

## CONTRIBUTION TO THE ADB RESULTS FRAMEWORK

<b>Results Framework Indicators (Level 2)</b>	<b>Targets</b>	<b>Methods / Comments</b>
Greenhouse gas emission reduction (tCO <sub>2</sub> -equivalent/year)	50,000 tons carbon dioxide by 2025	24,000 tons carbon dioxide from the Pink Line, and 26,000 tons from the Yellow Line
Urban rail-and bus-based mass transit systems built or upgraded (kilometers)	64.9 kilometers	
Passengers on urban rail- and bus-based mass transit systems built or upgraded (average daily number in the first full year of operation)	296,000 passengers per day by 2030	158,000 passengers per day from the Pink Line and 138,000 passengers per day from the Yellow Line (Calculation: Ridership numbers divided by two, implying that each passenger makes an average of two trips per day.)
