

CONTRIBUTION TO STRATEGY 2030 OPERATIONAL PRIORITIES

OP No.	Corporate Results Framework Indicators (Outputs and Outcomes)	Expected Value	Methods and Comments
1.2.2	Models for business development and financing established or improved	5	The indicator will capture new business models supported by the TA related to renewable energies, energy efficiency, regional power trade, the phase-out of coal assets and a just transition towards clean energy
1.3.3	Measures for increased inclusiveness supported in implementation	3	The indicator will reflect national energy policies, regulations or strategies that explicitly incorporate a social inclusiveness dimension, including on matters related to “just transition”
2.3.1	Women with strengthened leadership capacities	30	This indicator will capture the number of women whose capacities have been strengthened on certain technical topics (e.g., energy systems integration) as part of training programs organized by ADB or its partners
3.1.1	Additional climate finance mobilized	\$600 million by the end of 2024	The indicator will capture the volume of ADB-enabled public and private investments in clean energy in DMCs of Southeast Asia
3.1.2	People with increased capacity in implementing mitigation and low-carbon development actions	100	The indicator will reflect the number of individuals from DMCs to have received training in the scope of the TA on topics related to cleaner energy, which all have a mitigation and low-carbon dimension
6.1.1	Government officials with increased capacity to design, implement, monitor, and evaluate relevant measures	30	The indicator will reflect the number of officials from DMCs in Southeast Asia to have received training in the scope of TA supported activities
6.1.4	Transparency and accountability measures in procurement and financial management supported in implementation	1	The indicator will reflect the successful conduct of at least one public procurement process for energy efficient equipment organized with the support of the TA
7.1.2	Measures to improve the efficiency and/or productivity of cross-border connectivity supported in implementation	2	At least two measures to improve regional power trade within countries of the Greater Mekong Subregion or ASEAN are adopted (e.g., adoption of a regional grid code, harmonization of standards for energy efficiency among at least two countries)
7.1.4	Regional or subregional mechanisms created or operationalized to enhance coordination and cooperation among DMCs in energy, transport, or ICT connectivity	2	At least two working groups operating under the auspices of the Greater Mekong Subregion Regional Power Trade Coordination Committee are operationalized

ADB = Asian Development Bank, ASEAN = Association of Southeast Asian Nations, DMC = developing member country, ICT = information and communication technology, OP = operational priority, TA = technical assistance.
