			47% women (7,228).			

ADB = Asian Development Bank, COVID-19 = coronavirus disease; GBV = gender-based violence; m = meter; PVMC = Port Vila Municipal Council; PVUDP = Port Vila Urban Development Project; sqm = square meter.

Notes:

1. Figures have been rounded off.
2. Based on feasibility studies (9 September 2020). Costs exclude price and physical contingencies.
3. \$1 = Vt114.998, as of 28 June 2020.
4. Estimated average household sized is 4.8 persons.
5. The two multipurpose emergency shelters can be used as a marketplace outside of emergency situations; space is assumed for about 339 stallholders; and occupancy rate is conservatively estimated at 75%.

<sup>a</sup> Number of evacuees is based on guideline figure in the National Disaster Management Office guidelines of 1.5 sqm per person floor area. The numbers may vary during implementation based on COVID-19 related physical distancing requirements.
