\$ = United States dollar, % = percent, ... = no available data, e = estimate, F\$ = Fiji dollar, GDP = gross domestic product, M2 = money supply, p = projection, * = BOP figures excludes aircraft.

^a All figures are based on calendar year except for government finance and external debt data (from Aug to July). The International Monetary Fund (IMF) publishes calendar year government finance data. However, the general trends are similar.

^b Excludes aircraft. The notable difference compared to the IMF estimate in 2019 is due to the treatment of Fiji Airways' 2 new Airbus A350 aircraft. This table excludes this, as it is a one-off shock to the series.
