

## CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

<b>Level 2 Results Framework Indicators</b>			
<b>No.</b>	<b>(Key Outputs and Beneficiaries)</b>	<b>Targets</b>	<b>Methods / Comments</b>
1	National, provincial and rural roads (including bridges and culverts) reconstructed and/or upgraded (km)	520	At least 50 km of laterite roads will be reconstructed and upgraded to DBST; at least 476.5 km of laterite roads will be rehabilitated and reconstructed; at least 6 bridges will be reconstructed and upgraded/widen
2	Beneficiaries from road projects (number)	840,000	Population of all provinces affected by the floods is 1.8 million, of which population in five targeted provinces is estimated to be 841,275. Estimates are based on report from NCDM with an average five people per household
3	Land improved through irrigation/flood management (hectare)	25,000	26 irrigation schemes in five project provinces reconstructed and/or upgraded
4	Beneficiaries from irrigation projects (number)	tbd	80% of the rural population drawing livelihood from irrigated agriculture in the 5 targeted provinces

DBST = Double Bituminous Surface Treatment; km = kilometer; NCDM = National Committee for Disaster Management; tbd = to be determined.
