Letter of Admission

Kiel, May 17, 2018

Dear Dean Yoshino,

We are pleased and honored that the Asian Development Bank Institute will join the Council for Global Problem-Solving (CGP) as a full member to serve for a 3-year term, renewable.

The primary responsibility of member institutions lies in the identification of major transnational problems, the formulation of recommendations and visions, the communication of these proposals to potential implementers and monitoring the resulting progress.

The recommendations are to be included in the CGP Website. The aim of this arrangement is to give each member institution a direct stake in the Council, access to the Global Solutions Summit, and a direct voice in the future development of the Council.

Note that joining the Council implies no financial commitment.

Attached is a pdf file that includes the CGP's objectives, its role in the T20 process and activities of the CGP.

We look forward to a fruitful collaboration and important policy and research ideas throughout the coming years.

Best wishes,

Prof. Dennis Snower, Ph.D.
President Kiel Institute for the World
Economy

Dr. Dennis Görlich
Head, Global Challenges Center

Dr. Katharina Lima de Miranda
Scientific Coordinator CGP
