel, mo hemi operet tru long [Komuniti Resiliens Faenensing Patnaship Fasiliti \(CRFPF\)](#) we ADB i bin establishim long Okis 2021. Hemi gat tu (2) seperet komponen we oli link tugeta: (i) CRPP Trust Fund (TF) we hemi fokus long apstrim sapot blong strentenem inebbling envaeronment blong save implementem ol lokol adaptesen mesa long wan gudfala (bigfala) skel; mo (ii) CRPP Invesmen Fund (IF) we hemi fokus long efisien rolaot blong ol lokol adaptesen mesa tru long ol daonstrim invesmen. GCF hemi no fandem TF. TF hemi wan multi-dona trast fand we ADB i administretem mo Gavman blong United Kingdom, Nordik

Developmen Fand, mo Frenj Developmen Ejensi oli sapotem. Hemi provaedem teknikal asistens mo ol grant long ol selekted kantri blong implementem tri aotput: (i) Noledj mo aksen risej long ol klaemet risk mo aksen risej blong infomem mo sapotem ol pua komuniti blong strentenem ol komuniti-level solusen; (ii) Strentenem institusional mo komuniti kapasiti blong developem mo delivarem ol klaemet adaptesen invesmen long komuniti-level; mo (iii) Aedentifikesen mo priperesen blong ol paveti-sapot adaptesen invesmen projek we i inklusiv. TF hemi inkludem wan spesel jenda windo blong meksua se evri aktiviti we CRPP i faenensem hemi menstrimim jenda ikwaliti mo promotem ol invesmen long adaptesen we i fokus long ol woman.

CRPP IF bae hemi provaedem grant mo loan faenensing we ikam long GCF mo ADB igo long seven selekted kantri: Cambodia, Indonesia, Lao People's Democratic Republic (PDR), Pakistan, Papua New Guinea, Timor-Leste, mo Vanuatu - blong implementem ol lokal adaptesen mesa olsem pat blong ol projek we ADB i faenensem we oli tagetem ol pua mo valnerabol populesen. Bai CRPP IF i delivarem tri klaemet rileded aotput we oli fokus blong proposal ya: (4) ol infomesen mo sistem blong delivarem ol aplaed klaemet-risk informed invesmen long wan bigfala skel; (5) ol klaemet resilient laevlihud invesmen we i sapotem olgeta we oli pua oli implemented; mo (6) ol paveti-ridiusing klaemet adaptesen infrastrakja oli implemented.

Ol indikativ adaptesen invesmen we bae CRPP IF i faenensem we oli sapotem ajivmen blong ol aotput 4, 5 mo 6 oli inkludem olgeta ya:

- a. **Ol infomesen mo sistem blong delivarem ol aplaed klaemet-risk informed invesmen long wan bigfala skel (Aotput 4).** Ol invesmen ya i inkludem impruvmen blong ol klaemet-risk infomesen seves we oli save provaedem rilaeabol, stret infomesen we i beis long past, present mo potensel fujia klaemet, mo bae hemi kritikol blong beta andastanding long ol potensel risk long ol difdifren taem skel, blong manajem ol karent mo fujia klaemet risk akros ol sekta. Ol aktiviti ya bae oli sapotem ol kantri blong developem, mentenem, mo yusum ol klaemet-risk infomesen seves blong desisen-meking we i sapotem olgeta we oli pua, mo daonem ol baria we i rilet igo long lak blong ol stret klaemet infomesen we oli lokoli relevent mo aksesibol. Ol aktiviti eria long saed ya i inkludem: (i) ol klaemet infomesen seves blong ol ki sekta blong mitim ol lokal adaptesen nid; (ii) ol klaemet-risk informed proteksen sistem; mo (iii) ol klaemet risk infomesen sistem blong ol polisi blong disentralaesesen.
- b. **Ol klaemet resilient laevlihud invesmen we i sapotem olgeta we oli pua oli implemented (Aotput 5).** Ol aktiviti blong faenensem hemi inkludem sapot long olgeta pua mo valnerabol komuniti blong bildim kapasiti blong olgeta blong adapt long klaemet jenj tru long ol adaptesen mesa we i help blong daevesifaem ol laevlihud, impruvum ol klaemet-smat agrikaljarol valiu jen, promotem ol integrated mo sastenabol land mo wota manajmen praktis, mo bildim ol niu resiliens skil mo ol maket. Bae i gat nid blong ol niu adaptesen intavansen long level blong farming blong transfomem ol agroekolojikel sistem (eg. Adoptem ol klaemet-resilient krop varaeti mo impruvmen blong graon mo wota manajmen), provaedem ol fama long ol pua komuniti wetem akses long klaemet infomesen, ol eli woning sistem risk manajmen seves we i mitim ol spesifik nid mo sapotem adopsen blong ol niu praktis blong prodaksen (e.g., index-beis weta insurens). Mo tu ol saplae jen long lokal igo kasem nasonal level we oli strong mo meksua se igat wan stedi saplae blong ol agrikaljarol produkt mo sef wetem niutrisies (o stret long bodi) kakae nomata long ol impakt blong klaemet jenj (e.g., impruvum ol transpot mo lojistikal infrastrakja etc.). Ol aktiviti eria i inkludem: (i) ol klaemet resilient agroekolojikel sistem; (ii) ol infomesen teknoloji mo risk manajmen seves blong ol klaemet resilient laevlihud; mo ol klaemet resilient agrikalja saplae jen.

- c. **Ol klaemet adaptesen infrastrukja we oli sapotem olgeta we oli pua oli implemented (Aotput 6).** Hemi inkludem sapot long ol aktiviti we oli apskalem invesmen long adaptesen infrastrukja, i minim ol infrastrukja we oli gat praemeri pepos blong bildim resiliens long klaemet jenj (ino blong mekem ol developmen infrastrukja i kam klaemet-pruf) mo save minimaesem eksposa mo fisikel valnerabiliti blong ol pua mo valnerabol komuniti long ol impakt blong klaemet jenj mo protektem ol prodaktiv aset blong olgeta. i gat preferens blong ol grin (najurol) ova long grey (hadwea materioli) kostol infrastrukja blong ridiusim ol impakt blong ol strong wota we i save afektem ol sho. I posibol blong delivarem ol adisonel sosol mo envaeronmental benefit, blong helpem blong bildim komuniti resiliens, mo semtaem provaedem ol ekonomik benefit. Aotput ya bai hemi sapotem ol taep blong aktiviti ya. Ol aktiviti eria i inkludem: (i) infrastrukja we i beis long ekosistem; (ii) infrastrukja we i givim proteksen long flad mo lanslaed; mo (iii) ol maltipepes imejensi shelta.

CRPP IF bae hemi provaedem grant mo loan faenensing long seven selekted DMC we i inkludem Cambodia, Indonesia, Lao PDR, Pakistan, Papua New Guinea, Timor-Leste, mo Vanuatu, blong implementem ol lokol adaptesen olsem pat blong ol projek we ADB i faenensem blong tagetem ol pua mo valnerabol populesen. Oli aedentifaem sam konsept we oli proposem blong kasem ol aotput antap: (i) Pakistan: Sindh Kostol Resiliens; (ii) Lao PDR: Flad mo Draot Mitigesen mo Manejmen; (iii) Timor-Leste: Ol Agrikaljorol Valiu Jen mo Wota Havesting; (iv) Cambodia: Klaemet Resilient Smolholda Developmen; (v) Lao PDR: Bildim Resiliens mo Ridiusum Rurolo Paveti; (vi) Papua New Guinea: Impruvmen blong Teknikol mo Vokesenel Edukesen mo Trening blong Klaemet Resilient Employment; mo (vii) Vanuatu: Klaemet Jenj mo COVID-19: Bildim Komprehensiv Resiliens long ol Pua mo Valnerabol Grup long Vanuatu. List ya antap hemi risalt blong wan ditel asesment blong klaemet risk konteks long ol difren CRPP kantri, wetem ol on-going klaemet jenj adaptesen long ol kantri ya we i save komplimentem ol aktiviti we oli propos anda long CRPP mo/o oli gat potensel blong dupliketem ol projek we CRPP i fanensem. List ya i ripresentem tu ol ADB invesmen we oli stap naoia long ol eli stej blong konsept be oli gat potensel blong laenap wetem ol objektiv blong CRPP (folem ol faending blong klaemet risk mo adaptesen asesment we bae oli mekem long projek piperesen mo ol nara stej).

Developmen mo implementesen blong ESMF oli bin mekem olsem pat blong komitmen blong CRPP blong manejem ol envaeronmental mo sosol risk mo impakt blong avoedem, minimaesem, mitigetem, mo monitarem ol potensel adves envaeronmental mo sosol impakt blong implementesen blong ol adaptesen invesmen. ESMF bae CRPP IF nao hemi implementem mo mentenem olsem pat blong ovarol risk manejem strateji mo envaeronmental mo sosol sefgad komplaens wok: blong save mitim ol ADB sefgad rikwaemen folem ADB SPS, GCF Rivaesed Envaeronmental mo Sosol Polisi, GIIP, mo ol nasonal mo lokol law blong ol risiving gavman; mo gaedem CRPP IF blong save sistematikeli adresem ol envaeronmental mo sosol risk long ol karent mo fujia potfolio blong ol adaptesen invesmen.

IV. OL ENVAERONMENTAL MO SOSOL MANEJMEN POLISI WETEM OL APLIKABOL RIKWAEMEN

A. Risk Kategoraesesen blong ol CRPP IF projek

Sapot blong developmen mo implementesen blong ol lokolaes klaemet adaptesen solusen, we i mekemap stampa blong aotput 4, 5 and 6 blong men CRPP program, hemi ekspekted blong kontribut long wan klaemet resilient sastenabol development long Asia mo Pasifik. Be ol lokal adaptesen mesa oli save jeneretem ol envaeronmental mo sosol risk mo impakt we oli asesem long bigining blong save givim ol limited adves envaeronmental mo sosol risk o impakt we oli smol namba nomo, oli jenereli saet-spesifik, oli menli rivesibol, mo i save adres tru long ol mitigesen mesa. Folem ol risk kategori definisen blong GCF, envaeronmental mo sosol risk profael blong propos CRPP IF invesmen potfolio hemi olsem wan mediom-level intamediesen (I-2). ESMF ya hemi provaedem fremwok mo ol prosidia gaedlaen blong manejem ol risk we oli asosiet wetem ol invesmen potfolio blong CRPP IF.

Ol aktuol envaeronmental mo sosol risk mo impakt blong ol projek we CRPP IF bae hemi sapotem bae i dipen long ol kaen fakta olsem sekta, saes, sensitiviti mo hao big nao ol potensel risk mo impakt. Ol fakta ya bae oli establishim long taem blong individuol skringing blong ol projek folem ol prosidia we oli aotlaenem long fremwok ya. F. Grivens Ridres Mekanism (proses blong stretem ol issiu o ol harem nogud)

Bae CRPP IF mo ol ADB klaent oli establishim wan grivens ridres mekanism (GRM)²⁰ blong fasilitetem resolusen blong konsen blong ol afekted pipol mo ol grivens long saed blong sosol mo envaermental pefomens blong borowa/klaent long projek level. Link Dokument 2 (Seksan III) i givim wan gaed blong projek-level GRM. Mekanism we bae i stap hemi shud save adresem konsen mo komplem blong ol afekted pipol inkluding long SEAH, kwiktaem, tru long yus blong wan andastandablol mo transparent proses we i jenda risponsiv, kaljoroli apropriet, mo redili aksesibol blong everi segment blong ol afekted pipol. AE i risponsibol blong inkoporettem mo monitarem SEAH privensen, mitigesen mo ol rispons mesa long ol ADB-faenensed projek (olsem Seksan B blong ripot ya i tokbaot). GRM we istap inples hemi save sev olsem wan rod blong adresem ol SEAH-rileded komplem anda long program.

Blong mekem hemia, CRPP IF bae hemi tekem evri neseseri mesa blong ensuarem se GRM inples i adresem SEAH antap long ol envaermental mo sosol impakt aktiviti. Widin skop blong mandet blong hem, CRPP IF olsem AE bae hemi sapotem mo wok in patnaship wetem borowa/risipient blong asesem ol nid blong delivarem wan diu dilijens proses we i fokus long SEAH, monitarem implementesen blong hem, mo putumap ol provisen blong ol stret setap mo supavisen blong ol rispons mekanism.

GCF hemi mandetem se ol akredited entiti we oli akt olsem intamediet oli risponsibol blong meksua se ol klaent o eksekuting entiti blong olgeta oli mitim ol rikwaemen blong ol aktiviti-level grivens mekanism. Mo tu, ol intamediet oli mas kondaktem ol ful diu dilijens mo supavisen blong verifaem komplaens wetem ol rikwaemen ya. Ol rikwaemen oli pwentemaot nid blong establishim mo mentenem ol gudfala efisien mekanism blong risivim ol komplem mo fasilitetem resolusen blong ol komplem ya folem ol aktiviti we CGF i faenensem. Blong adresem ol komplem we i spesifik long SEAH isiu, bae oli implementem wan savaeva-fokus mo jenda-risponsiv grivens ridres mekanism wetem gaedens blong GCF. GCF hemi establishim tu ol nara fomol janel blong kasem grivens ridres, inkluding yus blong GCF Indipenden Ridres Mekanism.²¹

Olsem we Rivaesed Envaermental mo Sosol Polisi blong GCF i talem, mo inkes long eni insident blong SEAH we i tekples (para. 19 (b) mo para. 20), CRPP IE bae hemi meksua se igat: (i) Ol established, aksesibol mo inklusiv savaeva-fokus mo jenda-risponsiv grivens ridres mekanism inples, wetem ol spesifki prosidia blong SEAH inkluding konfidensol ripoting wetem sef mo etikol Dokumenting blong ol kes, we i indiketem wataem mo weaples blong ripotem ol insident, mo wanem folo-ap aksen blong tekem; mo (ii) Ol praktis blong provaedem seves long stret taem blong ridres blong ol savaeva, inkluding weaples we i stret - medikal kea, saekosol sapot, legal sapot, ol komuniti-driven proteksen mesa, mo ri-integresen.

G. Akaontabiliti Mekanism

Akaontabiliti Mekanism hemi impoten tumas blong adresem ol grivens blong olgeta we ol projek i afektem olgeta mo blong meksua se igat komplaens wetem ol operesenel polisi mo prosidia. Antap long hemia, ADB i aknoledjem se blong ajivim ol developmen gol, i nid blong stanap long ol prinsipol olsem akaontabiliti, transparensi, openes, mo pablik patisipesen, long wan hae standed.

Akaontabiliti Mekanism (AM) blong ADB i provaedem wan indipenden mo efektif forom blong olgeta we ol ADB-asisted projek i afektem olgeta. Men pat mo strent blong AM hemi blong wok olwei blong priventem problem, solvem ol problem, mo komplae wetem fremwok: (i) projek-level mechanism; (ii) ol wok blong ADB Operesens Dipatment blong problem solving, komplaens wok mo aksen; (iii) problem solving we ofis blong spesel fasiliteta (OSF) i lidim; mo (iv) riviui blong Komplaens Riviui Panel (CRP). Ol SEAH insident oli aplikabol mo oli konsidarem anda long Akaontabiliti Mekanism.

Ol aetem (iii) mo (iv) antap oli mekemap tu (2) difren ofis blong Akaontabiliti Mekanism. OSF i givim asistens long ol diren pati, speseli olgeta we projek i afektem olgeta, blong faenem ol solusen blong ol problem blong olgeta. CRP hemi risponsibol blong investigetem ol alejed vialesen blong ol operesenel polisi mo prosidia blong ADB, olsem we Bod blong Daarekta i difaenem. Ol vialesen ya i inkludem ol sefgad polisi we oli kosem o save kosem daarek adves mo siknifikent harm (spoelem) ol pipol we projek i afektem olgeta. CRP i givim tu ol rikomendesen blong ensuarem projek komplaens wetem ol polisi mo prosidia. Tugeta ofis i kolaboret blong kondaktem ol aotrij aktiviti blong inkrisim aweanes mo andastanding blong mekanism, insaed long ADB mo eksteneli.

CRPP IF olsem AE bae hemi sapot blong provaedem aweanes blong ol akaontabiliti mekanism opsen mo intregetem igo long ol operesen olsem sefgad trening, ol fakt-faending misen, trening bifo long ol projek apruvol mo afta long taem blong lonjing blong projek, wetem ol aotrij trening program mo ol onlaen modul blong ol afekted pipol mo ol sivil sosaeti oganaesesen.

VI. OL IMPLEMENTESEN ARENJMEN

ADB, olsem wan GCF-Akredited Entiti, bae hemi sev olsem host mo maneja blong ol CRPP IF operesen tru long CCSD. Long rol ya, ADB bae i akt olsem wan faenensel intamediet blong ol ADB DMC, mo givim teknikal asistens fanding we ikam long GCF mo ol ADB sos. CRPP IF istap anda long ambrela rijional patnaship program “Komuniti Resiliens Patnaship Program” (CRPP) we hemi operet tru long [Komuniti Resiliens Faenensing Patnaship Fasiliti \(CRFPF\)](#). ADB hemi establishim CRFPF long Okis 2021. CRPP IF hemi wan komponen blong CRFPF, mo seken wan hemi CRPP TF, tufala i seperet be tufala i link.

Long projek level, ol tim blong operesen dipatmen blong ADB oli gat praemeri risponsibiliti blong meksua se pablik mo praevet sekta tugeta i mitim ol ADB sefgad rikwaemen. Fasiliti Maneja bae hemi jekem se ADB i kondaktem ol neseseri sefgad rivi, ensuarem ongoing komplaens, monitaring mo ripoting, mo konfemem se projek i alaen wetem ol relevant sefgad polisi blong ADB mo GCF tugeta, olsem we oli aotlaenem long CRPP IF ESMF. Bae oli provaedem trening long ol borowa/klaent mo ol projek developmen olsem we i nid blong ol projek, olsem pat blong bigfala inisietiv blong ADB SPS we i gat em blong strentenem ol kantri sistem.

Seksen C blong fanding proposol mo ol relevant aneks i tokbaot ol ditel blong faenensing. Long saed blong implementesen blong level blong ESMF mo M&E, oli putum asaed wan estimated \$6.5 million, mo ij long ol projekted 10 to 15 projek we bae oli kasem sapot bae oli gat wan \$200,000 alotment. Ol ekspet blong human raet mo SEAH bae oli stap insaed long rosta blong ol konsaltent we AE bae i engejem blong kontribut long ajivmen blong ol CRPP IF ESMF objektiv.
