

CONTRIBUTIONS TO ADB RESULTS FRAMEWORK

No.	Level 2 Results Framework Indicators (Outputs and Outcomes)	Targets	Methods / Comments
Transport			
1	Urban roads built and upgraded (km)	75	
2	Beneficiaries from project roads (persons)	263,830	Connection of existing population to the improved networks
Water and other urban infrastructure and services			
3	Water supply pipelines built or upgraded / length of network (km)	38	
4	Sewerage pipelines built or upgraded / length of network (km)	78	
5	Central heating pipelines built or upgraded / length of network (km)	44	
6	Replaced small coal-fired boilers (number)	28	
7	Area covered by solid waste management (km ²)	31	
8	Public and street parks (m ² of green space increased)	122,826	
9	Area of wetlands restored and rehabilitated (ha)	95	
10	Beneficiaries from improved water and other urban infrastructure and services (persons)	263,830	Connection of existing population to the improved networks
Climate Change Mitigation			
11	CO ₂ e emission reduction as result of fuel savings from improved roads and of closure of small coal-fired boilers (t/y)	524,619	

CO₂e = equivalent carbon dioxide, ha = hectare, km = kilometer, km² = square kilometer, m² = square meter, t/y = ton per year.
