

CONTRIBUTION TO THE ADB RESULTS FRAMEWORK (FOR THE OVERALL PROJECT)

Level 2 Results Framework Indicators			
No.	(Key Outputs and Beneficiaries)	Targets	Methods / Comments
1	Installed energy generation capacity (MW equiv.)	0 MW	500 MW of generation capacity will be available to Bangladesh through the transmission facilities that will be installed under the Project.
2	Transmission lines installed or upgraded (km)	112 km. (400 kV) 8 km. (230 kV)	This reflects the length of the Interconnection in India and Bangladesh.
3	Cross-border Transmission of Electricity	3,456 GWh	This is an annual estimate based on 80% load factor for the transmission line

km = kilometer, MW = megawatt, tCO₂-equiv/yr = tons of carbon dioxide equivalent per year, TWhr equiv. = Tera watt hour equivalent per year, GWh = giga watt hour
